

BURNER TECHNOLOGY

PRE-MIXED COMBUSTION CHAMBER

Guarantees optimum combustion for every size of Habanero while saving you fuel costs!

TRIPLE-SURFACE BURNER

1. CERAMIC TILE

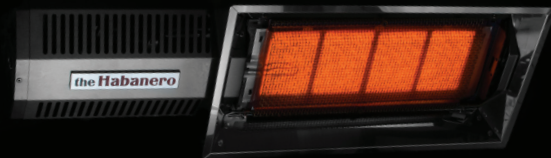

Specialty tiles with a large surface area creates a much stronger and consistent heat pattern

2. RADIATION GRID

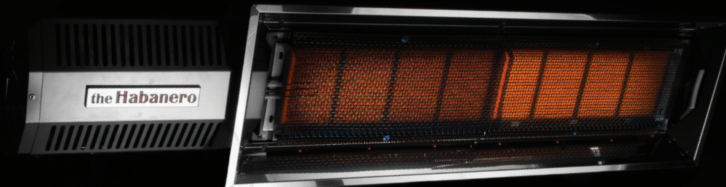

NEW 'High-Grid' technology substantially decreases heat loss

3. WIND GUARD

Used to protect against flame lift-offs from extreme wind conditions

M20 MODEL
15,000 (LO) 20,000 (HI)

M40 MODEL
32,000 (LO) 40,000 (HI)

M50 MODEL
42,000 (LO) 50,000 (HI)

FEATURES

- Available in 33" & 48" lengths
- Dual Input Ranges from 15,000 to 50,000 btu/hr
- Hi/Lo/Off Dual Heat Output Control
- **As Low as 3" Top Clearance!**
- **No Blower = No Noise**
- Polished Heat Reflector
- Ideal for Patio Spot Heating
- Self Diagnostic Potted Module
