## Wood Species & Characteristics

### Wood Species

**Alder**

**Rustic:** Many wood species are at their best when displaying their naturally occurring knots, burls, wormholes, dramatic variations in color and mineral streaks.

**Cherry**

**Cherry:** Brings a rich, elegant feel. Common in fine furniture. Darkens or “mellows” with age. May contain small knots and pinholes for added character.

**Hickory**

**Hickory:** The hardest wood with the widest color variation. Random burls, knots, dramatic color contrast and mineral streaks give each Hickory kitchen a unique sensibility.

**Rustic:** Many wood species are at their best when displaying their naturally occurring knots, burls, wormholes, dramatic variations in color and mineral streaks.

**Maple**

**Maple:** The go-to wood species - very uniform and predictable. As a result, it takes lighter stain and paint colors well. Predominantly off-white with light yellow- brown and pink hues, as well as occasional tan or dark mineral streaks.

**Oak**

**Oak:** A versatile wood with rich textures and grain patterns that lends itself to practically any application. Some selections have naturally occurring green, yellow and black mineral deposits and may contain wide grain.

**QS Oak:** Also referred to as Quartersawn, the technique of cutting a tree at a nearly 90° angle, which creates a parallel and orderly feel to the grain - as opposed to the natural variances in the grains you’ll find with traditional woods. Backs of QS Oak veneer recessed panel doors are supplied with plainsawn center panels.

### Painted MDF / Paint Grade\*

**Painted MDF:** Delivers an especially smooth painted finish, with no cracks or shifts in the center panel. Extra-solid Painted MDF doors and drawer fronts - made by super compressing wood fibers - have no grain, and react less to temperature and humidity compared to regular wood.

*\*For availability and exceptions, this species will be noted as “Paint Grade”.*

# Finishes

## Examples of ways to finish ends:

Wood Skin

Matching  
End Panel

Wood Skin with  
Replacement Door

Attached  
Decorative End

## Finish Terminology:

### End Grain:

End grain surfaces and softer areas of the wood may accept more stain and often appear darker than other surfaces. This is a natural reaction when finishing wood products and potential variances cannot be controlled

### Joint Lines:

Since wood is in a constant state of expansion and contraction, visible lines are normal at the joints on the cabinet face frames and doors. This does not weaken the finish or the strength of the joint

### Telegraphing:

Show through or “telegraphing” of wood characteristics may happen when paint is applied to any specie of natural wood. These characteristics, such as open grain, pin holes, knots and mineral streaks, may be visible through the paint. Telegraphing may happen on doors, face frames, moldings, decorative end panels or other decorative enhancements made of natural wood. Please consider this when selling any of our finishes that feature paint as the base technique, including paint with highlight and vintage techniques

### Warping, Cracking & Proper Humidity:

As a natural characteristic, all wood products contain moisture. Changes in temperature and humidity affect the moisture content in wood, which causes wood to expand or contract. Over time, this expansion or contraction can cause warping and joint cracks to occur, potentially causing permanent deformations, in wood cabinetry.

To help prevent excessive movement in your wood cabinetry, we recommend maintaining a controlled environment of 70 to 75 degrees Fahrenheit and 30% to 50% humidity in the areas where your cabinetry is stored or installed. Environmental conditions cannot be controlled by the manufacturer and the effects of the movement in wood is not considered to be a manufacturing defect and will not be considered a reason for replacement.

See the doors section for door specie information and descriptions

**Note:** Wood products, including cabinet doors and face frames, are typically affected by environmental conditions. Color variation over time, as well as normal movement due to wood’s expansion and contraction is part of the natural beauty of wood. This normal movement may cause hairline cracks in the finish surface at the joints and is considered a normal characteristic of semi-opaque or painted finishes. This will not be considered a reason for product replacement

**Note:** Individual veneer doors vary in absorption of finishes. Also, veneer door styles, which are usually simple door designs, may not contain as much highlights as ornate door designs. Therefore, it is recommended that a sample veneer door be viewed in the desired finish before placing a full kitchen order

**Note:** Based on independent testing, discoloration will occur to doors, drawers and cabinet parts after prolonged exposure to tobacco smoke. This is especially noticeable on white and other lighter finishes. Discoloration due to exposure to smoke is not covered under warranty

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

**Finish availability may vary by door style. See Finish Availability Chart**

## Stain

Finish	Code	WOOD SPECIES						RUSTIC		
		Cherry	Hickory	Maple	Oak	Oak Quartersawn	Painted MDF	Rustic Alder	Rustic Hickory	
Boulder	G98	C			O	Q		A

Teak	H25		H		O	Q			H	
Terra	H07	C	H	M	O	Q		A	H	

Touch-up	Code	Includes:
Aerosol Can	AC	1 - 13 oz. can - base color
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Stain Kit	QS	1 - quart - base color

### Stain Finish Process

Stained finishes truly showcase the natural beauty and characteristics inherent in each individual wood species. Based on the stain color chosen, a toner may be applied to the wood to equalize natural sap levels. The stain color is applied and hand-rubbed to ensure full and equal color coverage for doors and drawer fronts.

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

### Unfinished

Our cabinetry, moldings and accessories are available unfinished. If the unfinished option is selected, you must order unfinished wood veneer skins or 3/4" Furniture (flush) Plywood Ends construction (FPFB) for all cabinets with exposed ends, otherwise, Natural woodgrain vinyl ends will be supplied. Unfinished cabinetry will be supplied with standard vinyl interior. To get unfinished wood veneer interiors, order each cabinet with a Matching Interior (MIP) option. To get All Plywood Construction, order each cabinet with -AP or place the cabinets on an order with All Plywood Construction (APC), then apply the 1/2" Finished Plywood Ends (HFPEB) option.

**Note:** Unfinished cabinets lack the protection of a finish coat and are more susceptible to damage from variations in temperature and humidity. For this reason, we do **not** recommend or warranty this option.

**Note:** If ordering unfinished cabinets and you intend to stain them, note that with certain models glass may be permanently attached with adhesives. This will result in uneven color or inability to stain all surface areas. Order cabinets without glass in order to achieve even staining.

## Paint

Finish	Code	WOOD SPECIES						RUSTIC	
		Cherry	Hickory	Maple	Oak	Oak Quartersawn	Painted MDF	Rustic Alder	Rustic Hickory

Peak	H21			M			D		
Porcelain	G68			M			D		
Seascape	H23			M			D		
Stratus	G71			M			D		

Touch-up	Code	Includes:
Aerosol Can	AC	1 - 13 oz. can - base color
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Paint Quart	QP	1 - quart - base color

### Painted Finish Process

Painted finishes feature rich, beautiful color coating the wood, adding rich depth to your selected profile.

Paint is applied utilizing a spray application process to Painted MDF, Maple or Oak.

Painted MDF is a mechanically compressed wood fiber material that reacts less to environmental conditions than other hardwood materials. It is less susceptible to expansion and contractions that can cause joints to separate showing hairline cracks in painted products. It also provides a more consistent and smooth surface, eliminating the appearance of naturally occurring wood characteristics such as grain patterns, knots or mineral streaks.

For a hardwood option, most painted surfaces are available in Maple due to the more uniform appearance and smooth, clean characteristics of this wood. Since wood naturally expands and contracts, you may see hairline separation in the finish surface at the joints. Joint lines are normal and do **not** affect the strength of the door's construction. Alternative materials may be used in the construction of the door and drawer fronts to minimize the environmental effects of joints and panels.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

## Paint w/Highlight

Finish	Code	WOOD SPECIES					RUSTIC		
		Cherry	Hickory	Maple	Oak	Oak Quartersawn	Painted MDF	Rustic Alder	Rustic Hickory
Fieldstone w/ Clove Highlight	G96			M			D		
Fieldstone w/ Steel Highlight	G95			M			D		
Porcelain w/Clove Highlight	G89			M			D		
Porcelain w/Kettle Highlight	G90			M			D		
Porcelain w/Steel Highlight	G88			M			D		
Stratus w/Clove Highlight	G92			M			D		
Stratus w/Steel Highlight	G91			M			D		

Touch-up	Code	Includes:
Aerosol Can	AC	1 - 13 oz. can - base color
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Paint Quart Specialty	QPS	1 - quart - base color, 1 - highlight pen

### Paint w/Highlight Finish Process

Highlight finishes add richness and grandeur to any room in the home.

A base paint is applied followed by hand-applied highlights to detail the recesses of applicable door and drawer designs. Each door design, wood species and highlight finish has its own charming character and will create a unique, one-of-a-kind look.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers.

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

## Weathered Paint

Finish	Code	WOOD SPECIES					RUSTIC		
		Cherry	Hickory	Maple	Oak	Oak Quartersawn	Painted MDF	Rustic Alder	Rustic Hickory
Weathered Chia	E73			M			D		
Weathered Fieldstone	E72			M			D		
Weathered Stratus	G13			M			D		

Touch-up	Code	Includes:
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Paint Quart Specialty	QPS	1 - quart - base color, 1 - quart - dry brush material

### Weathered Paint Finish Process

Our Weathered technique evokes the look of artisan-finished cabinetry that has been worn over time.

Every detail is hand applied, each finished component will have a unique appearance. Paint is applied, then additional finish material is applied through a dry-brushing process to give each door or drawer component a subtle linear accent.

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

**Note:** The back side of doors receive paint. Dry brushing will not be applied to the back side resulting in a lighter color than the front side of the door and frame.

#### Product Attributes:

Ends will not have a matching finish unless specified

Standard construction will have natural birch vinyl ends. All Plywood Construction (AP/APC) will have untreated wood veneer ends. Cabinets that have standard All Plywood Furniture End Panels (APFC) will be supplied with matching exterior automatically

To get finished ends without matching interior, use:

- 1/2" Finished Plywood Ends (HFPEB)
- Furniture Plywood Ends (FPEB)
- All Plywood Furniture End Panels (APFC)
- Attached Decorative Ends (AD\_E)
- Wood Skins (WSK), Wood Skins are field-applied

To get finished ends with matching interior:

- Matching Interior with 1/2" Finished Plywood End Panels (MIP). MIP will finish the interior and exterior of the cabinet
- Use Matching Interior with 3/4" Furniture End Panels on All Plywood (MIAPFC). MIAPFC will finish the interior and exterior of the cabinet.
- Cabinets cannot be ordered with matching interior and unfinished exterior ends

## Cabinet Care Kit

CCK

- Kit includes: 8 oz. Polish and Cleaner; 12" x 12" Dusting Cloth and Polish/Cleaner Cloth

For complete care of your cabinets, we recommend ordering the Touch-Up in the cabinet color(s). If your design uses Soft-Close Hinges, you may also want to order the Soft-Close Angle Restrictor Clip (WTHARC)

---

## Polish

KMP

- 16 oz. bottle
- Industrial grade polish for wood, brass and vinyl

# Cabinet Specs

## Full Overlay - Concealed Hinges

- 1/8" reveal between BUTT doors
- Soft-Close hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment
- **Note:** Door styles with square outside edges, including aluminum frame decorative doors, are unable to be opened simultaneously on adjacent cabinets because the doors will rub together. This is a common occurrence due to the sizing of full overlay doors

## 1/2" Overlay - Concealed Hinge

- 1/2" overlay doors leave 2" of the cabinet's face frame exposed between doors
- 1/8" reveal between BUTT doors
- Soft-Close hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment
- The reveals shown here may vary slightly on some cabinets due to actual door/drawer front sizes used. Refer to the replacement door and drawer section for actual door/drawer sizes for specific cabinets

## Cabinet Specifications

All Plywood (APC) Option is also available  
See Construction Options section for a complete description.

