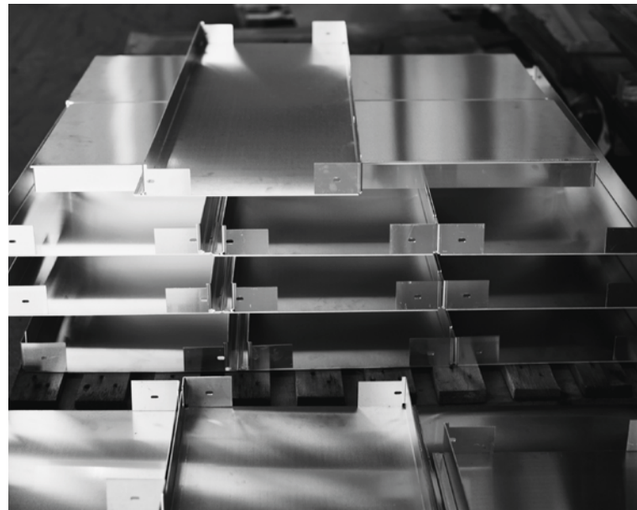
ABOUT

Founded in 2017 and led by Manuel Amaral Netto and Tomás Carvalhas, UTIL is a young Lisbon based design brand with a clear focus on enduring and functional storage furniture made from high quality materials. Transcending product design, UTIL's philosophy of simplifying and focusing on the essential is inspired by people and everyday life, every piece of the formally simple and architectural influenced collection is made to last a lifetime.

UTIL's understated yet unique furniture is designed to be helpful and subtle. Meaning 'useful' in Portuguese, UTIL develops solutions for the increasingly scarce living space in metropolitan areas. The high quality and timeless design of its objects will accompany the user through a lifetime of changing environments. The enduring products are easy to assemble and move around, blending in and adapting to life's ever-changing needs.

PRODUCTION



All our products are made locally, in Portugal, renowned for its expertise in various materials and finishes. We continuously push the boundaries of production, striving for elevated standards. The close proximity to our headquarters enables us to closely monitor production quality and adapt our products with greater flexibility

CATCHING UP WITH

"Catching Up With" comprises a series of house visits, enabling us to delve deeper into how individuals integrate our products into their private spaces.

DESIGNERS

When designing new furniture and accessories for the modern home UTIL underlines the importance of sticking to the essential. For that, we rely on a group of exceptional emerging designers working together with the know-how of the best manufacturers in Portugal who love and understand their craftsmanship, while nourishing a collaborative relationship in order to develop the most pertinent furniture for the market.

FROM INDUSTRIAL DESIGN is a collaboration between Cesare Bizzotto and Tobias Nitsche founded after having obtained their Master together in Product design from ECAL (CH). As a team, they take advantage of their cultural diversity, at the same time sharing a common vision on design. Their thorough approach to the project has allowed the two young designers to immediately collaborate with some of the most prestigious companies in the sector.

CP RV is a collaborative project run by Camille Paillard and Romain Voulet, working between London and Marseille. Formed by designers gathered together from different backgrounds, the practice designs products, home furniture, interior spaces and things to live with.

MANUEL AMARAL NETTO graduated from ESAD-Cr in 2006 acquired a Master in Design Products at ECAL (CH) in 2013. Co-founds FROM INDUSTRIAL DESIGN in 2014 He has since then worked for a variety of different brands and institutions such as Cassina (IT), USM (CH), Leucos (IT), Baccarat (FR), AICEP (PT) or Vista Alegre (PT).
He is the founder and creative director of UTIL.

JEANNE MERCIER is a product designer based in Paris, born in 1998. She graduated from ECAL/University of Art and Design in Switzerland in 2019 with a degree in Product Design, where she developed a keen eye for detail and an interest in shaping materials. After graduation, Jeanne began working as a project assistant for Julie Richoz and Rodolphe Parente. In addition to her work in industrial design, Jeanne has also established herself as an independent designer. Her creative projects span a variety of disciplines, including furniture, textiles and set design, and are characterised by their practicality and versatility. Jeanne's designs focus on meeting the needs of the user, while reflecting her sensitivity and curiosity about craft.
