

GAGGIA

MILANO

It was the years-long quest to create the perfect espresso, against the backdrop of 1930s Milan, that gave birth to one of the most iconic Italian brands in the world. In 1938, the Italian barista Achille Gaggia filed the patent that signaled a revolution in the way the aromas are extracted from coffee, allowing us to taste the perfect Italian espresso, complete with its 'crema', for the very first time: a unique pleasure.

Today, as it was then, Gaggia's mission is to take the tradition of the Italian espresso to the world. The company's unchanging values of tradition and professionalism are an intrinsic part of all the machines in its range, which addresses the requirements of coffee professionals by combining state-of-the-art technology with sophisticated design.

G150

G150 is the new fully automatic coffee machine by Gaggia Milano. It is easy to use, both by staff and in self-service mode. Just a touch, and anybody can get a high quality drink.

HIGHLIGHTS

- Layout: 2 beans + 1 powder (chocolate or French vanilla)