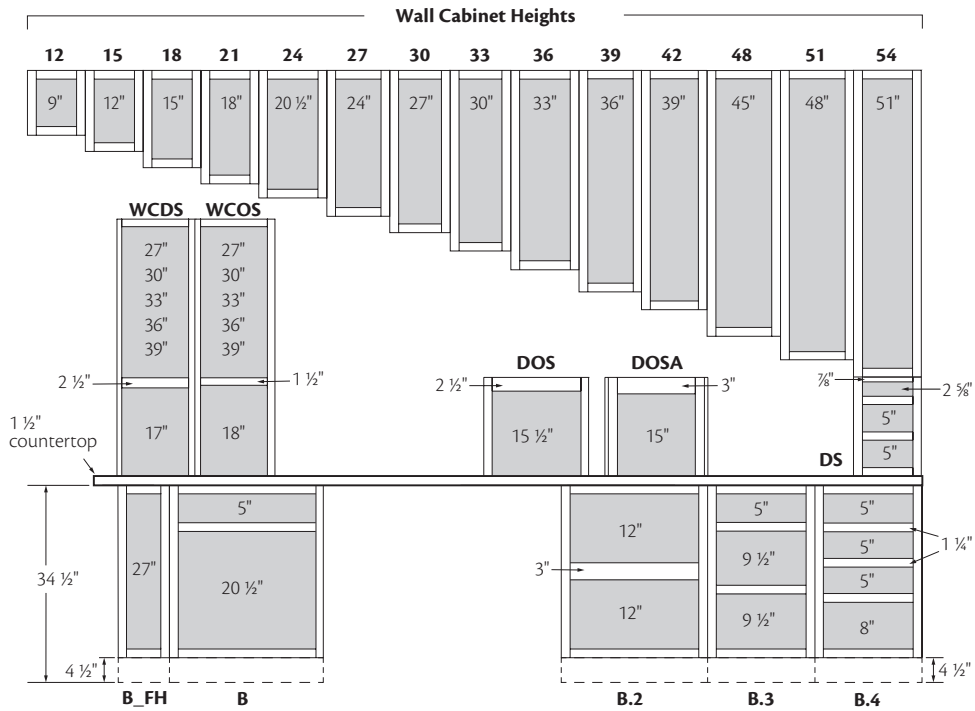

- (1) Vinyl clad back panel
- (2) 1/2" wood concealed hanging rail
- (3) 1/2" Natural Birch vinyl clad ceiling panel
- (4) 3/4" solid hardwood front frame constructed using industrial grade glue and hardened steel fasteners. Front frame species complements selected door style
- (5) Extensive and unique door style and wood species selection. Solid wood, wood veneer and paint grade construction available.
- (6) Satin chrome shelf rests for all kitchen wall and furniture cabinets. Easily adjustable positive locking shelf clips for all base, tall and vanity cabinets
- (7) Natural Birch vinyl interior
- (8) 3/4" fully adjustable Natural Birch vinyl clad shelving is a standard feature in wall, base and tall cabinets
- (9) 1/2" Natural Birch vinyl clad cabinet bottom
- (10) 14-step furniture process featuring hand-wiped stain with one of the finest wood finishes available in the cabinet industry
- (11) Full-depth I-beam braces provide stability and convenient anchor points for countertop
- (12) 3/8" full height back; shimming is required
- (13) Standard drawer runner suspension system features smooth, full-extension, ball bearing operation with a 90 lb. load capacity. Soft-close runners are fully concealed with an integrated drawer buffer that engages two inches from closing and applies resistance, giving a soft, controlled closing
- (14) 3/4" full-depth solid wood dovetailed drawer featuring four sided construction and 3/16" plywood bottom
- (15) Self-closing, concealed, wrap-around adjustable hinges
- (16) Full-depth, fully adjustable 3/4" Natural Birch vinyl clad shelving
- (17) Drawer heads are solid hardwood, veneer or paint grade to complement each door style
- (18) Fully closed toe space area
- (19) 1/2" end panels with natural wood grain vinyl interior and exterior, available with optional matching laminate exterior. Also available with optional 3/4" finished plywood end panels. Matching veneer interior and exterior available
- **Note:** Standard drawer boxes are 4" high. Deep drawer boxes are 7" or 10" high depending on cabinet
- **Note:** Unless noted, cabinet depth does **not** include doors or drawer fronts

1/2" end applications have a reveal of 3/16" before end treatments are added

## Wall and Base Frame Dimensions

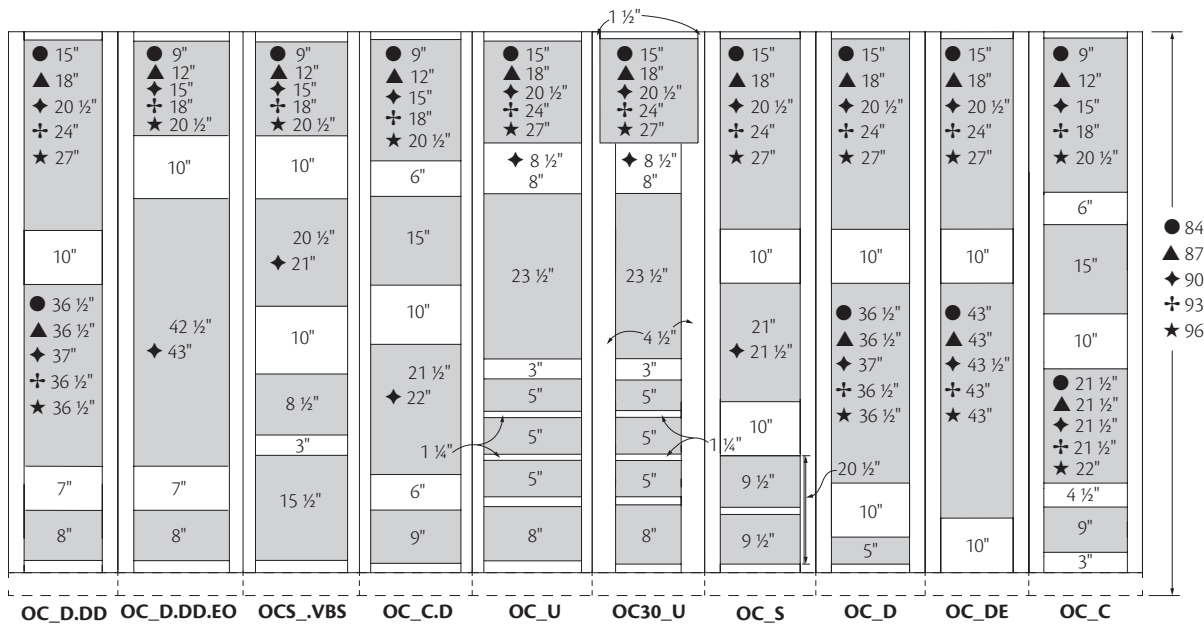

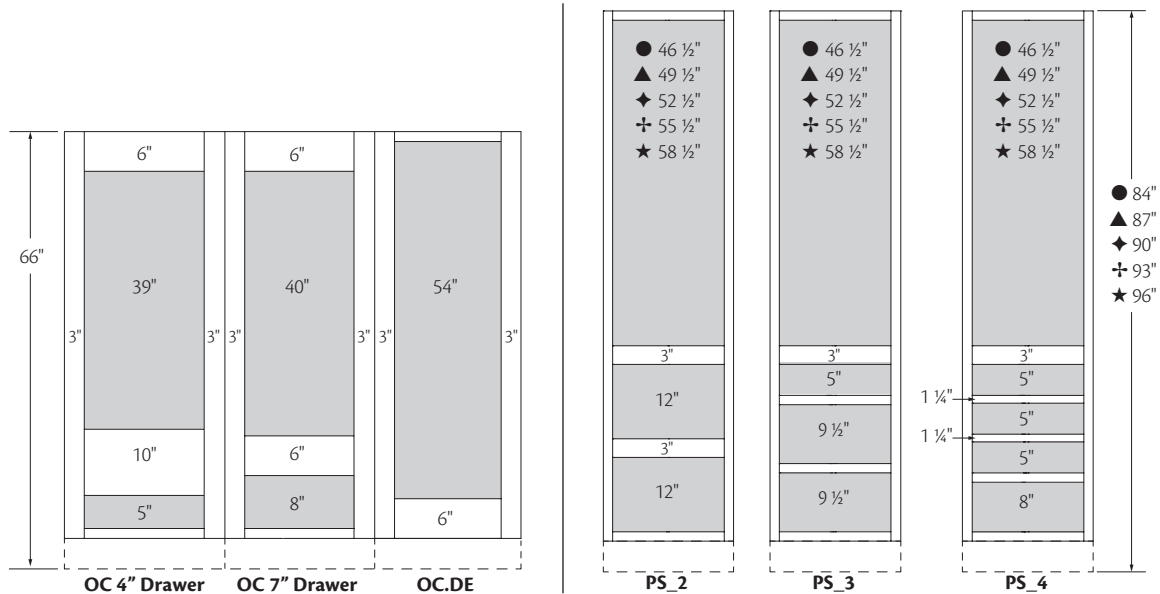

- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Unless noted, oven cabinets have 3" vertical stiles
- Opening sizes are shaded in grey
- Toe kick depth is 3 1/8"
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side
- **Note:** Unless noted, cabinet depth does **not** include doors or drawer fronts

## Utility Cabinet Frame Dimensions

- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Unless noted, oven cabinets have 3" vertical stiles
- Opening sizes are shaded in grey
- Toe kick depth is 3 1/8"
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side
- **Note:** Unless noted, cabinet depth does **not** include doors or drawer fronts

## Pantry Storage & Oven Cabinet Cabinet Frame Dimensions

- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Unless noted, oven cabinets have 3" vertical stiles
- Opening sizes are shaded in grey
- Toe kick depth is 3 1/8"
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side
- **Note:** Unless noted, cabinet depth does **not** include doors or drawer fronts

