BEYOND FIRE

BEYOND... A SINGLE WORD THAT CAPTURES OUR PHILOSOPHY AND COMMITMENT AT OSBURN. THIS IS OUR SOURCE OF INSPIRATION. WHAT DOES "BEYOND" MEAN TO OSBURN?

BEYOND drives us forward when we look at products. We go beyond with what we do and with our interactions in life. It is more than building and selling products. It's no longer about just doing, but doing with a purpose, doing efficiently. It is about exceeding expectations. BEYOND... drives us to do better, to be more functional and achieve higher performance. We believe great products define a great appliance manufacturer. We are not afraid to take the lead or to stretch the boundaries. When you go BEYOND..., you simply go ahead; you look at the present and envision amazing things happening for the future.

*That's who we are, our philosophy. Our hope is to share it with you and we invite you to take the time to **discover how we go beyond.***

BEYOND
SIZE

Osburn is proud to present its 900 model, the smallest wood stove in the Osburn range. The 900 still incorporates the features and the technology of the larger Osburn stoves. This EPA stove packs a lot of heat with style! With an output of up to 40,000 BTU/h, this sturdy heater will keep you warm and toasty. In spite of its size, the Osburn 900 takes an adequate log length of 17", making it an admired option in the small stove market.

Optional: firescreen.

Firebox volume:
1.3 cu. ft.

Maximum log length:
17".

Exterior dimensions:
25 3/4" H
22 7/8" W
21 7/8" D

Optional: premium quality 100 CFM blower with variable speed control.

Optional: thermodisc kit.

Optional: quick connect thermodisc.

Optional: fresh air intake kit.

Optional: flexible insulated fresh air intake pipe (4' length / 5" diameter).

Maximum heat output,
dry cordwood

55,000 BTU/h

SOHO

BEYOND

CONTEMPORARY

DESIGN

Once again, Osburn innovates to offer you the Soho, a small wood stove with an ultra modern design. This stove, which features an exceptional view of the fire, comes with an easy-to-operate door latch system that compliments the clean lines of the appliance. The Soho can be personalized according to your tastes and décor, thanks to its modular side panels available in different finishes and it offers two convenient and safe pedestal choices to store your logs. This stove can be equipped with an optional blower and thermdisc, in addition to being ready for a fresh air connection kit without the need for any special adaptor. The Soho is an ecological heating appliance that will please those seeking efficiency and contemporary design!

Required: black painted or creme or red enameled decorative side panels.

Firebox volume:
1.7 cu. ft.

Maximum log length:
17".

Required: regular pedestal with ash drawer.

Exterior dimensions:
32 7/8" H
25 3/4" W
20" D

Required: two-sided pedestal and ash drawer.

Exterior dimensions:
32 7/8" H
28 1/2" W
20" D

Optional: premium quality 130 CFM blower with variable speed control (thermdisc included).

Optional: quick connect thermdisc kit.

**Optional: flexible insulated fresh air intake pipe (4' length / 5" diameter).

Osburn 1600 on pedestal with brushed nickel plated door overlay.

BEYOND
COMBUSTION

With its perfect balance between power, efficiency and cleanliness, the Osburn 1600 wood stove is truly unique. Able to heat up to 1,800 square feet with a performance of 65,000 BTU/h, it is also environmentally friendly with emissions that may go as low as 0.87 g/h, well below EPA standards. No compromise is necessary with the 1600 – you choose a pedestal or cast iron legs, then you select a black, golden fire brown, gold plated, or a brushed nickel plated door. Whatever your choice, you'll have a beautifully balanced wood stove.

Required: black or brushed nickel plated cast iron door overlay.

Firebox volume:
2.0 cu. ft.

Maximum log length:
17".

Required: black or brushed nickel plated cast iron leg kit and ash pan.

Exterior dimensions on legs:
31 1/2" H

BEYOND

ELEGANCE

The Inspire offers a style that will surely withstand variable trends with these pure lines of balanced proportions, allowing the brand Osburn to easily compare to European-style products. This more contemporary look is available on steel base, soapstone or even a minimalist base for those who prefer to place the unit directly on a non-combustible surface. Equipped with a 2.4 cubic feet firebox and an outside air intake, this unit will meet the requirements of domestic energy standards, not to mention that a mobile home installation is permitted. The Inspire largely meets EPA requirements with emissions as low as 1.54 g/h.

