March 23, 2018 – Winter Park, Fla. – Harnessing the inventive, can-do spirit that has characterized the brand for 37 years, **Barnie's Coffee & Tea** is partnering with one of Orlando's most iconic locales, Orlando Science Center – with the continued commitment of creating everyone's perfect cup of coffee, with a dash of adventure.

The partnership, almost two years in the making, is an exciting opportunity to further cultivate Barnie's part of the Central Florida community, while continuing to explore new grounds. Orlando Science Center will be offering a full service coffee menu and is scheduled to open early April 2018. This new venture will provide Science Center members and visitors the opportunity to enjoy a cup of gourmet coffee, a latte, cappuccino or smoothie while engaging in hands-on science fun and discovery. All proceeds from coffee sales support the Science Center's mission.

We're excited to team up with Orlando Science Center as their coffee partner- it's an amazing landmark for us to launch our newly created Corporate Café program.

– Scott Uguccioni, Chief Sales & Marketing Officer, Barnie's Coffee & Tea

Barnie's Coffee & Tea was founded in 1980 to bring great coffee to everyone – not just the lucky citizens of cosmopolitan neighborhoods. Now that the whole word is coffee-crazy, the company delivers on that mission with category-wide consumer products at a variety of price points and flavor profiles, from exclusive micro-batches to popular flavored coffees, and from single-serve solutions to wholesale and office coffee.

For over 60 years, Orlando Science Center has been a place that inspires science learning for life through immersive and iconic experiences. Four floors of exhibits, films, activities and live shows plus an observatory with a giant refractor telescope are available for visitors of all ages. Having reached more than 627,000 people in the past year alone, the Science Center offers rich resources for lifelong learning.
