

**Aeris
Muvmat**

A walk in the woods – on half a square metre.

Many benefits. Simply good.

Increased focus and concentration.

From the very first use, the standing mat has been proven to improve the short and long-term ability to concentrate and learn. And this effect increases the longer the mat is used.

Sensors activate muscles and circulation.

The standing mat stimulates the reflex zones, the musculature and the circulation. It's just like walking in a forest.

Foot massage included.

The AERIS Muvmat relieves the legs and the whole body. People at standing workstations are able to stand for longer periods of time without tiring or discomfort. The Muvmat makes work feel like a walk in the woods.

Creativity on two legs.

Unlike standing on smooth ground, standing on the AERIS Muvmat boosts creativity. This is where good ideas come from.

Relaxed and improved posture.

On the AERIS Muvmat, your posture is demonstrably improved. This leads to a relaxation of the neck and shoulder muscles.

01. **Comfort zone:** relief through elastic and highly resilient integrated black foam.
02. **Active zone:** Topographical 3D structure, activates body and mind.
03. **Safe to stand on thanks to beveled edging.**