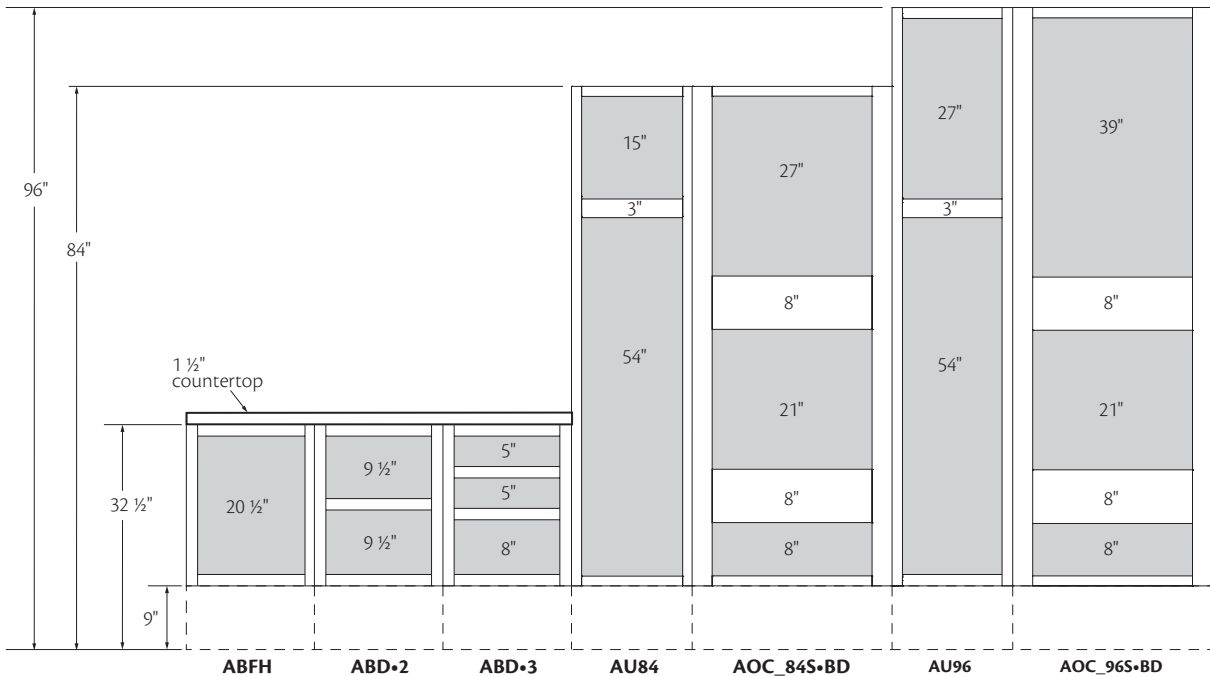

### Microwave Cabinet Frame Dimensions

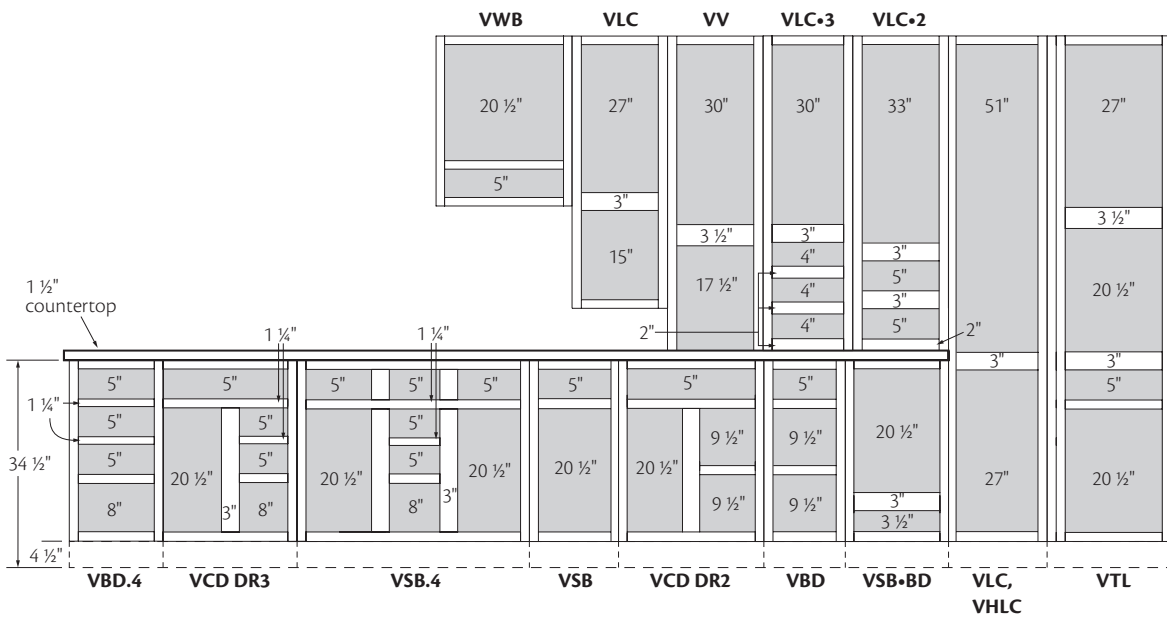

- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Unless noted, oven cabinets have 3" vertical stiles
- Opening sizes are shaded in grey
- Toe kick depth is 3 1/8"
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side
- **Note:** Unless noted, cabinet depth does **not** include doors or drawer fronts

### ADA Frame Dimensions

- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Opening sizes are shaded in grey
- Unless noted, oven cabinets have 3" vertical stiles
- Toe kick depth is 6"
- **Note:** Unless noted, cabinet depth does **not** include doors or drawer fronts

- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Opening sizes are shaded in grey
- Toe kick depth is 3 1/8"
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side
- Note: Unless noted, cabinet depth does not include doors or drawer fronts

## Office Frame Dimensions

- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Opening sizes are shaded in grey
- Toe kick depth is 3 1/8"
- **Note:** Unless noted, cabinet depth does **not** include doors or drawer fronts

## Furniture Desk Frame Dimensions

- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Unless noted, oven cabinets have 3" vertical stiles
- Opening sizes are shaded in grey
- Toe kick depth is 3 1/8"
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side
- **Note:** Unless noted, cabinet depth does **not** include doors or drawer fronts

### Diagonal Installation of Standard Wall Cabinets

**Note:** Fillers are always recommended at both sides of cabinet junction points to allow for wall variations and drawer clearances

- Solid Wood
- Particleboard

**\*Note:** Please refer to door style for construction specifics

**Standard** = 1/2" Ends

**FPEB** = 3/4" Ends

**APC** = 1/2" Ends  
**APFC** = 3/4" Ends

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet.

Some of the best materials available are utilized to build the highest quality cabinets. In order to fulfill our commitment to quality, you may see some material changes in some of the plywood components that we use. The material changes will help reduce warping, expansion and contraction within the parts.

Plywood is created with multiple layers of wood materials, including wood veneers and Medium Density Fiberboard (MDF), to create a hybrid product containing the following benefits:

- Improved strength and finish quality; reduces expansion or contraction, which is better for a smooth, quality finish. This process also produces a more rigid product.
- Environmentally Friendly: Compliant with CARB II and EPA TSCA Title VI standards. CARB (California Air Resource Board) and TSCA (Toxic Substance Control Act) are regulations for reduced formaldehyde emissions from composite wood..

Regardless of the wood material used in the various applications of our All Plywood Construction, you can feel confident that some of the highest quality materials available are always used to help ensure durable and long-lasting cabinets.

**Note:** According to the Department of Commerce, the core of hardwood and decorative plywood consists of a layer or layers of one or more material(s) that are situated between the face and back veneers. The core may be composed of a range of materials, including but not limited to veneers, particleboard, engineered wood and Medium Density Fiberboard (MDF).

Material dimensions listed may vary slightly from actual dimensions of the product. Specification subject to change without notice.

## 1/2" Finished Ends Both Vinyl

### HFVEB Individual Cabinets

- Available with no upcharge
- This construction option is available on cabinets with engineered wood construction only
- 1/2" finished vinyl end panels are available for most cabinets
- Consult Finished Ends (FE) option box for your desired cabinet
- End Panels do **not** receive highlight detailing
- **Note:** To get individual cabinets with 1/2" Finished Vinyl Ends, dash desired item with HFVEB; Order Example: W3030BUTT-HFVEB
- **Note:** Quartersawn door styles are supplied plain sawn. Choose Furniture Plywood Ends Both (FPEB) to receive matching quartersawn wood veneer ends

When a hinged door is attached to a 2 1/2" stile the door will be 1" narrower than a standard door. Keep this in mind when stacking cabinets. Wall Open Integrated Storage will have a 1 1/2" rear frame stile

**-Size Options-**

**Cabinet Dimension Modification Information**

Size Modifications		
Choose from the following and apply to cabinet code:		
One Dimension	Two Dimensions	Three Dimensions
<b>CW</b> (Change Width)	<b>CW.RD</b> (Change Width & Reduce Depth)	<b>CW.RD.CH</b> (Change Width, Reduce Depth & Change Height)
<b>RD</b> (Reduce Depth)	<b>CW.ID</b> (Change Width & Increase Depth)	
<b>ID</b> (Increase Depth)	<b>RD.CH</b> (Reduce Depth & Change Height)	<b>CW.ID.CH</b> (Change Width, Increase Depth & Change Height)
<b>CH</b> (Change Height)	<b>ID.CH</b> (Increase Depth & Change Height)	
	<b>CW.CH</b> (Change Width & Change Height)	

- Cabinets can be modified in 1/16" increments; specify overall finished dimensions to the nearest 1/16". Doors, drawer fronts and cabinet opening will be modified to coordinate with the new dimensions
- Height modifications will occur in the door portion of the cabinet
- Shelf quantities will remain consistent with original cabinet when cabinet dimensions are increased or decreased

FE	XSG
APC	XS
APFC	IF
FPEB	TWR
MI	CTR
FBC	GD
AD_E	WR
IW	PTKV
CH	RTK
CW	RTKP
ID	VTK
RD	TKD

When choosing size modifications, larger cabinet and reduce down in 1/16" increments.

