

Assembly Instructions for "General Store"

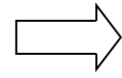

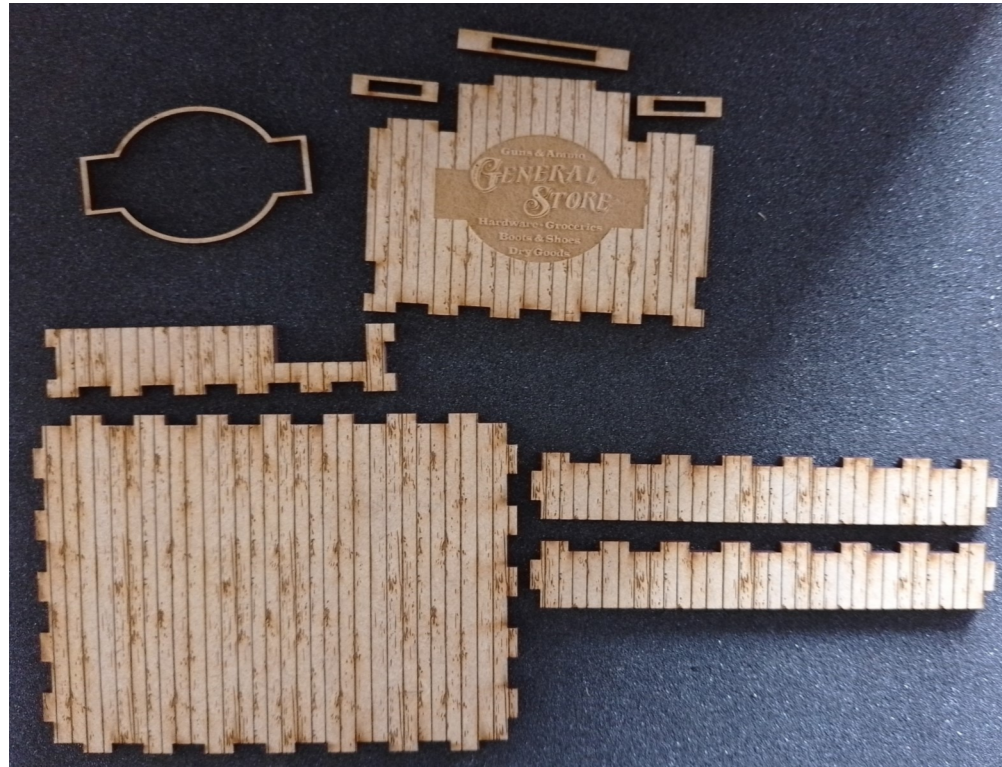

1: Glue windows into wall pieces. Glue pieces A into wall pieces (B and C) w. door openings. Place piece A with hole to the left. Make sure windows and piece A is centered in wall. Be careful NOT to get glue on taps and holes of window pieces. Glue window frame onto wall piece C.

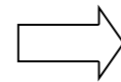

Assembly Instructions for "General Store"

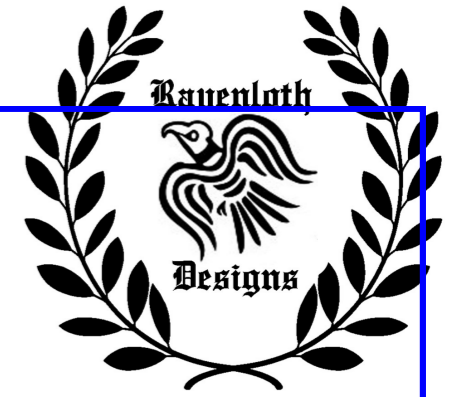

2: Glue together shown pieces for the roof. Add a rubber band until glue is dry.

