**1** With the parts laying on a soft surface start by assembling the top shelf and the top screw. This way the parts will hold while you attach the other screws.

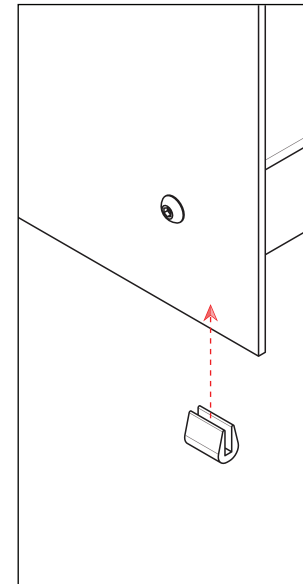

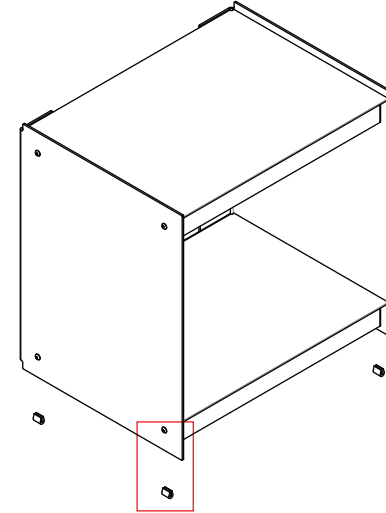

We recommend that you assemble your Plié with its back laying on a soft surface such as a carpet.

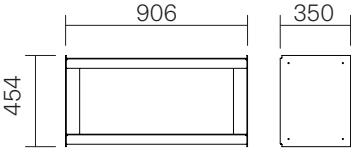

**2** Do not forget to put a washer in between the nut and the Plié.

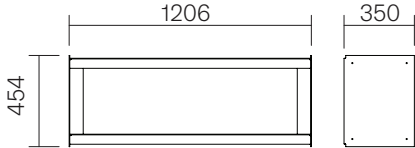

**3** Last step is to slide in the four rubber feet on the bottom part of the Plié.
