

SureCall Exterior Vehicle Antenna

Prod. No: SC-202W

For use with dual-band and wide-band vehicle amplifiers

Overview

SureCall's wide band 3" low-profile magnetic roof-mount exterior antenna captures outside signal for vehicle and RV cell phone signal boosters. Stay connected anywhere with this next generation high-gain antenna that is equipped with a strong magnetic base that can hold up in the harshest of conditions.

Features

- Wide band (698 – 2700 MHz) - 2G / 3G / 4G LTE
- Omni-directional antenna receives signal from all directions
- 2.6 dBi / 3.6 dBi Gain
- 50 Ohm
- FME-Female connector
- Portable and magnetic mount – easily transferable

Technical Specifications

Frequency	698 -960/1700-2700 MHz
Input Impedance	50 ohm
Antenna Gain	2.6 dBi / 3.6 dBi
Beamwidth	360 Degrees
VSWR	≤2.0
Radiation Pattern	Omni-Directional
Maximum Power	25 W
Connector Type	FME-Female
Height	3.15"
Width	2.12"
Cable length	12.5 ft
Operating Temperature	-40°F - 185°F
Mount Type	Magnet-mount

Installation

For best results, the antenna should be mounted in an upright position. SC-202W is designed to be roof-mounted on a car, truck or RV with a SureCall vehicle cell phone signal booster. SC-202W is omni-directional and gathers cell signals from all directions and does not need to be pointed towards a cellular tower.