Consult option availability chart for your desired cabinet

**Change Height**

One Dimension  
**CH**

- Many cabinets can be modified to your desired height in 1/16" increments
- Specify overall finished height. Example 1: W1836L-CH 33 1/2"; Example 2: B30BUTT-CH 40 1/2"
- To (CH) on wall cabinets 18 1/16" to 23 7/16" H, select a nominal 24" H cabinet; for heights 23 9/16" to 29 15/16" H, select a nominal 30" H cabinet; unavailable on 21" & 27" H cabinets
- 34 1/2" H Base Cabinets can be increased in height to 42" H; height adjustments will be made to the door section of the base cabinet, therefore height adjustments are unavailable for drawer stack cabinets
- For Tall 72 1/2"–83 15/16" H, select a nominal 84" H cabinet; height adjustments will be made to the upper section of the tall cabinet. Shelves in the upper section are unavailable when cabinet change height is shorter than 81 1/2"
- When using (CH) and (VTK) options on the same cabinet, the (CH) dimension will take precedence, the Toe Kick height of 4 1/2" will then be subtracted from the (CH) dimension. (Example: U302490BUTT-VTK-CH to 88", the overall cabinet height will be 83 1/2")
- Unavailable on Utility cabinets ordered with Inverted Frame (IF)
- Consult option availability chart for your desired cabinet

Change Height		
Cabinet	Min. Height	Max. Height
Wall	12"	54"
Base FH 34 1/2" H	16 1/2"	40 7/16"
Base FH 40 1/2" H	40 1/2"	60 7/16"
Base	23"	42"
Tall	72 1/2"	96"
U_ET	66"	96"
U_EB	78"	96"
Vanity Base	23"	42"

Consider using APDW (Appliance Panel Drawer Front) if a unique Filler Overlay size is required in your design

## Change Width

One Dimension  
**CW**

Change Width		
Cabinet	Min. Width	Max. Width
Wall	9"	48"
Base	9"	48"
Tall	9"	36"
Vanity Base	12"	60"

- To order (CW) modifications, start with a larger cabinet and reduce down in 1/16" increments.
- Specify overall finished width. Example 1: W1830L-CW 17 1/2"; Example 2: B30BUTT-CW 28 1/2" (Example of incorrect request: W1830L-CW 19 1/2")
- Double door cabinets unable to be modified to less than 24" wide; use single door cabinets for this option
- Select Decorative Doors and Inserts are available with (CW) option
- Consult option availability chart for your desired cabinet
- Note:** Decorative Inserts are unavailable on cabinets less than 12" wide

Consider using APDW (Appliance Panel Drawer Front) if a unique Filler Overlay size is required in your design

## Increased Depth

One Dimension  
**ID**

- Many wall cabinets can be increased to a 24" depth, in 1/16" increments
- Wall Refrigerator cabinets can be increased to 27" deep, in 1/16" increments
- Any Wall cabinet that is larger than 24" wide x 27" high x 12" deep, or any Wall cabinet deeper than 12" **must** be installed between two cabinets, a cabinet and a wall, or supported from below
- Many Base and Tall cabinets can be increased to a 27" depth, in 1/16" increments
- Consult option availability chart for your desired cabinet
- Note:** Max. cabinet width for this option is 36"
- Note:** Drawers and Deluxe Roll-out Trays will remain 24" deep when (ID) is chosen

21"-23 15/16"	17 23/32"
18"-20 15/16"	14 49/64"
15"-17 15/16"	11 13/16"
12"-14 15/16"	8 55/64"
less than 12"	No drawer

Reduced Depth		
Cabinets	Sugg. Min.	Reason
All	4 5/8"	Minimum for shelf hole drilling
PB	9"	Minimum for toe kick notch Less than 9" WR is mandatory
Cabinets with drawers	12"	Minimum for working drawer Less than 12" depth will have false drawer front
BEA / WEA	18"	Minimum allowed
WWH	12"	Wine Storage section always 11 3/8" deep

## Change Width & Change Height

Two Dimensions  
**CW.CH**

Change Width & Change Height				
Cabinet	Min. Width	Max. Width	Min. Height	Max. Height
Wall	9"	48"	12"	54"
Base FH 34 1/2" H	9"	48"	16 1/2"	40 7/16"
Base FH 40 1/2" H	9"	48"	40 1/2"	60 7/16"
Base	9"	48"	23"	42"
Tall	9"	36"	72 1/2"	96"
Vanity Base	12"	60"	23"	42"

- Many cabinets can be modified to your desired width and height in 1/16" increments
- Double door cabinets unable to be modified to less than 24" wide; use single door cabinets for this option
- To (CH) on wall cabinets 18 1/16" to 23 7/16" H, select a nominal 24" H cabinet; for heights 23 9/16" to 29 15/16" H, select a nominal 30" H cabinet; unavailable on 21" & 27" H cabinets
- 34 1/2" H Base Cabinets can be increased in height to 42" H; height adjustments will be made to the door section of the base cabinet, therefore height adjustments are unavailable for drawer stack cabinets
- For Tall 72 1/2"–83 15/16" H, select a nominal 84" H cabinet; height adjustments will be made to the upper section of the tall cabinet. Shelves in the upper section are unavailable when cabinet change height is shorter than 81 1/2"
- When using (CH) and (VTK) options on the same cabinet, the (CH) dimension will take precedence, the Toe Kick height of 4 1/2" will then be subtracted from the (CH) dimension. (Example: U302490BUTT-VTK-CH to 88", the overall cabinet height will be 83 1/2")
- Unavailable on Utility cabinets ordered with Inverted Frame (IF)
- Consult option availability chart for your desired cabinet

## -Box Options-

### Cabinet Front Only

**CFO**

Base shown as example only

- Front frame, doors and drawer fronts only
- Extended stiles available

We recommend using this option on cabinetry containing no factory installed accessories, since all cabinet components will be eliminated except face frame, doors and drawer fronts. Order example: B18L-CFO

## Integrated Extended Stile

Base  
**BG3 XB**  
**BG3 XR or L**  
 Wall  
**WG3 XB**  
**WG3 XR or L**

- Specify R or L
- XB=Extended Stile Both Sides  
 XR=Extended Stile Right Side  
 XL=Extended Stile Left Side
- 3" integrated extended stiles are available. Stiles may be extended left, right or both
- Deluxe Roll-Out Trays are unavailable in base cabinets with this option
- WG3XB is unavailable on wall cabinets that have a built-in center stile. Increased shelf width creates issues for shelf installation
- Unavailable with (CW) option
- Unavailable with (CH) option
- Painted hardwood supplied for Paint Grade door styles
- Example: B12L-BG3XL. Order designation BG3XL means 3" integrated extended stile left, overall cabinet width is 15"
- Consult Integrated Extended Stile (XSG) option box for your desired cabinet

## Change Top Rail

Changing the top rail also changes:

*Wall and Tall*  
**CTR**  
*Base*  
**CTR.B**

*Grey color coding indicates new product, size or code.*

- Many wall and tall cabinets, and base cabinets with Full Height doors (.FH) can be ordered with a wide top rail
- (CTR) can be modified in 1/16" increments; with a min. of 1/16" or a max. of 6"
- The selected dimension will be added to the top rail and will equally reduce the cabinet opening and door height; the overall cabinet height will be unchanged
- (CW) can be used along with (CTR)
- Unavailable with (CH) option
- Example for (CTR): W2136L-CTR change rail by 2 1/4" (33 3/4"); U242484BUTT-CTR change rail by 1" (83"); B24L.FH-CTR.B change rail by 2" (32 1/2")
- Consult Change Top Rail (CTR) option box for your desired cabinet
- CTR.B is unavailable on base cabinets with FHB, FHK and FHP options, and base EZR cabinets; base nomenclature **must** reflect Full Height doors as standard (Example: B30BUTT.FH)
- Unavailable with Integrated Message Center (IMCW) and Integrated Wall Spice Shelf (IWSS)

## Oven Cabinet Cut-out

Single  
\* **COS**

Top  
♦ **COT**

Center  
♦ **COC**

Bottom  
♦ **COB**

\* Available on all BBMC, BOCU, all OC\_S, OC\_S.2D, OC\_DD, OC\_D, OC\_D.DD and OC\_DE cabinets

♦ Available on FOC\_C and OC\_C.D cabinets

• Cut-out (COS, COT, COC and COB) options help make appliance installations easier by eliminating required field-cuts to the cabinet face frame; cut-outs are centered

• (COS) is available on Single and Double Oven cabinets, Base Oven Cabinet Universal and Base Built-In Microwave Cabinets - with one cutout opening. Examples: OC302484S-COS, OC332496D-COS, BOCU30-COS, BBMC272434-COS

• (COS) is unavailable on Oven Cabinet Combination (OC\_C) - COT, COC or COB options *must* be used on this cabinet type

• (COT, COC, and COB) is only available on Oven Cabinet Combination

• (COT, COC, COB) can be used together on the same cabinet - max. dimensions will vary for (COC) depending on the cut-out dimensions used for (COT). See min./max. chart for details; located in Tall Appliance Cabinet section

• Cut-out opening is unable to exceed the max. dimensions listed for each Oven Cabinet

• Unavailable with (CW) option

• Available with (MIFA) option

## -Door, Drawer & Shelf Options-

### Full-Height Doors

#### FHB

Full Height Both Sides (Peninsula cabinets only)

#### FHK

Full Height Kitchen Side (Standard and peninsula cabinets)

#### FHP

Full Height Peninsula Side (Peninsula cabinets only)

• This option is designed to replace a drawer and door combination with a full-height door. Any cabinet that has accessories in the top drawer, (Example: BCC36); or a stack of drawers next to door, (Example: VCD42) is unavailable in this option

• Available in select base, vanity and desk cabinets

• Unavailable with (CW) option

• Unavailable with (CH) option

## Finger Pull Routing

### FPR

#### Standard Wall Cabinet Door Pull

#### Standard Base Cabinet Door Pull

#### Base Drawer Front B12"-B27"

Pull centered at bottom

#### Base Drawer Front B30"-B48"

Two pulls at bottom

- Finger Pull Routing is done on the backside of the door or drawer front, opposite of hinging
- This option is available on select 1/2" overly door styles. Reference the door style section for specific details
- Specify FPR after each cabinet that requires Finger Pull Routing
- Order Example: B18R.FH-FPR
- Drawer heads 30" and wider will receive two routs
- False fronts on sink bases will be routed with this option
- Unavailable in Paint Grade door styles

## Glass Door Inserts

### GD

Aluminum Frame

Camed Classic Etched

Layered Mullion Textured

- For complete listing of glass door specifications, see Decorative Doors and Inserts section
- Note:** Most doors (12" or wider and up to 62" high) can be supplied prepared for glass, with glass inserts, Mullion glass or Aluminum Frame doors
- Annealed Glass - Glass that has been cooled with precise control to relieve stress introduced by the manufacturing process, making the glass workable (i.e. easier to cut); **not** safety glass
- Laminated Safety Glass - When broken, laminated safety glass is held together by the adhesives that are used in the manufacturing process. This generally helps keep large pieces of glass from falling from the opening. Nevertheless, small pieces and/or chips may still fall, and the precise size of pieces of glass that will break is difficult to identify and describe
- Tempered Glass - Tempering uses either a thermal or chemical process to quickly harden the glass, which compresses its surface. Compressing the surface increases the amount of tensile stress that can be endured before breakage occurs. When it does break, tempered glass generally breaks into very small pieces
- Consult Glass Door Inserts option box (GD) for your desired cabinet

Remember, matching interior is not standard when attaching glass doors to a cabinet. We highly recommend upgrading to matching interior.

