

Extraordinary Comfort WITH THE TOUCH OF A BUTTON

The Marquis remote allows you to turn the fire on and off plus enjoy the ultimate in comfort and appearance with easy-to-use features that include:

Smart Thermostat – modulates the flame height down in accordance to the difference between the set point and the room temperature, allowing the flame to be enjoyed for a longer period of time;

Fan Speed Control – circulates air into your room at your choice of six levels for more or less warmth;

Flame Control – creates a higher or lower flame with six levels of flame height to choose from;

Accent Lighting – six levels of lighting within your fireplace allows you to create the perfect ambience;

Efficient Pilot (CPI/IPI) – IPI (intermittent pilot ignition) reduces gas consumption from the pilot when your fireplace is not in regular use, in colder months you can switch to the CPI (continuous pilot ignition) when you're enjoying your fireplace more often while keeping cold air from penetrating through the fireplace and into your living area.

ENJOY PURE COMFORT AT THE TOUCH OF A BUTTON WITH MARQUIS!
