# PANDARINE

PRODUCT FACT SHEET

## PANDARINE

DESIGN BY INGA SEMPÉ, 2020

Inga Sempé's Pandarine fuses the luxurious comfort of a bed with the versatility of a modular sofa in an elegant and versatile design. The armrests come either in a cylindrical form, or with a reclining design that can be adjusted individually in the same way as the metal-hinged backrests. This gives Pandarine the ability to transform into a unified, mattress-like surface where the backrests serve as huge, soft pillows. Constructed using a combination of Nozag springs, foam, and wadding, Pandarine is designed to provide exceptional comfort in any number of sitting or lying positions. Available in two- and three-seater versions with options for additional chaise longues and corner modules, its range of textiles and configurations give it great flexibility for use in a variety of private and public contexts.

Embodying the concept that design should follow construction, Andreas Engesvik and Daniel Rybakken's Arbour is assembled from separate components that have been independently produced for optimal comfort, quality, and efficiency. Developed to offer a compact and durable sofa with a sustainable profile, the Arbour Sofa features the EU-Ecolabel, with FSC-certified wood and water-based lacquered frame, and EU-Ecolabelled upholsteries for the Eco version. ## FABRIC DIRECTION

The direction of the fabric varies depending if the sofa is low-or highbacked or a 2- or 3-seater, as they are upholstered lengthwise or widthwise. Therefore, this might create a visible difference in the direction of the textiles when combining different sofa variants. The difference varies from textile to textile, but is most noticeable in structured or striped upholstery.