## Drawer Fronts

### Classic Drawer Front CLDF

### Deluxe Raised or Recessed Panel Drawer Front DRPD

Classic (Slab) Panel

Raised Panel

Recessed Panel

- Reference the door style section for specific details on drawer front design by size and availability
- DRPD converts standard drawer front to a five-piece design
- Note:** When CLDF option is applied, all drawer fronts will be slab

## Charging Drawer Option

CGDO.4

CGDO.7

4" Drawer  
**CGDO .4**  
7" Drawer  
**CGDO .7**

- Solid wood drawer box
- (1) three-prong and (2) USB outlets; cord length for outlet is 6 ft.
- Drawer box prepared for Outlet-Insert
- Field installation required for the outlet and wire management system-instructions provided
- Requires separate power source in the back of the cabinet
- Unavailable with 9" and 12" and 15" wide drawers/cabinets (Example: Unavailable on a B33.2D, available on a B36.2D; Unavailable on a BBC42, available on a BBC45)
- Change Width (CW) option unavailable on 18" wide drawers/cabinets with CGDO
- Unavailable with cabinets less than 15" deep. Drawer box depths are 3" less than the cabinet depth (Example: A 24" deep cabinet will use a drawer box for a 21" deep cabinet-additional clearance required for the wire management system)
- Order example; B18R-CGDO.4; BPPS30-CGDO.7; DDR1818-CGDO.4; VB302134-CGDO.4
- **Note:** Applicable cabinets can be ordered with one CGDO.4 and one CGDO.7 in the same cabinet, however, multiple quantities of the same nomenclature **cannot** be applied to the same cabinet (Example: BD24-CGDO.4-CGDO.7 is available, BD24-CGDO.4-CGDO.4 is unavailable). Charging drawers are applied from top to bottom in order of drawer size and option size selected

We recommend Recessed Toe Kicks (RTKR or RTKL) on base cabinets at the end of peninsula runs or island applications.

## Recessed Toe Kick Peninsula

**RTKP** Back  
**RTKPB** Back and both sides  
**RTKPL** Back and left side  
**RTKPR** Back and right side

- Select Base and Office Cabinets may be ordered with a Recessed Toe Kick on the back (Peninsula) side. Consult option availability chart for desired cabinet
- Specify end or ends to receive Recessed Toe Kick Peninsula
- Painted hardwood supplied for Paint Grade door styles
- Additional bottom support is recommended when using RTKPB on cabinets wider than 27"
- RTK and WR are unavailable on same cabinet, except when combining WR\_K and RTKP
- Unavailable on cabinets less than 21" deep
- Unavailable with (CW) option
- Unavailable with (CH) option
- Consult Recessed Toe Kick Peninsula (RTKP) option box for your desired cabinet

## Void Toe Kick

**VTK**

- Select Base, Tall, Office, Furniture and Vanity Cabinets may be ordered without the toe kick
- Allows decorative feet to be used under cabinet
- **Note:** Decorative feet or legs be attached to the frame as the weight of the cabinet is supported by the end panels, **not** the cabinet floor. If using the VTK option, it is recommended to use a 7/8" spacer to flush the floor and end panels, and be sure that a section of the foot is in contact with the end panel
- Full overlay door styles are unable to be placed directly on the floor
- Attach cabinets to a wall stud or anchor to the floor to achieve sufficient stability; unintended to be free-standing
- Unavailable on ADA cabinets
- Unavailable on 93" and 96" high tall cabinets
- Unavailable with (WR) option
- Unavailable on cabinets with a decorative toe kick
- Consult Void Toe Kick (VTK) option box for your desired cabinet
- When using (CH) and (VTK) options on the same cabinet, the (CH) dimension will take precedence, the Toe Kick height of 4 1/2" will then be subtracted from the (CH) dimension. (Example: U302490BUTT-VTK-CH to 88", the overall cabinet height will be 83 1/2")

## Toe Kick Drawer

### TKD

- Factory installation only
- Available on cabinets 12" to 42" wide
- Available on cabinets 18" to 24" deep
- Unavailable on 93" and 96" high tall cabinets
- Unavailable on Wall cabinets, Corner cabinets, Angled cabinets, SmartGuard Sink Base
- Unavailable with (FBC) option
- Push-to-open side-mount drawer runners (**not** soft-close) - with 100 lbs. weight capacity
- Drawer box is 3" high - 3/4" thick front, back and sides
- Drawer has 2 3/4" clearance to bottom of cabinet face frame
- Toe Kick Drawer is unable to be used as a stepping platform
- 7/8" clearance between the bottom of the end panel to the bottom of the drawer box
- Matching Toe Kick required - field trimmed/installed
- Unable to be used where obstacles protrude from the floor
- Consult Toe Kick Drawer (TKD) option box for your desired cabinet
- **Note:** Toe kick lighting should be recessed behind the cabinet with Toe Kick Drawers

## Aluminum Frame Glass

Frames are brushed extruded aluminum. Combine a front or reverse frame and a glass style that offers the degree of content visibility you desire, from completely clear to totally obscure.

<b>3</b>	<b>VE</b>	<b>BIS</b>	<b>2</b>
quantity	frame code	glass code	height code

- Available in full overlay door styles only
- (CW) & (CH) options unavailable

### Vetro Brushed Aluminum

- Brushed aluminum 2 1/8" frame

Front, Top & Bottom Positions

12"-62" H

Bistro Glass Insert  
**VEBIS**

Mirage Glass Insert  
**VEMIR**

Satina Glass Insert  
**VESAT**

## Camed Glass

Camed glass designs use cut glass and zinc coming to create an artistic statement. The lines of the coming add stylish detail while creating visual interruptions in the glass and the objects displayed behind it.

<b>4</b>	<b>CLI</b>	<b>2</b>
quantity	code	height code

- (CW) & (CH) options unavailable

### Classic Camed Insert

- Blackened pewter zinc coming. Lightly textured satin glass.

Front & Top Positions

12"-42" H

**CLI**

- Available in full overlay door styles only
- Available in doors 15" wide or wider

## Classic Glass

Classic glass is simple, clean and timeless. Designs feature minimal patterns and textures. The choice of clear glass, with or without simple bevels, maximizes interior visibility.

<b>1</b>	<b>BIS</b>	<b>2</b>
quantity	code	height code

### Bistro Insert

- Clear tempered glass.

Front, Top & Bottom Positions

12"-62" H

**BIS**

### Prepped for Glass

- We will prepare most doors up to 62" for customer supplied glass

Front, Top & Bottom Positions

12"-62" H

**DRS .PREP**

- 9" wide doors unable to be prep for glass or inserts

### Prism Insert

- All clear tempered beveled glass.

Front, Top & Bottom Positions

12"-62" H

**PRI**

- Unavailable with applied molding doors
- (CW) & (CH) options unavailable

## Etched Glass

These glass designs offer etched linear patterns or an overall fine, sanded texture into which a pattern or shape is etched. Visibility of cabinetry interiors is possible when some areas of the glass are left unetched.

<b>2</b>	<b>SAT</b>	<b>1</b>
quantity	code	height code

### Satina Insert

- Etched tempered glass.

Front, Top & Bottom Positions  
12"-62" H  
**SAT**

## Layered Glass

Layered glass combines the durability of tempered glass with a choice of unique materials to create a special effect through color or pattern. The material is "sandwiched" between the glass layers for easy cleaning

<b>3</b>	<b>MIR</b>	<b>1</b>
quantity	code	height code

### Antiquity Insert

- Obscured clear tempered glass with droplet (seeded) impressions throughout.

Front, Top & Bottom Positions  
12"-62" H  
**ATQ**

### Mirage Insert

- Mirrored glass

Front, Top & Bottom Positions  
12"-62" H  
**MIR**

## Mullion Doors

Mullion door designs combine the beauty of actual wood mullion divides and wood inserts or clear or textured tempered glass. The wood mullions coordinate with the door and frame in materials and finish.

Decorative molding will **not** be applied to Mullion Doors when ordered in door styles having applied molding on their inside profile. Mullion doors are available in most door styles, in sizes from 12" wide and up to 42" high. Consult Decorative Doors and Inserts availability chart for specific detail.

Mullion doors are unavailable with the Prepped for Glass option. Doors **must** ship with glass installed.

<b>2</b>	<b>EV</b>	<b>ATQ</b>	<b>1</b>

- IW Integrated Wall
- CH Change Height

- CW Change Width
- ID Increased Depth
- RD Reduced Depth
- XSG Integrated Extended Stile
- XS Extended Stile
- CTR Change Top Rail
- GD Glass Doors

## Wall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Standard wall cabinet box depth is 12" unless stated otherwise. Add door thickness with bumpers for total depth.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

**Note:** Wall cabinets with standard matching vinyl interior or ordered with matching vinyl interior option will be supplied with finished exterior material. Wall cabinets with standard matching interior or ordered with FPEB or APFC, MIP, or MIAPFC will have exterior floors and ceilings that are finished to match.

Any wall cabinet that is larger than 24" wide x 27" high x 12" deep, or any Wall cabinet deeper than 12" must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is **not** covered by the warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

\* **W2433 R or L**

- + Unavailable with (XSG)
- Unavailable with (CW) option
- Unavailable with (CH) option
- \* Doors are square.
- ◆ Available with (IW) option

- Specify R or L for single door hinging
- Adjustable shelves
- 6" wide cabinets available in full overlay door styles only; doors default to a slab design with an outside profile matching the selected door style. Cabinet frame rails are 15/16" wide
- ☆ 6" wide cabinets have a max. (CW) of 8 15/16"
- Replacement Hinge for 6" wide cabinets: PH34FO.SC
- ☆ (AD\_E) for 6" wide cabinets only available right or left, unavailable on both sides
- ☆ Glass Door (GD) option unavailable in 6"-9" wide cabinets

● FE	☆ CH
● APC	☆ CW
● APFC	● ID
● FPFB	● RD
● MI	☆ XSG
● PFB	● XS
☆ AD_E	● CTR
☆ IW	☆ GD

Tip: When mounting a 6" Spice Drawer or Organizer underneath a 23 1/2" cabinet next to a 30" high wall cabinet, the overall height will be 29 1/2". To correct this, you can place a piece of Stack Molding or a 1/2" filler between the 23 1/2" cabinet and the 6" cabinet

Remember, all 9" wide doors in 1/2" overlay will be square. If a 9" cabinet is required, one suggestion is to void the door and order the cabinet with (MI) and use it as a decorative open cabinet

### Wall Single Door 36" - 42" H

When designing a built-in refrigerator area, remember that many side by side refrigerators measure up to 36" wide. If you have the extra space, it is recommended to use a 37" wide Wall Refrigerator cabinet to assure clearance for the appliance. Also, verify the height of the appliance to make sure you are using the correct Wall Refrigerator cabinet

## Peninsula Wall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Any wall cabinet that is larger than 24" wide x 27" high x 12" deep, or any Wall cabinet deeper than 12" must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is **not** covered by the warranty.

