

## **Accuracy International® New AXAICS and ATAICS Chassis Systems for 2014**

**January 14, 2014**

**Portsmouth UK-** Accuracy International (AI) remains on the cutting edge of excellence with two new additions to the company's long heritage of rifle chassis with the AXAICS and ATAICS for the Remington® M700®. Accuracy International introduced the first commercially available rifle chassis system to the shooting world in 1998. The Accuracy International Chassis System (AICS) and accompanying AICS magazines have become the industry standard and yardstick by which all others are judged. The AXAICS and ATAICS continue to raise the bar by incorporating the latest innovations of the AX and AT tactical rifle systems. This new generation of AICS incorporates operator-defined attributes such as:

### **AXAICS-**

- Standard right folding buttstock with adjustable cheek and length of pull.
- Multiple flush cup sling points.
- Ergonomic user configurable pistol grip.
- Free float forend with patent pending KeySlot™ accessory mounting system.
- AICS 5 round magazine and optional 10 round magazines.
- Side cut away magazine well for smooth, rapid magazine changes.
- Available in black, green or pale brown stock sides with black metalwork.

### **ATAICS-**

- Adjustable length of pull using 10mm and 20mm spacers.
- Lateral and height adjustable cheek piece.
- Six flush cup sling points for quick sling positioning.
- Optional AT folding stock using AI's battle proven hinge system.
- AX style pistol grip with traditional thumbhole stock sides available as an option.
- AICS 5 round magazine and optional 10 round magazines.
- KeySlot™ accessory mounting system on the 6:00 O'Clock forend surface.
- Optional 9:00 O'Clock and 3:00 O'Clock KeySlot™ accessory rails.
- Optional STANAG 4694/Mil-Std 1913 accessory rails.
- Optional Co-planer Night Vision mount with STANAG 4694/Mil-Std M1913 rail.

14th January 2014
