Lookbook

Spring 2024 Collection

Volume 001

Welcome to Luxury Sleepwear for Real Women

Moonlit Finerie is a luxury sleepwear line fusing vintage inspired looks with modern design, laces and fabrics. Our flagship silk nightgown collection has been meticulously engineered to showcase the best parts of women's bodies, inspiring comfort, confidence, and power.

We want to be your favorite nightgown. That's why we chose a drapey silk charmeuse fabric with subtle stretch, and carefully placed each seam to flatter every body, in sizes XS – 3X.

Our brand is defined by the idea of conscious luxury. First and foremost, we want to make beautiful, special garments that make you feel great. However, it's also important to us to support local economies and minimize environmental impact as much as possible. That's why every piece is designed in Austin, Texas, and expertly manufactured right here in the U.S.