Required: decorative side
panel kit

Firebox volume:
2.4 cu. ft.

Maximum log length:
20".

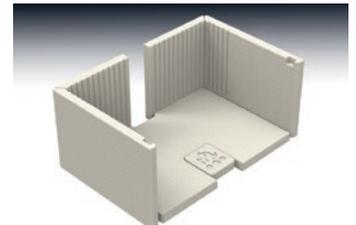

Required: minimalist, steel or
soapstone base kit.

Exterior dimensions:

CHARM

The Osburn 2000 is one of the most popular unit in the Osburn family of wood stoves. Its cast-iron door, which features the distinctive lines you've come to expect from Osburn, gives it a look combining the contemporary and the traditional. With a 2.4 cubic foot firebox, the Osburn 2000 will delight the most serious of wood stove enthusiasts who want both style and heating power. Also equipped with a 130 CFM blower, the Osburn 2000 is the most sought-after model of the season!

Required: black or brushed nickel plated cast iron door overlay.

Firebox volume:
2.4 cu. ft.

Maximum log length:
20".

Optional firescreen.

Required: black or brushed nickel plated cast iron leg kit with ash drawer and safety lid.

Exterior dimensions on legs:
30 3/4" H x 27" W x 29" D

Exterior dimensions on pedestal:
33 1/8" H x 27" W x 29" D

Required: pedestal with ash drawer and safety lid.

Optional: thermodisc kit.

Optional: quick connect thermodisc.

Optional: glass ash lip.

STYLE

Although similar in many ways to the 1800 model, the 2200 stove is suited for intensive, continuous use. Its 20% larger firebox is designed to maintain steady heat over a longer period. A powerful, premium quality 130 CFM blower is available as an option. The glass surface of the bay window is also 20% larger than that of the 1800 model, providing a wonderful view of the fire from every angle. In short, the Osburn 2200 offers a perfect combination of utility and enjoyment!

Required: black or brushed nickel plated door overlay.

Note 1 : Recommended heating area and maximum burn time may vary subject to location in home, chimney draft, heat loss factors, climate, fuel type and other variables. The recommended heated area for a given appliance is defined by the manufacturer as its capacity to maintain a minimum acceptable temperature in the designated area in case of a power failure.

Note 2 : With fresh air intake kit on the pedestal option only. The only appliance on legs that may have the fresh air intake kit is the 2000 model (OB02015).

1100
Insert

The 1100 insert is the ready-made solution for smaller masonry fireplaces. With its flue at a 45° angle, it offers a wide range of configurations. The floor of its firebox is 2.5 inches deep, allowing greater accumulation of ashes and cleaner use. The 1100 insert also comes with a powerful 144 CFM blower. You'll be amazed and delighted by the 50,000 BTU/h of heat it provides!

BEYOND
COMBUSTION

With its compact design, the 1600 insert can be installed in a fireplace as small as 14 3/8" deep. Yet it offers a performance of up to 65,000 BTU/h and burns 17" logs. The standard 130 CFM blower helps maximize the stove's energy performance. The very low emissions at normal operating temperatures, positions the 1600 insert as an excellent choice for those seeking an environmentally friendly and ultra-efficient source of heat.

1800
Insert

Like its cousins in the 1800/2200 freestanding series, the 1800 insert offers the same tried-and tested design and the same great features, including a magnificent view of the fire through the bay window. It is also equipped with a powerful blower, transforming your old, inefficient fireplace into a highly effective heating system. The 1800 insert is both practical and elegant. It is a perfect choice to upgrade your living room or basement fireplace.

ELEGANCE

This wood insert will bring an unmatched modernism to your decor, in addition to perfectly combining functionality and comfort. The impeccable lines display a timeless style while guaranteeing reliability and durability. The Inspire will charm you as much by its aesthetics as its 77% optimal performance. With its particle emission rate as low as 1.54 g/h and its high-performance combustion system, environmentalists have never been as happy with wood heating. The Inspire Collection celebrates our past and embraces our future as our team is committed more than ever to our industry's contribution to sustainability. A dream opportunity on the latest trends!

