User Manual

03 / Operations

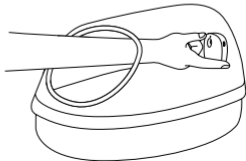

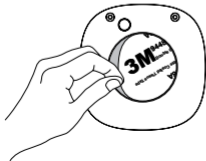

- 1) Wipe and clean a spot above the litter box (ideally 20-40 cm away from the litter box) or the inside the litter box. Use a dry cloth, DO NOT use cleaning agent so as not to affect the stickiness).

- 2) Press briefly to turn on the eliminator: the LED indicator will flash three times.

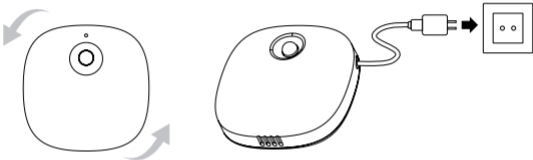

- 3) Peel off the 3M sticker on the back, place the air outlet downward, stick it on the desired location and press it evenly for 10 seconds to make sure it's firmly attached.

Charge

Rotate the Eliminator 90° counterclockwise to remove it or plug it directly to the mains to charge. It will be fully charged in 3.5 hours.

** The power unit needs to be purchased separately!*

Function

Working method: Continuously emits for 15 seconds once per 15 seconds.

After motion detection: The device will stop working after its motion sensor is triggered. 1 Minute after the pet has left the area it will emit for 20 minutes.

04 / Quick Setup

- 1) Scan the QR code or download the Pettadore App from App Store and Google Play. Sign up and sign in to the app.
- 2) Click the '+' button and be guided through the SET-UP steps.

Notice: Due to the upgrade and update of the Pettadore App, the actual operation may be slightly different from the above description. Please follow the instructions in the current Pettadore app!
