

Strapit Range of Medical Face Masks/Respirators

The Strapit range of medical masks offers a complete range that meets different standards which meet the needs of various medical and health environments.

All masks listed conform to the Australian standard of surgical masks AS4381:2015 and some also confirm to the higher USA Standard ASTM F2100 which include PFE measures (not required under the current AS). All masks have compliance reports that can be provided upon request.