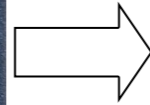

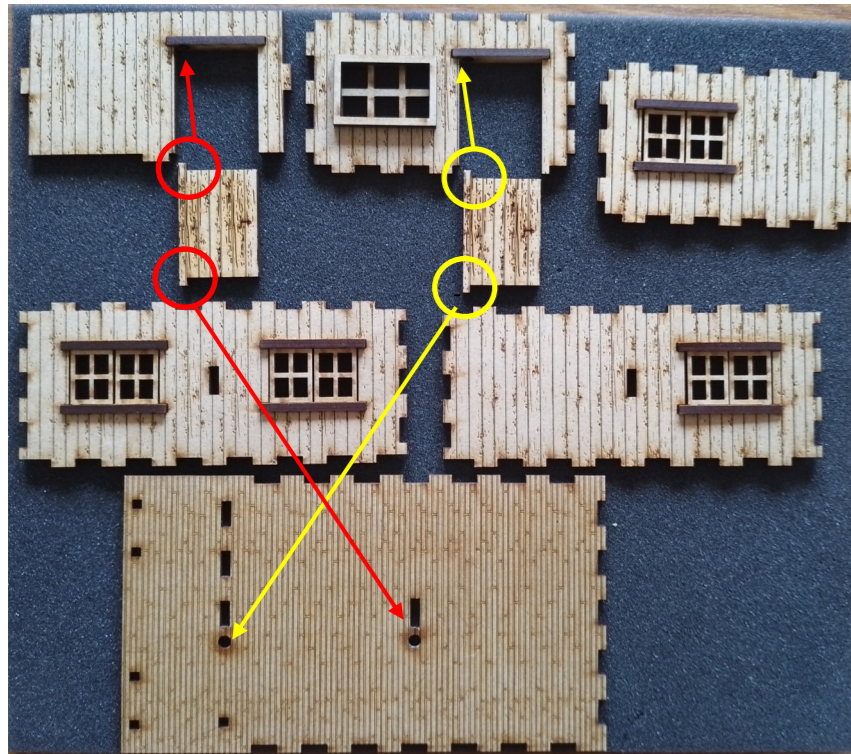

3: Glue shown pieces onto bottom of roof. Make sure piece is centered.

