3: Glue shown pieces together. (x 2). P.s. Use clamps until glue is dry.

4: Glue together shown pieces, and use clamps until glue is dry. First glue on middle section, and let it dry. Then glue on the last two.

Assembly Instructions for "Bridge"

5: OPTIONAL. Before painting, smear PVA glue onto bridge surface, and sprinkle on fine sand. This gives the bridge a more rough, and natural looking surface, and prevents placed miniatures from "sliding down" so easy, when placed on the obliged parts of the bridge.
