CUSHIONS

OPEN-CELLED:

Open-celled cushion technology

Royal Botania cushions are 100% water and UV resistant.

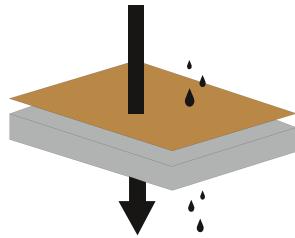

The foam has an open-celled structure, creating a high permeability level.

This means that when water gets in, it is easy for it to evaporate.

Your outdoor furniture cushions will dry very quickly after exposure to water or moisture.

During production of the foam, an anti-bacterial and anti-fungal treatment is applied.

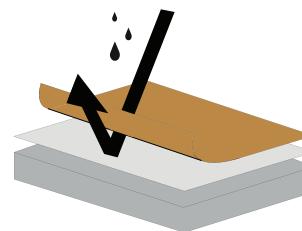

This is done without using CFC's, keeping the process environmentally friendly.

MEMBRANE:

Royal Botania cushions are created by laminating our membrane to high-performance textiles, then sealing them with an innovative solution for waterproof protection.

The Royal Botania membrane is the heart of all our cushions. The PTFE-layer contains over 9 billion microscopic pores per square inch. These pores are 20.000 times smaller than a water droplet, but 700 times larger than a water vapor molecule, which makes the Royal Botania membrane completely waterproof from the outside, while allowing perspiration to escape from the inside. The membrane consists of a MICRO-fiber, preventing the penetration of body oils, food or insect repellents that could otherwise penetrate the cushion.

PROTECTIVE COVERS

To protect your Royal Botania furniture from the elements when not used, we provide PU coated polyester covers for every element as well as for modular combinations. The latter are custom made to fit the lay-out of your lounge set.

The seams on those protective covers are sealed by silicone strips to prevent water from entering. Always make sure that the furniture and the cushions are completely dry before putting on the covers to avoid the formation of mould.

MAINTENANCE

Even the best of materials and components, will get dirty when placed outside. Even though our furniture is well protected against the elements, proper maintenance is a must. For that purpose we offer a wide array of maintenance products, all especially developed to make sure your furniture will stand out, even after many years outside. To select the right product for the right application, check our maintenance manual on www.royalbotania.com/maintenance

WARRANTY

Royal Botania products are made from the finest materials, and with the utmost care, so as to give you a lifetime of enjoyment. That is when correctly used and properly maintained. Hidden flaws in materials can never be excluded for 100%. These can eventually cause issues. In the event of quality issues arising from such defects, Royal Botania obviously takes its responsibility. Our warranty clauses can be found on www.royalbotania.com/warranty

TEAK & MAHOGANY

AS ROYAL BOTANIA NEVER COMPROMISES ON QUALITY, ONLY CAREFULLY SELECTED MATURE TEAKWOOD IS USED IN OUR PRODUCTS. ALL OF IT HARVESTED IN STRICT ACCORDANCE WITH OUR ENVIRONMENTAL POLICIES. TEAK WOOD'S RENOWNED DURABILITY IS DUE TO ITS HIGH CONTENT OF NATURAL OILS. THE LIMITED ABSORPTION OF MOISTURE PROTECTS THE WOOD FROM WARPING AND GIVES IT ENORMOUS STABILITY. IN ADDITION, TEAK IS HIGHLY RESISTANT TO ATTACKS BY PESTS. IT IS BECAUSE OF THESE QUALITIES, AS WELL AS ITS EXCEPTIONALLY ATTRACTIVE HUE AND STRUCTURE, THAT TEAK IS WIDELY CONSIDERED "THE NOBLEST OF ALL WOOD TYPES".

MAHOGANY IS A HARDWOOD WITH A REDDISH COLOUR THAT IS WIDELY USED FOR BOAT BUILDING, AS WELL AS FURNITURE MANUFACTURING.

