

Biocide Systems  
459 East 4th Street.  
Los Angeles California 90013

Dear Spencer and Brent

We just wanted to let you both know how much we love your product. We have struggled for years, tried everything under the sun and then some to deodorize our used cars. The first vehicle that we tried Biocide in was a 2011 GMC Acadia Denali. The cigarette smoke odor was terrible. We tried the auto Shocker overnight and unbelievably the cigarette odors were gone.

I sold that vehicle to my very best friends and I ride in the vehicle frequently, and 6 months afterwards it still smells fresh with no returning or lingering cigarette odor.

All I can say is that this product does exactly what you proclaim it does, and at a very reasonable cost. You can't ask for more than that.

We recommend it highly to all of our friends in the auto business.

Best of Luck

Regards
