

Sandua[•]

outdoor luxury

Manutti[•]

Designed by Robin Hapelt

It is a thing of beauty when craftsmanship and innovation combine in perfect harmony. Distinctly different from one another, yet perfectly in sync, each piece in the Sandua collection is an ode to true artisanship. An organically shaped woven shell is cradled by the sculpted wooden base. Using not one, but two different materials, designer Robin Hapelt developed a both modern and unique take on traditional weaving techniques, resulting in unmatched aesthetics as well as comfort. Topped off with opulent cushions, Sandua radiates sophisticated splendour.