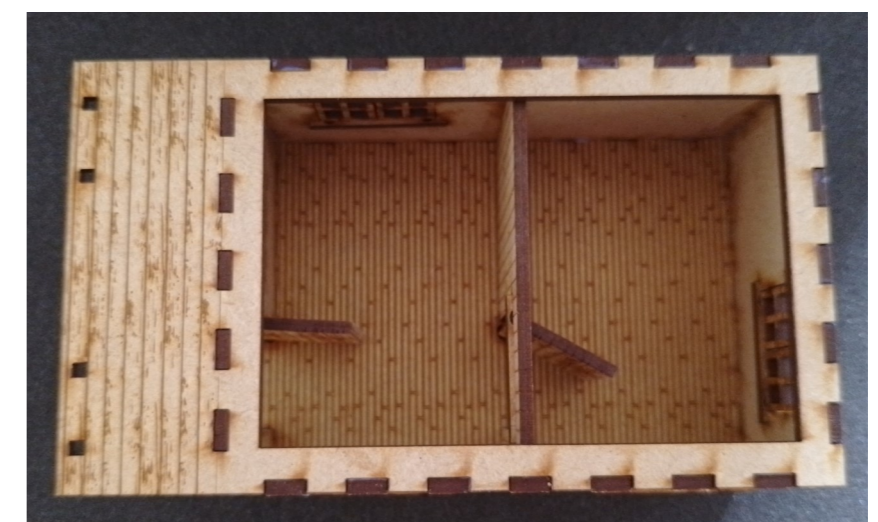

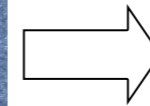

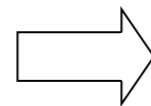

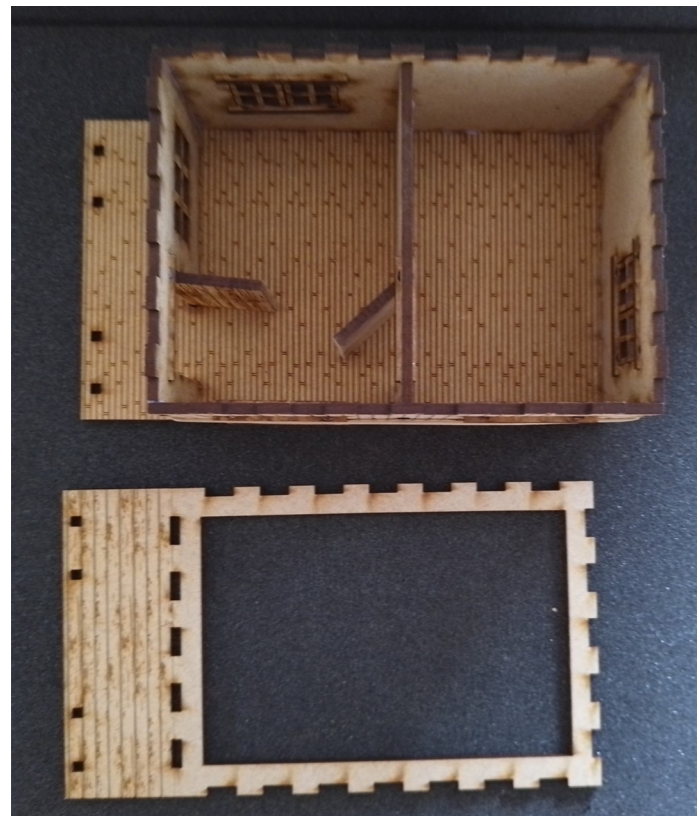

Assembly Instructions for "General Store"

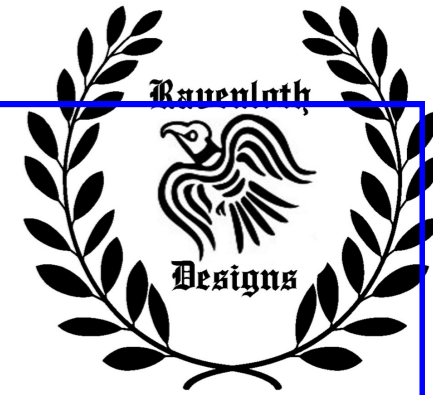

4: Glue shown pieces onto bottom piece. Do NOT glue doors. Taps on doors goes into holes in bottom piece and pieces A in wall piece. Add a rubberband.

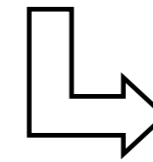

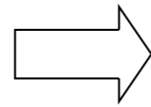

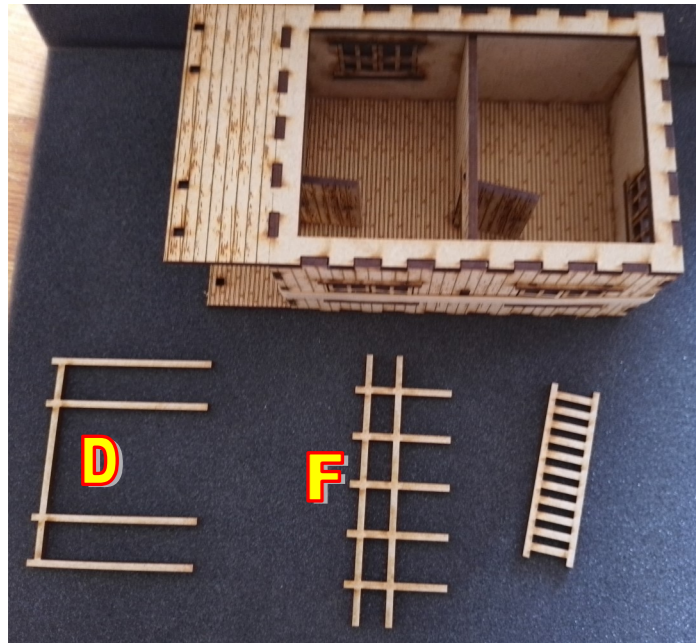

5: Glue shown piece onto the model. Use gentle strokes from a hammer, to get piece in place (Red circle). Leave rubberband on until glue is dry.

Assembly Instructions for "General Store"

6: Glue shown piece onto the model. On piece D, use a little sanding on both sides to make it "slide into place" a little easier. Then add piece F.

