

IHC12 Infrared Heater

Article Number: 19603

Description

For soft and effective heat

Carbon infrared heater IHC produces a gentle and direct heat which together with the soft glow, is ideal outdoor restaurants where design is important. IHC has a heat distribution best suited for close and slighter installations.

- Max. filament temperature 1200°C
- Carbon lamp, yellow-orange glow, with high intensity and a highly-polished reflector for optimum heat distribution.
- Output: 1150W - 1750W
- Recommended installation height 1,8 - 3 m
- IP44

Technical parameters

Installation	
Max. installation height	3,000 mm
Nominal data	
Heating type	Electric
Color casing	White aluminium
Color casing, RAL	RAL 9006
Dimensions and weights	
Width	500 mm
Height	169 mm
Depth	77 mm
Weight	2 kg
Electric heat	
Input power, heater	1.2 kW
Current heating	5 A
Voltage heating	230 V
Phase(s)	1~
Max. element temperature	1,200 °C