**Note:** Peninsula wall cabinets needs be installed against soffit, ceiling or supported by countertop.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

## Wall Specialty Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Any wall cabinet that is larger than 24" wide x 27" high x 12" deep, or any Wall cabinet deeper than 12" must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is **not** covered by the warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

## Wall Hood Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Wall Hoods will have finished ends standard.

**Caution:** Wall Hoods must be installed between two (2) cabinets, a cabinet and a wall or anchored to the ceiling or wall. Failure to provide additional support could result in collapse of the cabinet, serious personal injury, or property damage. Damage relating to failure to provide additional support is not covered by the warranty.

Consult your local building code for rules and regulations that may apply to the installation of this product, such as required clearances between the Wall Hood and cooking surface.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

- Solid wood/wood veneer construction
- All door styles will default to full overlay
- Doors are attached by false front clips; *not* operational
- Designed to align with top of adjacent cabinets
- Valance adds 3" to overall height and 5/32" width to both sides
- Includes (2) Wall Hood Box Fillers; shipped separately
- Filler strips are used when butting adjacent cabinets against the Wall Hood Box. Use fillers in this application to avoid gaps between cabinet boxes
- Rustic doors applied when ordered in Rustic door styles
- **Note:** Cabinetry and appliances located below these Wall Hoods should be pulled to a min. of 27" deep and a max. of 30" deep for improved function

Please use the Wall Hood Box Filler when installing the hood box between two wall

cabinets

The Wall Hood Classic Chimney Raised Panel Valance includes a representative raised panel profile that blends with most raised panel door styles. It may not match the chosen door style exactly. Consider designing in a valance on the adjacent wall of the cooking area to coordinate with this style hood.

For details on blower & liners, see Component Packages at the end of this section

### Wall Hood Cove Application

Drawer Front Panel

- Make the cooking area a dramatic focal point by adding a drawer front, appliance panel, molding to the cove hood to create architectural interest
- Decorate the front apron of the hood with a drawer front to add architectural interest, which can be ordered through the Custom Appliance Panel Program
- Customize the 12" H cap on the 54" H units with a molding stack, custom appliance panel used as wainscot.
- Don't forget to trim out the top of your hood with the same top molding you are using for the wall cabinets in your kitchen

Opening Sizes

Cabinet	Top Width	Top Depth	Bottom Width	Bottom Depth
<b>WHCV36</b>	12 3/4"	10 9/16"	34 1/2"	21 1/2"
<b>WHCV42</b>	18 3/4"	10 9/16"	40 1/2"	21 1/2"
<b>WHCV48</b>	24 3/4"	10 9/16"	46 1/2"	21 1/2"

Order a decorative drawer front from our Custom Appliance panel program to create a customized insert that matches your door profile for the front apron of your hood. You may also use a drawer front to create a matching custom look on the 12" cap used to create the 54"H units.

For details on blower & liners, see Component Packages at the end of this section

## Wall Hood Mantel Matching Application

1. Wall Hood Mantel Matching (WHMM)
2. Wall Hood Mantel Cabinet (WHMC)
3. Under Cabinet Door Storage (UCDS)
4. Corbels
5. 3\"/>

- Gain a “Mantel” style appearance in your kitchen design while maximizing your storage
- Personalize the design by incorporating molding to enhance the cooking focal point of the kitchen
- Wall Hood Mantel Cabinets should be used to support the hood. The increased overall depth makes a “bump-out” focal point that is easy to design
- 18” deep Wall Hood Mantel Cabinets are to be used with 30”–36” Wall Hood Mantel Matching units only. Larger units are unable to ventilate properly
- Add an LED Lighting Kit near the front, beneath the Wall Hood Mantel Cabinets (B) to highlight lower storage
- Create a hearth surround for the cooking area in your kitchen with components that work as a system for 84”, 87”, 90”, 93” and 96” high cabinetry designs

- 30” and 36” wide used at 18” depth requires Wall Hood Component Package “L”; available for 18” deep hoods only
- ▲ 36”– 60” wide used at 21” deep will use Wall Hood Component Package “I” or “Q”

- Solid wood/wood veneer construction
- No end panels, needs to be supported on each side by Wall Hood Mantel Cabinet or Wall Column
- 3/4” thick, 4 1/4” deep solid wood shelf
- Hoods are designed to be set 29”–29 1/2” above the cooking surface
- Doors open to facilitate duct installation and wiring
- Will accept optional onlays; order separately
- Rustic doors applied when ordered in Rustic door styles
- **Note:** Cabinetry and appliances located below these Wall Hoods should be pulled to a min. of 27” deep and a max. of 30” deep for improved function

## Wall Microwave Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Any wall cabinet that is larger than 24" wide x 27" high x 12" deep, or any Wall cabinet deeper than 12" must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is **not** covered by the warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

## Wall Open Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Any wall cabinet that is larger than 24" wide x 27" high x 12" deep, or any Wall cabinet deeper than 12" must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is **not** covered by the warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8" less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15", the panel will be 14 7/8"; MBEPL-CW to 21", the panel will be 20 7/8"

### Matching Wall End Panel - Square Edges

Will not fit flush against 1/2" end panel; a 3/16" shim is recommended

### Under Cabinet Panels

UCP1296

PUCP1296

UCPWA

- PUCP1296
- UCP1296
- UCPWA

- 3/8" panel with matching vinyl sides and applied solid wood edge molding
- APC Upgrade: 3/8" plywood panel finished on the bottom side. Top side will be unfinished, but will **not** be visible after installation
- Cabinet Panel Edge molding may be ordered separately
- Quartersawn door styles are supplied plain sawn

FE	AD_E
● APC	CH
APFC	CW
FPEB	ID
MI	RD

We recommend using Under Cabinet Panels on all wall cabinet runs. This will give the kitchen an elegant finished look. Unless ordered with a matching wood veneer interior option, the under side of wall cabinets are a natural birch material

# Wall Fillers

## Wall Filler Information

Fillers are 3/4" thick solid wood.

**Note:** Painted or stained hardwood may be supplied.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### Wall Filler

30" High  
**WF3.30**

60" High  
**WF3.60**  
**WF6.60**  
30" High  
**WF3X3.30**  
42" High  
**WF3X3.42**

- 3/4" thick solid wood
- Finished one side only
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts

Remember to use fillers with full overlay door styles, especially square edge profiles, when cabinets will be against a return wall, box, pilaster or column. Use fillers on all overlays if there is case molding on a return wall. This will ensure proper clearance for drawers and roll-out tray access.

#### Five shelves

42" High  
**WFP3.42** 2 1/8" shelf width  
**WFP6.42** 5 1/8" shelf width

- Adjustable shelves
- Unit slides on side-mount drawer runners (*not* soft close)
- Recommended installation is between two cabinets
- Installation may also be made between a cabinet and a wall or a cabinet and an end panel with stile
- Filler is included, but unattached. Unit should be installed before removing shipping brace and attaching filler
- A filler overlay is recommended for full overlay door styles; order separately

Filler pullouts need to be installed between two cabinets or a cabinet and an end panel; unable to use at the end of cabinet runs or next to appliances

# LED Lighting

## LED Lighting Information

LED is an energy efficient source for kitchen and bath lighting needs. Puck and strip lights have 3000K light color (warm white). All products are 24V DC power; all wires are white. Each LED light is projected to last for 50,000 hours of run time-nearly six years of continuous light. LED products carry a limited warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### LED Flexible Strip Tape Light

*Tape Light*  
**LED.TPL**  
*Splash Proof Tape Light*  
**LED.TPLSP**  
*Tape Light Kit*  
★ **LED.TPL.KIT**

★ Kit includes:  
(1) LED Flexible Strip Tape Light (LED.TPL), (1) DayBreak Dimmable Driver 40W (LED.DDR40), (2) 8' Power Cables (LED.PC), (2) 8' Power Extension Cables (LED.PEC8), (2) End-to-End Connectors (LED.ETEC), (3) Connector Kits for Wire Length (LED.CLC), and (1) Stranded Copper Wire (LED.SCW25)

- Standard LED flexible strip tape with self adhesive backing
- 16.4' long; 0.32" wide; ~0.15" tall; 300 diodes; 24W
- Warm white illumination
- 120° beam angle, 80 lumens per ft.
- (LED.PC) is required to connect strip tape lighting to a power supply. Strip tape lengths unable to exceed 16.4' out of a single power supply port. An additional (LED.PC) plugged into an unused power supply port is required for applications exceeding 16.4'. Make sure power supplies are **not** overloaded based on watt capacity
- For use under-cabinet, over-cabinet, toe kick and cabinet interiors
- Use LED.TPLSP for splash zones i.e. toe-kick space
- Custom lengths can be cut in increments of 2", **not** to exceed a total of 16.4'. Use (LED.ETEC) to join custom lengths
- Use Connector Kit for (LED.CLC) with (LED.SCW25) to navigate corners or other obstacles
- Use (LED.MSS) for controlling interior cabinet lighting
- Use (LED.PEC8) to increase distance between power supply and beginning of LED flexible strip run

Prior to installation, clean and prepare surface with an alcohol pad to remove oils

### LED Puck Light

**LED.PCK1**  
★ **LED.PCK3.KIT**

★ Kit includes: (3) LED Puck Lights (LED.PCK1), (1) DayBreak Dimmable Driver 40W (LED.DDR40), and (2) 8' Power Extension Cables (LED.PEC8)

- One light with 8' power cable; 3W
- Warm white illumination
- 194 lumens; 105° beam angle
- For surface mount or recess installation
- Units are 2 9/16" diameter. Requires 2 5/16" diameter circle cut out for recess installation
- Use (LED.PEC8) to extend the distance between lights and power supply

Under Cabinet Panels provide a clean, built-in look for under cabinet installation

**LED Power Cable**

**LED.PC**

- 8' cable
- Cable has male connector on one end and flexible strip connector on the other
- Used to start the flexible strip light run

**LED Power Extension Cable**

**LED.PEC8**

- 8' cable
- Cable has male connector on one end and female connector on the other
- Used to extend the distance between the power supply and the light source
- Several cables may be connected to extend the length if needed

**Connector Kit for Custom Wire Length**

**LED.CLC**

- Contains two connectors
- For use when adding a cut-to-length wire section to navigate LED Flexible Strip Tape Lights around corners or obstacles

**End-to-End Connector**

**LED.ETEC**

- Connects two pieces of LED Flexible Strip Tape Lights end to end

**Stranded Copper Wire**

**LED.SCW25**

- Use with (LED.CLC) for custom wire length

**DayBreak Dimmable Driver**

40 Watts  
**LED.DDR40**

- -24V DC; 40 W, 12 port connector block can be used for up to 40 total watts of lighting
- Requires electrical outlet or junction box to connect to power
- Converts 120V AC power to 24V DC power
- Can be used with most standard TRIAC wall dimmers. Verify compatibility with switch manufacturer's specifications
- Comes with a 5' long power cord and optional plug head

### Motion Sensor On/Off Switch

LED.MSS

- Medium range motion sensor ideal for interior cabinet installation. Lights are activated by motion of opening cabinet doors
- Includes 12-port connector block
- One switch can be used to activate lighting for single or double door cabinets
- Adjustable timer controls the length of time lights remain on; up to 6 minutes
- 5' long cable between sensor and controller
- Recess mount the sensor eye; requires a 20 mm hole