2000
Insert

With its 2.4 cubic foot firebox, the Osburn 2000 insert offers an alternative to the people who love its freestanding counterpart. The two models share the same high quality combustion properties and many of the same features. The Osburn 2000 comes with a standard high-power, heat-activated 144 CFM blower strategically positioned to redistribute the heat from the firebox into the room. The 2000 model is designed to receive an optional faceplate that can cover a masonry hearth up to 32 inches (81 cm) high and 50 inches (127 cm) wide. The door overlay is available in black or brushed nickel plated finishes. The faceplate trims are available in black or brushed nickel.

CONTEMPORARY

The Matrix wood insert defines the new standards for contemporary look and performance. This appliance looks like a fireplace, but has all the advantages of an insert. Its faceplate and blower assembly were developed to allow a flush finish with the masonry fireplace. Cast iron was selected as the material of choice for this clean and modern unit. Installation into larger openings is facilitated by the use of an optional sheet metal backing plate. This insert will surely become the focal point of the room.

STRATFORD

BEYOND

DESIGN

Here's what you've been hoping to find, a decorative and efficient wood fireplace that meets EPA emissions standards. That's saying a lot, but the Osburn Stratford has much more to offer, including a 2.5 cubic foot firebox that's easy to access through double-cast iron doors. The Osburn Stratford will impress you with its distinctive style and exceptional Recommended heating area. Several options are available, including a air distribution systems for heating adjacent rooms (see page 32). With the Osburn Stratford, there's a world of possibilities waiting for you!

Required: black or brushed nickel plated cast iron door overlay.

Optional faceplate:
Prairie style, traditional or traditional with brushed nickel accents.

Firebox volume:
2.5 cu. ft.

Required: traditional, traditional with brushed nickel accents or "Prairie-style" faceplate.

Exterior dimensions:
47 1/8" H
37 7/8" W
29 5/8" D

Maximum log length:
21".

Optional: forced air distribution kit controlled by wall thermostat (see page 32).

Optional: 6" x 25' insulated flex pipe for forced air distribution kit.

Optional: hot air gravity distribution kit traditional style or modern with adjustable pipes. (see page 32).

Twin premium quality heat activated 176 CFM blowers included.

Fresh air intake kit adapter 3" or 4" diameter included.

Optional: 3" flexible insulated fresh air intake pipe (10 feet).

29 1/4" D

Maximum log length:
16".

Optional: forced air distribution kit controlled by wall thermostat (see page 32).

Optional: 6" x 25' insulated flex pipe for forced air distribution kit.

Optional: hot air gravity distribution kit traditional style (see page 32).

Twin premium quality heat activated 144 CFM blowers included.

Fresh air intake kit adapter 4" diameter included.

Optional: 4" flexible insulated fresh air intake pipe (10 feet).

Maximum heat output,
dry cordwood

95,000 BTU/h

Recommended heating area

1,000 – 2,800 sq. ft.*

Fuel

Size

XL

A hot start is always your best guarantee for a clean burn. The Horizon uses an automated combustion air intake system that allows the fire to reach an ideal temperature before going into slow burn mode. The result is very low emissions, without the need for a catalytic combustor.

Horizon, extra-large wood-burning fireplace. Installation requires an 8" chimney.

Emissions
1.6 g/h

Optimum efficiency
69.7 %

OB04010

HORIZON

BEYOND

SIZE

This wood fireplace offers peace of mind due to the combination of energy efficiency and clean heating. A simple solution; its clean design suits any type of décor.

Large fireplace. Behind its large glass door, the 4.28 cubic foot combustion chamber can hold an impressive 60 lb of wood.

Low emissions. This energy efficient fireplace complies with the EPA's clean-air standards (only 1.6 g/h of emissions).

High efficiency. The Horizon fireplace is capable of heating large spaces and burns for 10 hours.

Required: Prairie-style faceplate.

Firebox volume:
4.28 cu. ft.

Required: Classic moulded refractory brick panels.

Exterior dimensions:
43 3/8" H
50 3/4" W
31 3/4" D

Maximum log length:
25"

Optional: forced air distribution kit controlled by wall thermostat (see page 32).

Optional: 6" x 25' insulated flex pipe for forced air distribution kit.

Premium quality 176 CFM heat activated blower with variable speed control included.

Option: warm air circulation grille - modern style.

*See the complete technical data on pages 30 and 31.

