Hesi COCO Grow schedule

Week		1 Growth	2 Growth	1 Bloom	2	3 Bloom	4	5 Bloom	6	7 Bloom	8
Nutrients	clone	Growth		B L O O M							
TNT Complex		25	50 ml/10 L								
Coco						50 ml/10 L					
PK 13/14							2,5	5,0	7,5	15	
							ml/10 L				
Booster											
Root Complex		start & stress		50 ml/10 L							
SuperVit			Regularly 1 drop per 4,5 L water for extra energy								
PowerZyme		20 ml/10 L		1-2 times a week together with the nutrients and boosters							
Boost				20 ml/10 L				20 ml/10 L accelerates flower development			
Lighting		18 hours		12 hours							

Flush with pure water

Hesi Coco Fertilisers and Boosters

Coco substrate is used both in pot cultivation and in hydroponic systems. Coco is neutral, but can hold different minerals such as calcium. Hesi Coco fertilisers have been adapted for this.

Hesi Fertiliser for Coco

Hesi TNT Complex

NPK fertiliser for the growth period.

Hesi Coco

NPK fertiliser for the flowering phase.

Hesi PK 13/14

PK fertiliser and to boost flowering.

Watering and fertilising frequencies:

Water only as frequently as your plants really need it. The need of water and therefore of fertiliser, depends on the sort and size of the plants and the size of the pots.

Use fertiliser with each watering.

Hesi Boosters

Hesi Root Complex Plant starter and elixir for plants under stress.

For young plants:

1-2 times a week until the plants grow well.

In case of stress: 1-2 times.

Hesi PowerZyme - Enzyme extract for a clean and oxygen-rich plant medium.

Use 1-2 times a week.

Hesi SuperVit concentrated mix of vitamins and amino acids.

Apply regularly.

Hesi Boost activates flowering and plant fruit ripening.

Apply once at the beginning of the flowering phase.

Apply 1-2 per week during blossoming.