STAINLESS STEEL

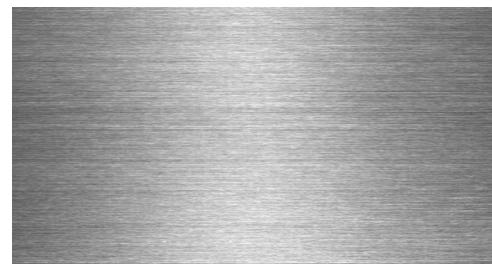

STAINLESS STEEL IS A FERROUS ALLOY WITH INCREASED CORROSION RESISTANCE DUE TO THE ADDITION OF CHROME AND NICKEL. CHLORINE, THE GREATEST ENEMY OF STAINLESS STEEL, CAN CAUSE A TYPE OF CORROSION KNOWN AS "PITTING". FOR THIS REASON, IT IS RECOMMENDED THAT IN COASTAL LOCATIONS THE METAL BE GIVEN AN ELECTROPOLISHING TREATMENT, IN ORDER TO FURTHER INCREASE ITS RESISTANCE TO CORROSION. THE FURNITURE FRAMES OF THE WAVE IS SUPPLIED WITH AN ELECTROPOLISHED FINISH AS STANDARD.

FOR THE NINIX, O-ZON, QT & TABOELA RANGES WE RECOMMEND THE OPTIONAL ELECTROPOLISHING TREATMENT OF THE FRAME IF IT IS TO BE USED IN A CORROSIVE ENVIRONMENT.

FIBER

OLEFIN FIBER IS A SYNTHETIC FIBER MADE FROM POLYPROPYLENE. THE ADVANTAGE OF THIS FIBER IS ITS STRENGTH, COLOUR FASTNESS AND COMFORT. ALSO IT IS VERY RESISTANT TO STAINING AND DIFFERENT WEATHER CONDITIONS.

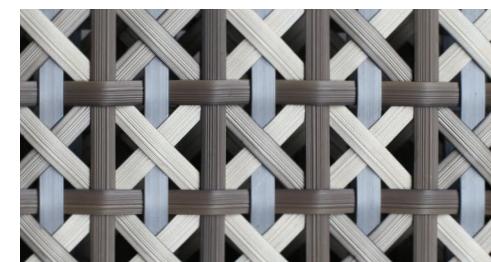

JIVE COLLECTION (OLEFIN FIBER)

SAMBA COLLECTION (OLEFIN FIBER)

CALYPSO COLLECTION (POLYTHYLENE FIBER)

FENSI COLLECTION

CERAMIC

THE CERAMIC TOPS ARE MADE FROM NATURAL CLAYS, SO SMALL COLOUR GRADATIONS CAN OCCUR. THIS MAKES EACH TABLE UNIQUE.

CONCRETE

WE USE AN ULTRA-HIGH PERFORMANCE CONCRETE REINFORCED BY NATURAL MINERAL COMPONENTS AND ORGANIC FIBERS. THANKS TO ITS DISCONTINUOUS PORE STRUCTURE AND CRACK-BRIDGING FIBERS, IT IS VIRTUALLY IMPERVIOUS. PENETRATION OF CHLORIDE IONS IS ALSO SIGNIFICANTLY REDUCED AND THUS PERFORMS EXCEPTIONALLY WELL IN HIGHLY CORROSIVE ENVIRONMENTS SUCH AS NEAR BEACHES.

BATYLINE

THE SLINGS ON METAL FRAMED CHAIRS AND LOUNGERS ARE MADE OF BATYLINE® FABRICS, A WOVEN POLYESTER FIBER PROTECTED BY A PVC COATING. THIS COATING GUARANTEES EXCEPTIONAL RESISTANCE TO CLIMATIC CONDITIONS AND UV EXPOSURE. THE FACT THAT THERE IS NO MOISTURE ABSORPTION RESULTS IN QUICK-DRYING, LITTLE SENSITIVITY TO STAINING AND EASY CLEANING.
