CONNECT 3G-X

weBoost brings you seamless, uninterrupted cellular connectivity in your home or workspace. Your cell phone is an essential part of your life. You depend on it to stay connected to everything important - family, friends, work.

The weBoost Connect 3G-X™ cellular signal booster is a simple, effective solution to maintain continuous communication for all cellular-enabled devices – smartphones, tablets, etc - in your home or workspace.

Installation is straightforward and can be completed with minimal tools. A step-by-step video guides you through connecting two antennas to the booster. The antennas communicate with both cellular devices and the cell tower for the strongest, most powerful signal possible.

weBoost amplifies signals to improve coverage—including 3G data—no matter your cellular carrier in the United States and Canada. The Connect 3G-X comfortably handles multiple simultaneous connections across multiple carriers, providing effortless voice and data communications for all users.
