Easy Connect Pro HDMI eARC

Powerful and reliable 8 channel transmitter

Powerful and reliable WiSA transmitter

This compact device mounts on the back of any eARC compatible TV to transmit audio at up to 96k sample rate and ultra low latency down to 2.6ms.

Supporting the latest eARC technology, Easy Connect Pro is easy to setup and conveniently provides up to 8 channels of decoded audio right from the TV, when paired with any WiSA speaker. Transform your living room into a true home theater.

The Platin Easy Connect Pro is a WiSA certified wireless transmitter designed for WiSA Certified speakers.