### Low Voltage LED Wall Dimmer Switch

LED.WDS.3W  
LED.WDS.SP

- White, wall dimmer switch for single gang box
- Functions as both an on/off and dimmer switch
- Use LED.WDS.3W for rooms with multiple entrances and switches
- Use LED.WDS.SP for rooms with a single entrance and switch
- Faceplate **not** included; purchase separately to match decor

### LED Connection Options

- Designed to give you the ultimate versatility in designing lighting solutions, the following examples show the use of puck lighting and strip lighting, along with the various accessories:
- The best power source for LED Lighting is called a driver. The patented technology in your driver allows it to be used as both a dimmable driver and a regular driver. The driver is powered by standard AC line voltage of 120VAC. The driver can be plugged into an outlet by using the plug head included or can be hardwired into a junction box
- Puck lights attach to the driver in a “hub and spoke” configuration. The driver has a 12-port connector block. Each light comes equipped with a 98” power lead. Should you require a longer power lead, use a power extension cord
- Each run of strip lights attach to the driver in a “hub and spoke” configuration. The driver has a 12-port connector block. Each series of strips require the use of one power cable. Should you require a longer power lead, use a power extension cable
- Connectors allow you to run more than one segment of LED strip from a single power cable. The End to End Connector joins smaller pieces of LED tape together to form longer segments. For example, if you are installing toe kick lighting, but need to skip past the refrigerator, use the Connector Kit for Custom Wire Length. After wiring around the refrigerator, you can continue your lighting on the other side

Please do not attach more lights than the driver has wattage to support

For instructional information on designing and installing lighting, visit [www.kminfo.com](http://www.kminfo.com). The Lighting Wizard is located under the Training tab.

# Base Cabinets

## Construction Options and Modifications

- ❖ Included as standard
- Available with an upcharge
- ☆ Available with exceptions
- (Blank) **Not** available

FE	Finished Ends	IF	Inverted Frame

CW	Change Width	VTK	Void Toe Kick
ID	Increased Depth	TKD	Toe Kick Drawer
RD	Reduced Depth		
XSG	Integrated Extended Stile		
XS	Extended Stile		

## Base Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Standard base cabinet box depth is 24" unless stated otherwise. Add door thickness with bumpers for total depth.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

RD	Reduced Depth		
XSG	Integrated Extended Stile		

## Base Sink & Appliance Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### SmartGuard Sink Base

No shelf  
**SB24 BUTT.CG**  
**SB27 (Butt).CG**  
**SB30 BUTT.CG**  
**SB33 BUTT.CG**  
**SB36 BUTT.CG**

- SmartGuard is a registered trademark
- Easy to clean, durable sink base helps protect the cabinetry from everyday leaks and spills
- Back, end and bottom panels are made of an engineered polymer material
- Bottom panel slants 1° toward front of cabinet and has raised ribs to slightly elevate stored items
- Decorative end panel required for end of peninsula or island; order separately
- One full-width false drawer front above doors
- Use SmartGuard Panel Backer in the paneling section to resolve cutting and installation errors
- Available with Optional Door Storage Unit
- Optional Utensil Trays (UT and SUT) are available
- Unavailable with Roll-Out Trays
- Includes a Touch-Up Kit

When you need an inverted frame for a sink base cabinet, consider using a regular base with a drawer instead of a sink base if plumbing allows. This way you get a working drawer at the bottom of your cabinet.

Select your sink prior to finalizing your design. Check manufacturer's specifications to ensure a proper sink fit.

### Wood Sink Base 27" Deep

To avoid cutting the side walls of a sink base cabinet, please be sure your sink base cabinet is at least 2 1/2" wider than the overall width of your sink. If your overall front-to-back sink depth is 22 1/2" or greater, use a 27" deep sink base.

Select your sink prior to finalizing your design. Check manufacturer's specifications to ensure a proper sink fit.

## Peninsula Base Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

## Base Specialty Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Please use a filler next to the Base Corner Drawer Cabinet if an adjacent unit is deeper than 24".

The filler width must equal the distance a unit will extend beyond the Base Corner Drawer Cabinet to ensure proper drawer clearance. For example: A 2" filler is needed if a 26" deep range is placed next to it

Consider using the Full Height Door (FHK), Full Height Peninsula (FHP) or Full Height Both (FHB) option on Peninsula Base Blind Corner Cabinets to increase storage height of the top shelf

### Peninsula Base Blind Corner - 27" Wide

**PBBC27**

- One adjustable shelf
- Two 5 1/2" stiles on blind side allow cabinet to be used as right or left
- Double doors and single drawer
- Reversible
- For use as a starter cabinet for peninsula
- Designed to fit flush against wall, cabinet may be pulled approximately 2 1/4". Full overlay door styles require a pull of at least 1" from wall to allow hardware clearance
- Filler included
- Order Overlay Panel for Base Blind Corner separately
- Working drawer and doors open to same side
- ☆ Max. (ID) is 27"

● FE	● RD
● APC	● XS
● APFC	IF
● FPEB	TWR
● MI	● GD
● AD_E	● WR
● CH	● RTK
CW	◇ RTKP
☆ ID	● VTK

Remember, when using a 27" wide Peninsula Base Blind Corner cabinet, it is highly recommended to use peninsula cabinets on the adjacent run due to depth continuity. If regular base cabinets are used, the run will not be flush once the matching panel is applied.

Consider using (FHP) on Peninsula Base Blind Corner 27" Cabinets to increase storage height of the top shelf

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8" less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15", the panel will be 14 7/8"; MBEPL-CW to 21", the panel will be 20 7/8"

### Matching Base End Panel - Square Edges

34 1/2" High  
**MBEP .S**  
40 1/2" High  
**MBEP40 .S**

- 3/4" thick panel with square edge front and back
- Inside of matching panel bottom rail will line up with inside bottom rail of door
- Reversible, may be used on either right or left end
- No frame recess dado
- Paint Grade supplied for Paint Grade door styles
- Unavailable in mitered door styles; use End Panel-Mitered
- ☆ Field notch Wide Bottom Rail for toe kick

# Base Fillers

## Base Filler Information

**Note:** Painted or stained hardwood may be supplied

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### Base Filler

**BF3**  
**BF6**  
**BF3X3**

- 3/4" thick solid wood
- Finished one side only
- Painted hardwood supplied for Paint Grade door styles
- No toe kick

Remember to use fillers with full overlay door styles, especially square edge profiles, when cabinets will be against a return wall, box, pilaster or column. Use fillers on all overlays if there is case molding on a return wall. This will ensure proper clearance for drawers and roll-out tray access.

### Base Filler Overlay

**BFOL3**  
**BFOL6**  
**BFOL3X3**

- Available in full overlay door styles only
- Filler ordered separately
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Consider using Custom Filler Overlay option in applications that require (CW)

### Custom Filler Overlay

**CFOL**

#### Matching Outside Profile

Min. Width	Max. Width	Min. Height	Max. Height
2 5/8"	8"	6"	96"

- Available on Full and Half Overlay door styles
- Supplied as a one-piece design
- Filler overlays have a matching outside profile of the selected door style. Other inside profiles and details may **not** be present
- Filler overlays are made from the same material as doors and drawer fronts
- Price is per square foot

**Base Inside Corner Angle Filler**  
**ICAF30**

- 3/4" thick solid wood
- Finished one side only
- Shipped in one piece
- Painted hardwood supplied for Paint Grade door styles

**Base Inside Corner Angle Filler Overlay**  
**ICAFOL30**

- 3/4" thick solid wood
- Available in full overlay door styles only
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Filler ordered separately
- Shipped as two pieces

**Filler Extension**  
**FE3.30**

- 3/4" thick solid wood
- Painted hardwood supplied for Paint Grade door styles

### Base Filler Pull-out

**BFP3** 1 3/4" shelf width  
**BFP6** 4 3/4" shelf width

- Two adjustable shelves
- Unit slides on side-mount drawer runners (*not* soft close)
- Recommended installation is between two cabinets
- Installation may also be made between a cabinet and a wall or a cabinet and an end panel with stile
- Filler is included, but unattached. Unit should be installed before removing shipping brace and attaching filler
- A filler overlay is recommended for full overlay door styles; order separately
- Painted hardwood supplied for Paint Grade door styles
- No toe kick

Filler pullouts need to be installed between two cabinets or a cabinet and an end panel; unable to use at the end of cabinet runs or next to appliances

Consider using a Replacement Drawer Front (RDW3006) on a Base Filler Pullout as an overlay for 1/2" door styles.

# Tall Cabinets

## Construction Options and Modifications

- ❖ Included as standard
- Available with an upcharge
- ☆ Available with exceptions
- (Blank) **Not** available

FE	Finished Ends	XS	Extended Stile
APC	All Plywood Construction	IF	Inverted Frame
APFC	All Plywood Furniture Construction	CTR	Change Top Rail
FPEB	Furniture Plywood Ends	GD	Glass Doors
MI	Matching Interior	WR	Wide Bottom Rail
AD_E	Attached Decorative End	PTKV	Prepared for Toe Kick Vent
CH	Change Height	RTK	Recessed Toe Kick
CW	Change Width	VTK	Void Toe Kick
ID	Increased Depth	TKD	Toe Kick Drawer
RD	Reduced Depth		

## Tall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Standard tall cabinet box depth is 12" or 24" unless stated otherwise. Add door thickness with bumpers for total depth.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

**Note:** Remember to remove the white plastic "feet" from the bottom of all tall cabinets before installation. Their sole purpose is to protect the floor after the cabinets are unboxed. Leaving them on will result in uneven installation.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

## Utility Extended Top/Bottom & Wall Cabinet Door Alignment Examples

- For all utility cabinet heights, 84" to 96"
- 1 1/2" frame stiles and rails; 3" rail between doors
- A center rail is **not** part of the door construction for Mitered door styles, Slab door styles, or any door with glass inserts.
- Cope and Stick door style center rail rules:
  - No center rail on bottom door of .ET (Extended Top) and 54" high Tall cabinets.
  - Center rail exists on bottom door of .EB (Extended Bottom) and 66" high Tall cabinets.
  - No center rail on top door of Pantry Storage (2, 3, & 4 Drawer) cabinets.
  - No center rail on any doors of Utility Stack cabinets.

- IF Inverted Frame
- CTR Change Top Rail
- GD Glass Doors
- WR Wide Bottom Rail
- PTKV Prepared for Toe Kick Vent
- RTK Recessed Toe Kick
- VTK Void Toe Kick
- TKD Toe Kick Drawer

## Tall Appliance Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Standard tall cabinet box depth is 12" or 24" unless stated otherwise. Add door thickness with bumpers for total depth. To conceal the seam between the loose toe kick and the cabinet, order a 3/16" skin (WSK) for the exposed ends of 93" & 96" high cabinets.

