

Stay anywhere. Stay connected.

With a telescoping directional antenna and powerful booster, RVers experience stronger cell signal at any campsite.

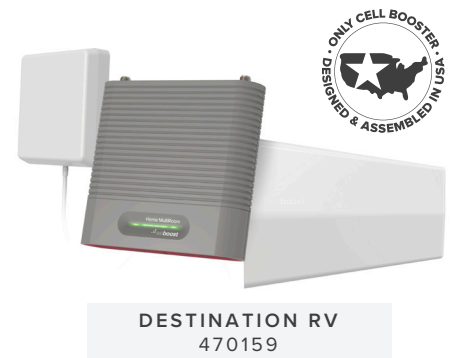

The weBoost **Destination RV** is our most powerful cell signal booster for large, stationary trailers and campers.

- Designed to provide max coverage in large RVs, the Destination RV works with all classes of trailers, toy haulers, and campers.
- Remote workers and students enjoy fewer dropped calls, better voice quality, uninterrupted texts, faster data speeds, better streaming, and improved hot spot capability when stationary.
- By targeting nearby cell towers (using an outside directional

antenna mounted on a 25-foot telescoping pole), the Destination RV is ideal for use during long stays in remote areas.

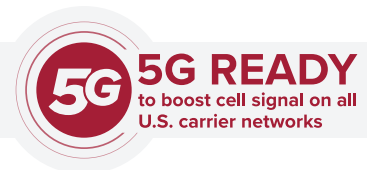

- The Destination RV is compatible with cellular-connected tablets and devices on all U.S. carrier networks, including Verizon, AT&T, T-Mobile, Sprint, and UScellular.
- Meets all FCC guidelines and won't interrupt or harm any carriers' signal to or from the cell tower.

- Backed by a 2-year manufacturer's warranty and 30-day money-back guarantee.

KEY FEATURES

Destination RV is 5G ready and will continue to improve cell signal beyond the next decade.

By raising the outside antenna, RVers can safely use a powerful booster and inside antenna for max coverage in a large area.

With 65 dB max gain, the Destination RV targets nearby cell towers in remote locations to improve signal on every device.

Initial installation takes about 30 minutes for most users with each subsequent takedown and setup taking about 10 minutes.

The flat window cable can be easily routed through the slide out, removing the need for drilling.
