

# Cushion colours

Our cushions are manufactured using Sunbrella®, a colour-fast fabric that is made from a durable, all-weather, 100% solution-dyed, Teflon®-coated acrylic fibre. This fabric repels water, but cushions should not be left out in heavy rain for prolonged periods.

Whilst great care has been taken to reproduce fabric and material colours as accurately as possible, it should be noted that due to the limitations of the litho-printing process, we cannot guarantee that the reproduction accurately represents true fabric textures and colours. Please take this into consideration as colours illustrated should only be used as a guide. Some images may contain discontinued fabric colours and furniture ranges.

Tous les coloris de tissu sont disponible en "Standard" ou en Waterproof laminé (ajout de la lettre V à la référence de la couleur)
