SPRING/SUMMER 2016

STORY

Based in Sydney, and with two generations working side-by-side, Estilo Emporio is renowned for creating leather accessories & footwear with artisanal craftsmanship and timeless style. The brand celebrates its European heritage with an aesthetic that draws influence from the Costa Brava of Spain, combining natural materials and artisan manufacturing to create a comfortable, stylish collection with rustic elegance.

Linen and leather is the primary focus of Spring Summer 2016, which sees the introduction of luxury linen in their accessories, as well as a capsule line of clothing manufactured in Italy and previewing exclusively at Life Instyle. The collaboration “Linomania per Estilo Emporio” was born after a recent love affair with the Amalfi Coast and the meeting of a local likeminded designer, which inspired a collaboration to produce a linen clothing collection for the first time. The collection perfectly complements Estilo Emporio’s main line - stylish, clean and simple - aimed at delivering only the highest quality product and a range that strikes the perfect balance between international influence and Australian everyday style.

Earthy neutrals make a subtle and serene statement in accessories and footwear, with an organic colour palette of beige, blush and desert hues. An additive of metallic, pop colour and bold stripes exude fun and fresh feelings of California cool and resort ready wear ability. Combination linen and leather, raw simplified silhouettes, and touches of suede, fringe and tassels tie the collection together and the result is both a casual and sophisticated softness that is fresh and modern.
