Optional: If you want the model to look even cooler, here is a suggestion.

1: Smear PVA glue onto the building, but NOT on the spots that has engravings. (Red circles).

2: Sprinkle on fine sand, and let it dry.

## Assembly Instructions for "Middle Eastern Store - Two Storey"

**3: When dry, paint sand with white, off white or khaki. (I used The Army Painter Matt White)  
Paint engraved spots, and stone floor on ground floor with dark grey and highlight with light grey.  
(I used The Army Painter Uniform Grey and Vallejo Sky Grey.)**

**4: When the paint is dry, use wash. I used Vallejo Grey on the white parts and  
The Army Painter—Strong Tone on the grey parts and all wood parts. Paint stairs for roof  
in a metal colour, and then add rusty colours.**