Note 1 : Recommended heating area and maximum burn time may vary subject to location in home, chimney draft, heat loss factors, climate, fuel type and other variables. The recommended heated area for a given appliance is defined by the manufacturer as its capacity to maintain a minimum acceptable temperature in the designated area in case of a power failure.

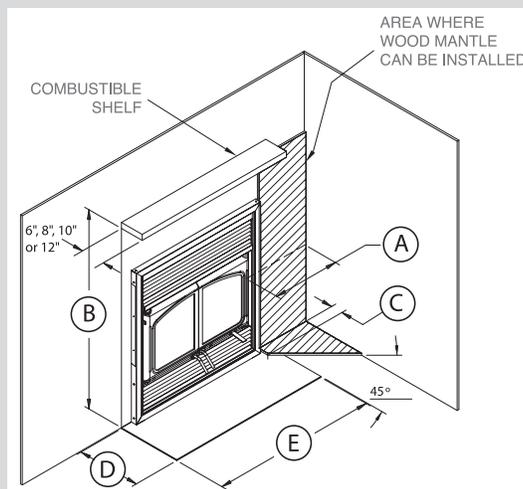

Note 2 : Specific components may be required depending on the chimney manufacturer.

IT'S NOW TIME TO MANAGE HEAT DISTRIBUTION!

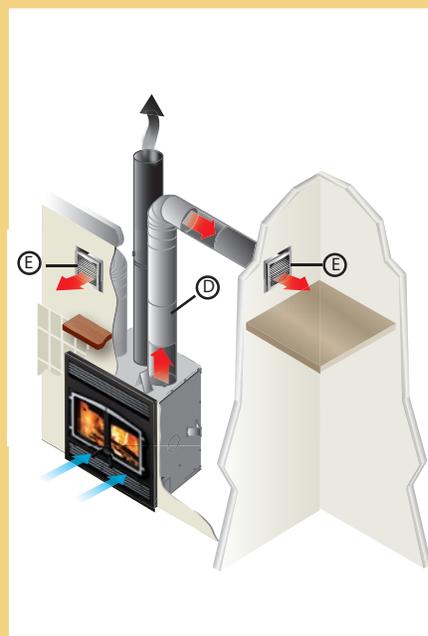

EPA certified wood fireplaces generate a lot of heat. For the most part, they generate too much for the room where they are located. Therefore, you need to manage the excess heat and send it where it is needed. To provide a solution, our research and development laboratory has designed the HEAT MANAGEMENT SYSTEM, an innovative technology that allows the recovery of the heat produced during combustion to redirect it into distribution ducts to heat other areas in your home.

Forced air distribution kit

This system allows you to manage the heat distribution automatically. Using a wall thermostat, you can select the temperature you want to maintain in the room where the fireplace is located. Once the thermostat is satisfied, the excess heat is redirected to another room up to 50 feet (15 m) away from the fireplace using a 300 CFM blower. That way, you can enjoy a nice fire in your living room without the discomfort of excess heat generated by your Osburn fireplace.

The system can also be used to supplement heat in a room remote from the fireplace. For this type of application, the thermostat needs to be positioned in the desired room and programmed with the temperature to be maintained. The system, now in “heat mode”, will activate the blower as long as the temperature in the remote room is not achieved and that the fireplace has enough heat to distribute.

Osburn also offers you another way to distribute excess heat into your home with the help of a hot air gravity distribution kit.

Hot air gravity distribution kit

The hot air gravity distribution kit allows you to bring hot air into the same room as the fireplace, in adjacent rooms, or up-stairs at a maximum distance of 10' (3 m). The minimum height of the hot air duct must be 68" (1.7 m) measured from the base of the fireplace to the top of the hot air register.

Suggested installation : A) Wall thermostat B) 300 CFM blower C) Hot air flexible pipe D) Hot air rigid pipe E) Air register.
The information contained in this page is for information purposes only. For a detailed part list of kits content, please refer to the owner's manuals.

For more details about the installation requirement of the **forced air distribution kit** or the **hot air gravity distribution kit**, visit www.osburn-mfg.com/en/service-support/heat-distribution-system

ACCESSORIES

FIREPLACE TOOL SETS

CODE: #AC02620

DUPLEX

Contains four instruments: poker, broom, shovel and clamp. The clean lines and combination of steel and wood construction make a strong contemporary design statement.