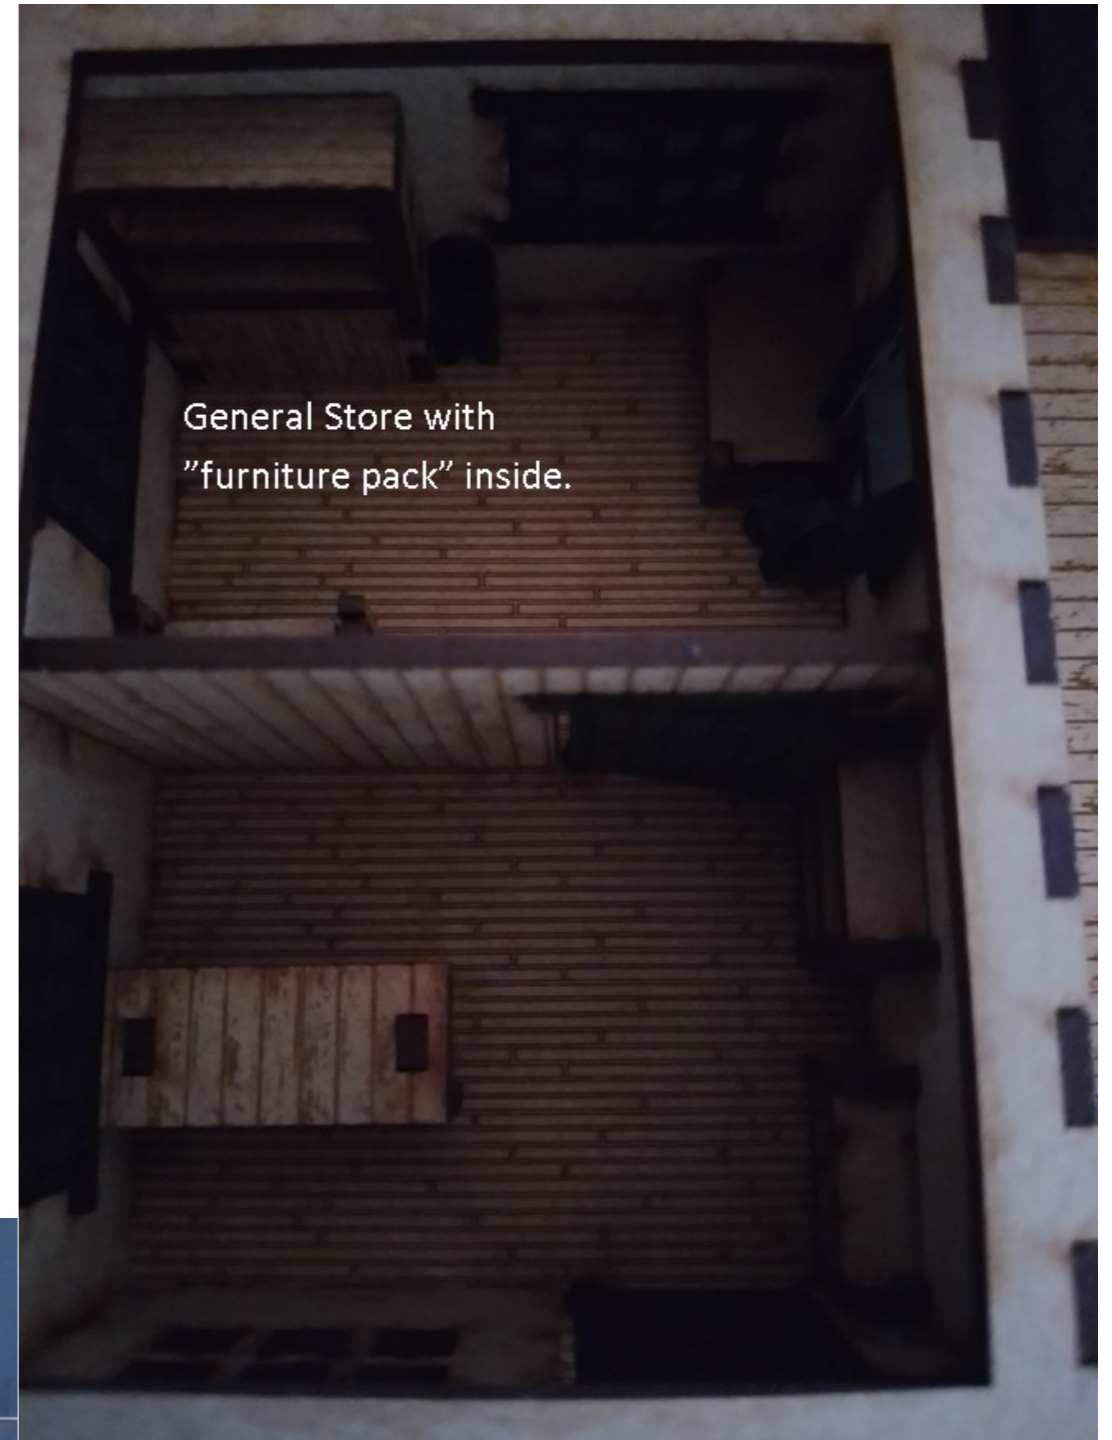

7: Finally glue ladder onto backside of the model.
