

Envy WARRANTY (<http://www.bluntandenvy.com/faq/#warranty>) (January 2017)

Please note: Warranties on Our products can only be processed if you have a proof of purchase.

We warranty all manufacturer faults. Apparent external damage or wilful damage, misuse or incorrect installation will not be covered by our warranty.

Griptape, Handgrips, Bearings are consumable products and are not covered under warranty unless received in a non functioning or defective state.

WHEELS

Our wheels come with a 90 day manufacturer's warranty.

This will cover

- De-hubbing of the PU tyre from the wheel core
- Ovalising the hub bearing housing

It does *not* cover

- Chunking of the wheel: Chunking is when the wheel PU breaks off in “gouges” caused by riding on rough surfaces.
- Wheel bearings

FORKS

All our Forks come with a 90 day manufacturer's warranty.

This will cover

- Breaking or Bending (except the axle)

This will *not* cover

- Breaking or bending of the axle
- Misuse or poor set up
- Any modifications to the fork

CHROMOLY BARS

Chromoly bars come with a 90 day manufacturer's warranty.

This will cover

- Bending or breaking of the bars

This will *not* cover

- If bars have less than 40mm of fork tube inside the bars
- If you modify or cut your bars
- Scratching or chipping of paint
- Misuse of your bars

ALUMINIUM BARS

Aluminium bars come with a 30 day manufacturer's warranty.

This will cover

- Cracking of welds
- Paint defects

This will *not* cover

- If bars have less than 40mm of fork tube inside the bars
- If you modify or cut your bars
- Scratching or chipping of paint
- Misuse of your bars
- Bending or cracking

Aluminium bars are a light weight product for use by smooth and proficient riders. Landing incorrectly, throwing bars from any height or dropping will damage the bars. This is not covered by the warranty.

DECKS

All decks come with a 6 month warranty on the headtube

This will cover

- Snapping or visible cracking of the deck
- Function of the deck

This will *not* cover

- Any damage caused by misuse or abuse to the deck
- Scratching or fading of paint or anodizing
- Damage to the headset cups due to bad set up or lack of maintenance
- Dinting of the deck down tube
- Modifications to any part of the deck, including drill holes

Please note: Scooter decks are subject to extreme pressures and stress. To increase the life expectancy of your deck, avoid constant fly-outs (jumping to flat) and make all attempts to land smoothly, minimising the shock to the deck. All Scooter decks are prone to failure – it's a fact, as they are constantly grinded and put under extreme pressures.

Tips to make your deck last longer:

- Always land with your knees bent to absorb the shock
- Keep everything tight including your axles and headset
- Avoid grinding on rough concrete
- Limit the amount of fly outs you do
- Never throw your scooter

CLAMPS

Our clamps are covered by a 90 day manufacturer's warranty.

This will cover

- Breaking of bolts and clamp body

This will *not* cover

- Cross threading the bolts
- Stripping of the bolt heads by using rounded-off Allen keys
- Scratching of paint or anodizing
