

# RSRF 4.3-10 Dome Antenna

Vertical pattern

## Features:

- Omnidirectional dome ceiling antenna
- 50 ohm
- 3/5 dBi gain
- 698-2700MHz

## Specifications:

|                         |  |
|-------------------------|--|
| Model                   | ANT727-4310-DOME-LP                                    |
| Frequency Range         | 698 – 2700MHz  |
| VSWR                    | <1.5   |
| Horizontal Beam width   | 360°   |
| Max power (W)           | 50   |
| Intermodulation         | <-153dBc@2*43dBm                                       |
| Impedance               | 50 ohm   |
| Connector type          | 4.3-10 female  |
| Weight (g)              | 400  |
| Dimensions              | Φ203×98  |
| Radome material         | ABS  |
| Antenna's color         | White  |
| Environment Temperature | Working Temperature: -40~+55<br>Operation Humidity <95 |
