

Accuracy International® Announces New Model AT Series Rifles for 2014

January 14, 2014

Portsmouth UK- Accuracy International (AI) is introducing an exciting new model to the companies unmatched line of battle proven sniper rifles, the AT rifle system. The AT is a culmination of ideas and requests from the law enforcement community and civilian tactical shooters for a tactical rifle system delivering leading edge capability and unmatched value. The AT provides the end user with the latest in AI's long line of battle proven features and adheres to AI's long standing dedication to accuracy, reliability, ruggedness and quality.

The AT rifle series incorporates the proven Accuracy International flat bottomed, precision machined action that is epoxy bonded and bolted to a chassis that has been evolved in theatres of war and competition ranges. Standing on the shoulders of giants, the AT incorporates the best features of the AW and AE models to set a new standard of expectation for precision tactical rifles. The AT is a configurable, mission adaptable, long-range tactical rifle system offered in 308/7.62 NATO.

The base model AT is priced at \$3,550/£2,366 (taxes not included) with the following standard features and available options.

- Proofed steel action featuring AI's patent pending Quickloc quick release barrel system.
- 20 MOA STANAG 4694/Mil Std 1913 action rail.
- Quickloc match grade 24" stainless steel barrel.
- 6 lug, 60 degree bolt with AI combat proven leaf spring extractor.
- 3-position safety.
- AI's world renowned two stage trigger.
- Fixed stock with adjustable cheek piece and length of pull.
- Configurable pistol grip.
- Detachable AI 10-round double stack magazine is compact, reliable and can also be loaded through the rifle ejection port.
- Available in black, green or pale brown stock-sides and black metalwork.

Options and Accessories include:

- Folding stock using AI's battle proven hinge system.
- 20", 24" and 26" Quickloc match grade barrels, plain or threaded for muzzle brakes and suppressors.
- Standard or tactical threaded muzzle brake to fit AI suppressor.
- Night vision mount with STANAG 4694/Mil Std 1913 rail.
- Side mounted STANAG 4694/Mil Std 1913 accessory rails using AI's patent pending KeySlot™ accessory mounting system.
- Thumbhole stock-sides.
- Bipod and a rear butt spike (available mid year 2014).
