(with optional feet)**

74L

Water Reservoir

Grow up to

14kg

per annum

SAFETY WARNING

Biofilta Foodcube Slim has a deep soil profile and large water reservoir capacity. The total weight of the container, soil, water and plants of a single 0.77m2 Foodcube Slim is up to 175 kilograms which is the equivalent of 2 adults.

Before you install any Biofilta product on decks, rooftops, balconies or any other raised structure you must consult a qualified professional such as a structural engineer to ensure the structure has the appropriate load-bearing capacity and is structurally sound. Please ensure they are installed away from handrails, fall zones or pool fences where they could be used as climbing structures by children or pets.