Height of accessories:
19 1/2" (50 cm)

Made in France.

CODE: #AC02621

INEO

Contains four instruments: poker, broom, shovel and clamp. The clean lines and simplicity make a strong contemporary design statement.

Height of accessories:
19 1/2" (50 cm)

Made in France.

CODE: #AC02622

PAPYRUS

Contains four instruments: poker, broom, shovel and clamp. The dramatic use of steel makes a strong contemporary design statement.

Height of accessories:
19 1/2" (50 cm)
Base diameter:
7 1/2" (19 cm)

Made in France.

CODE: #AC02350

EQUISS

Made of high quality steel. Its integrated handles make handling easier. Two identical parts that intersect easily. Assembly and disassembly in seconds for compact storage.

Height: 15 1/4" (38 cm)
Length: 24 1/4" (61 cm)
Depth: 13" (33 cm)
Weight: 28 1/2 lb (13 kg)

Made in Canada.

new

CODE: #AC02628

NORDIK

Contains four accessories: poker, broom, shovel and tongs. Its wooden base and steel structure gives it an industrial look, perfect for contemporary or rustic spaces.

Support height:
21 7/8" (53 cm)
Length: 9 1/2" (24 cm)
Depth: 4 3/4" (12 cm)
Made in France.

CODE: #AC02629

PETALE

Contains four accessories: poker, broom, shovel and tongs. A nice option for those who want to camouflage tools for a more decorative look.

Height:
20" (51 cm)
Diameter:
7 1/2" (19 cm)
Made in France.

new

CODE: #AC02630

FOREST

Contains four accessories: poker, broom, shovel and tongs. A beautiful addition to your rustic decor, both for the cottage and at home, thanks to its forest relief.

Height:
20" (51 cm)
Diameter:
7 1/2" (19 cm)
Made in France.

new

CODE: #AC02631

SPEKTRA

Contains four accessories: poker, broom, shovel and tongs. You will appreciate its futuristic look for a unique atmosphere.

Height:
20" (51 cm)
Diameter:
7 1/2" (19 cm)
Made in France.

ACCESSORIES

OPTIONS

GLASS HEARTH PAD PROTECTION

This light-colored tempered glass hearth pad is particularly resistant to shocks. This glass plate is a safe and durable choice for your fireplace and will add elegance to your decor. Its manufacture is precise and neat: polished edges and non-cutting corners.

Four sizes:

- 54" x 46 3/4" (AC02703)
- 44" x 36" (AC02704)
- 50" x 18" (AC02760)
- 70" x 20" (AC02761)

Thickness: 10 mm

CERTIFIED MODULAR HEAT SHIELD

A simple, attractive, and safe solution to effectively reduce wall clearances, and ensure maximum protection of the floor. Easy assembly, the modular system will blend in with any room decor. Powder coated steel panels offering superior durability and quality.

NON-COMBUSTIBLE MANTELS

Incredibly realistic wood-like detailing. Two shades: washed cedar and tavern brown.

Two lengths: 60" and 72"

Height: 8"

Depth: 8"

- 60" washed cedar (AC02780)
- 72" washed cedar (AC02781)
- 60" tavern brown (AC02782)
- 72" tavern brown (AC02783)

OSBURN

**LIMITED LIFETIME
WARRANTY**

on Robax Ceramic Glass

The OSBURN-SCHOTT ROBAX system is one of the highest quality glass and heater product combination on the market. This allows OSBURN to offer a Limited Lifetime Warranty on Robax ceramic glass for all OSBURN appliances.

Conducted consumer studies identify that people want an unobstructed view of the fire, but without compromising safety. The glass “shield” is seen as the needed protection from the fire’s unpredictable aspects. OSBURN chose the SCHOTT ROBAX solution delivering all of the benefits that a consumer wants out of a fire but without the risks associated to it.

Because the way the entire system works together (SCHOTT ROBAX ceramic glass and OSBURN technology), it is the most efficient glass solution available in the market given its high IR transmission values and its high temperature resistance. A high IR transmission means that the heat produced inside the firebox is transferred through the glass more efficiently. The OSBURN-SCHOTT ROBAX ceramic glass can withstand the highest temperatures of any glass on the market.
