Spring/Summer 2017

The world is out there ...!

Bicycles and sunshine, shore crabs and sea captains. UBANG's Spring/Summer Collection 2017 is ready for summer holiday by the water and adventurous escapades in the landscape. As always, UBANG's collection has room for play, exciting quests and sunshine treasure hunts. Made from 100 % organic cotton and with respect for the world of which we are part, of course.

Elephants

UBANG loves elephants, and kids never get bored with the large trunk animals. And when the holiday is here and we are going out into the world, the elephant must join us.

Here and now

We live in an era in which heaps of digital gadgets interfere with our lives and disturb our quality time with our kids. In such a world it is more important than ever with kids wear that maintains a focus on the down-to-earth and the here- and-now and lets us enjoy the peaceful, happy moments with our children.

3D experience

UBANG maintains that playful clothes also need to be a good and tangible experience for children. So no plastic prints here, but appliqués and three dimensional details, so that the combination of materials becomes part of the game and the experience.

Organic

The clothes are made from 100 % organic cotton. That is very important, because we need to take care of the world we have. But it is also important that the clothes are produced in respectful collaboration with the people who handle needles and scissors throughout the complex process that the making of all UBANG styles really are. In this way UBANG can always answer the question; ‘Who made my clothes?’.
