

Raise the bar on indoor cell signal.

With its impressive power, the Home Complete delivers reliable cellular connectivity for remote locations and large homes—up to 7,500 sq. ft.

The Home Complete by weBoost, our most powerful, multi-user cell signal booster for residential use—offering consumers best-in-class performance within its price range.

With 72 dB in max gain, the Home Complete provides the strongest cell signal possible on all available network speeds. **Boasting up to 24 dBm in uplink-output power, it effortlessly reaches cell towers at distances up to 26% farther than the Home MultiRoom; our next most powerful home booster.** With Home Complete, users can enjoy fewer dropped calls, better voice quality, uninterrupted texts, faster data speeds, better streaming, and improved hotspot capability.

Home Complete is compatible with all cell phones, tablets, hotspots, and cellular-connected devices and all US mobile carriers—including Verizon, AT&T, T-Mobile, US Cellular and more. With the addition of Band 25, Sprint customers will also enjoy enhanced LTE signal coverage.

HOME COMPLETE
470145

Key Features

With up to 12 dBm in total downlink-output power, Home Complete effectively produces up to 46% more coverage area than our next most powerful booster—Home MultiRoom.

The 75 Ohm Home Complete Outside Directional Antenna pulls in cell signal with increased gain. It's made to fit an antenna pole or clamp to a home's rooftop vent pipe.

A set of brackets to allow for easy wall mount of booster and inside antenna; using its 3M Command™ strips or screws (not included). Antenna also has kickstand to set on shelf.

With its sleek, anodized and powder-coated aluminum booster and stylish, fabric-covered inside panel antenna, the Home Complete fits in naturally with contemporary home décor.

NAME	MODEL	USERS	MAX UPLINK POWER	MAX DOWNLINK POWER	MAX GAIN	MSRP
Home Complete	470145	Multiple Users	Up to 24 dBm	Up to 12 dBm	72 dB	\$999.99

INSIDE THE BOX

All components needed for step-by-step installation in one complete package. This includes:

OUTSIDE DIRECTIONAL ANTENNA 314445

Designed in the USA, comes with an easy-to-adjust clamp

FABRIC INSIDE PANEL ANTENNA 314440

Proprietary weBoost design, features a built-in kickstand

IDEAL USE-CASE SCENARIO

For anyone in need of strong, reliable cell signal to support several devices in their home (up to 7,500 sq. ft.); ideal for large houses or in rural areas far from towers.

WHO IS MOST LIKELY TO USE THIS PRODUCT?

- Residents of remote or rural areas with very weak signal
- Large households where several cellular devices are in use
- People in new housing developments with limited coverage
- Modern homes made from signal-blocking LEED materials