**Note:** Remember to remove the white plastic "feet" from the bottom of all tall cabinets before installation. Their sole purpose is to protect the floor after the cabinets are unboxed. Leaving them on will result in uneven installation.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### Oven Cabinet–Combination w/3" Stiles

Best used for appliance combinations such as; microwave and single oven.

Remember to order a 3/16" skin (WSK) for the exposed ends of 93" & 96" high cabinets to conceal the seam between the loose toe kick and the cabinet. This cabinet has flush ends, therefore Transition Molding (TRM8 or TTRM8) must be used in the application process of a Wood Skin (WSK)

Select your appliance prior to finalizing your design. Check manufacturer's specifications to ensure a proper fit.

Cut out dimensions

Cabinet Width	Min. Width	Max. Width	1/2" Overlay		Full Overlay
			Min. Height	Max. Height	Max. Height
27"	21"	25"	23 1/2"	31"	30"
30"	21"	28"	23 1/2"	31"	30"
33"	24"	31"	23 1/2"	31"	30"

Most major appliance manufacturers will tell you that their 27" wide ovens will fit into a 27" oven cabinet and their 30" wide ovens will fit into a 30" cabinet. In most cases this is true. However, the look this creates may not be appealing because the stiles will be concealed by the appliance. To solve this problem, you can order a 30" oven cabinet for a 27" oven and a 33" oven cabinet for a 30" oven, etc.

Select your appliance prior to finalizing your design. Check manufacturer's specifications to ensure a proper fit.

- Unavailable with (CW) option

- Specify R or L
- 3/4" thick panel with matching door edge profile on front edge only
- Matching panel may **not** align with the cabinet doors
- Paint Grade supplied for Paint Grade door styles
- Unavailable in mitered door styles; use End Panel-Mitered
- Unavailable in slab door styles
- ☆ Field notch Wide Bottom Rail for toe kick
- ☆ Max. (CW) is 27"
- Field install

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8" less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15", the panel will be 14 7/8"; MBEP-L-CW to 21", the panel will be 20 7/8"

- 3/4" thick solid wood
- Finished one side only
- Painted hardwood supplied for Paint Grade door styles
- No toe kick

Remember to use fillers with full overlay door styles, especially square edge profiles, when cabinets will be against a return wall, box, pilaster or column. Use fillers on all overlays if there is case molding on a return wall. This will ensure proper clearance for drawers and roll-out tray access.

## Custom Filler Overlay

### CFOL

Matching Outside Profile			
Min. Width	Max. Width	Min. Height	Max. Height
2 5/8"	8"	6"	96"

- Available on Full and Half Overlay door styles
- Supplied as a one-piece design
- Filler overlays have a matching outside profile of the selected door style. Other inside profiles and details may **not** be present
- Filler overlays are made from the same material as doors and drawer fronts
- Price is per square foot

## Vanity Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Standard vanity cabinet box depth is 18" or 21" unless stated otherwise. Add door thickness for total depth. Standard vanity cabinet height is 34 1/2" unless stated otherwise.

All double door cabinets will have butt doors unless stated otherwise. Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

RD	

For a finished look, we recommend attaching replacement doors to the end panels (RD1515NH.B - sold separately, qty. 2 needed if covering both ends)

In order to complete the furniture look on your console vanity, limit your countertop overhang to 1/8" on the front and both sides. A standard size vanity countertop will work with the console vanity, but keep in mind the countertop overhang to the front will only be 1/8"; overhang on the sides will be 1/2". Be sure to account for the positioning of the vanity bowl in relation to the cabinet. If you use a large vanity bowl or if your bowl is positioned too far forward, you may need to notch the inside top rail of the frame in order to accommodate the bowl.

## Console Vanity Deluxe Roll-Out Tray

*Factory Installed*  
**1CDXROT30**  
**1CDXROT36**  
**1CDXROT42**

*Field Installed*  
**CDXROT30**  
**CDXROT36**  
**CDXROT42**

- Designed specifically for Console Vanity cabinets
- Full-extension runner, pulls out past the face frame

CW	Change Width	VTK	Void Toe Kick
ID	Increased Depth	TKD	Toe Kick Drawer
RD	Reduced Depth		

## Vanity Tall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Standard vanity cabinet box depth is 18" or 21" unless stated otherwise. Add door thickness for total depth. Standard vanity cabinet height is 34 1/2" unless stated otherwise.

All double door cabinets will have butt doors unless stated otherwise. Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

# Vanity Wall Cabinets

## Construction Options and Modifications

- ❖ Included as standard
- Available with an upcharge
- ☆ Available with exceptions
- (Blank) **Not** available

FE	Finished Ends
APC	All Plywood Construction
APFC	All Plywood Furniture Construction
FPEB	Furniture Plywood Ends
MI	Matching Interior
AD_E	Attached Decorative End
CH	Change Height

CW	Change Width
ID	Increased Depth
RD	Reduced Depth
XS	Extended Stile
IF	Inverted Frame
GD	Glass Doors
WR	Wide Bottom Rail

## Vanity Wall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Standard vanity cabinet box depth is 18" or 21" unless stated otherwise. Add door thickness for total depth. Standard vanity cabinet height is 34 1/2" unless stated otherwise.

All double door cabinets will have butt doors unless stated otherwise. Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

## Matching Vanity End Panel

**MVEP1831 R or L**  
**MVEP2131 R or L**  
**MVEP1834 R or L**  
**MVEP2134 R or L**

Standard edge detail:  
fits flush against  
1/2" end panel and  
behind face frame

- Specify R or L
- 3/4" thick panel with matching door edge profile on front edge only
- Matching panel may **not** align with the cabinet doors
- Left shown
- Slab door styles **not** have grooves and will **not** fit flush against 1/2" end panel. A 3/16" shim is recommended
- Paint Grade supplied for Paint Grade door styles
- Unavailable in mitered door styles; use End Panel-Mitered
- ☆ Field notch Wide Bottom Rail for toe kick

FE	●	CH
APC	●	CW
APFC		RD
FPEB	☆	WR
MI		VTK
AD_E		

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8" less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15", the panel will be 14 7/8"; MBEP-L-CW to 21", the panel will be 20 7/8"

## Matching Vanity End Panel - Square Edges

**MVEP1831 .S**  
**MVEP2131 .S**  
**MVEP1834 .S**  
**MVEP2134 .S**

Will not fit  
flush against  
1/2" end panel,  
a 3/16" shim  
is recommended

- 3/4" thick panel with square edge front and back
- Inside of matching panel bottom rail will line up with inside bottom rail of door

AD_E		

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8" less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15", the panel will be 14 7/8"; MBEPL-CW to 21", the panel will be 20 7/8"

### Matching Tall Vanity End Panel - Square Edges

Will not fit flush against 1/2" end panel, a 3/16" shim is recommended

# Vanity Fillers

## Vanity Filler Information

**Note:** Painted or stained hardwood may be supplied.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### Vanity Filler

- VF3 .31
- VF6 .31
- VF3 .34
- VF6 .34
- VF3 .88
- VF6 .88
- VF3X3 .31
- VF3X3 .34

- 3/4" thick solid wood
- Finished one side only
- Painted hardwood supplied for Paint Grade door styles
- No toe kick

Remember to use fillers with full overlay door styles, especially square edge profiles, when cabinets will be against a return wall, box, pilaster or column. Use fillers on all overlays if there is case molding on a return wall. This will ensure proper clearance for drawers and roll-out tray access.

### Vanity Filler Overlay

- VFOL3 .31
- VFOL6 .31
- VFOL3 .34
- VFOL6 .34
- VFOL3 .88
- VFOL6 .88
- VFOL3X3 .31
- VFOL3X3 .34
- VFOL3 .88.FH
- VFOL6 .88.FH

- Available in full overlay door styles only
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Filler ordered separately
- Consider using Custom Filler Overlay option in applications that require (CW)

### Custom Filler Overlay

#### CFOL

Matching Outside Profile			
Min. Width	Max. Width	Min. Height	Max. Height
2 5/8"	8"	6"	96"

- Available on Full and Half Overlay door styles
- Supplied as a one-piece design
- Filler overlays have a matching outside profile of the selected door style. Other inside profiles and details may **not** be present
- Filler overlays are made from the same material as doors and drawer fronts
- Price is per square foot

### Vanity Inside Corner Angle Filler

ICAF27  
ICAF30

- 3/4" thick solid wood
- Finished one side only

### Vanity Inside Corner Angle Filler Overlay

ICAFOL27  
ICAFOL30

- 3/4" thick solid wood
- Available in full overlay door styles only
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Filler ordered separately
- Shipped as two pieces

### Vanity Furniture Filler

VF134 .FH

- 3/4" thick solid wood
- Available in Cherry, Paint Grade, and Maple door styles only
- Painted hardwood supplied for Paint Grade door styles
- Finished on side and edge
- No toe kick
- Intended for Decorative Accent Vanity collections

Remember to use a Vanity Furniture Filler when placing a decorative accent vanity against a wall (3/4") or when placing two decorative accent vanities together (1 1/2"). This will ensure proper placement and avoid any decorative skirt interference during installation.

## Vanity Filler Pull-out

VFP32130  
VFP62130

- Four adjustable shelves, one fixed shelf
- Includes six clear plastic trays; replacements available. See Vanity Accessories section
- Unit slides on full-extension undermount soft-close runners
- Painted hardwood supplied for Paint Grade door styles
- Recommended installation is between two cabinets
- Installation may also be made between a cabinet and a wall or a cabinet and an end panel with stile
- Filler is included, but unattached. Unit should be installed before removing shipping brace and attaching filler
- A filler overlay is recommended for full overlay door styles; order separately
- No toe kick

- 21" Deep  
 **DKD21**  
**DKD24**  
**DKD27**  
**DKD30**  
**DKD33**
- DKD36 .2D**

- Unavailable with (CW) option

- ▲ Two drawers side by side

- Unit is designed for use between two base, desk or tall cabinets
- When mounted at 29" height with a 1 1/2" countertop, unit provides a comfortable writing surface
- One end of DKD can be supported by optional Desk End Panel
- Drawer will be slab, including DRPD; see door style section for drawer front exceptions
- ☆ End panels are 1/2" plywood with Natural Birch vinyl interior and exterior
- Unable to be trimmed

Consider using a Cabinet Front Only (CFO) under a desk to cover up wires, outlets etc. This will decorate the area, plus give easy access to cords. Especially useful if you are placing a CPU in a cabinet next to your knee space.

When using an Organizer Cabinet or Spice Drawer Cabinet, which have flush ends standard, under a wall cabinet at the end of a run, either attach Furniture Ends or order a 3/16" Wood Skin for the wall cabinet to flush the ends. (There will be a seam.) Also, consider ordering a furniture matching wall end panel if the height of the finished product allows it

# Bookshelves

## Construction Options and Modifications

- ❖ Included as standard
- Available with an upcharge
- ☆ Available with exceptions
- (Blank) **Not** available

PTKV	Prepared for Toe Kick Vent
RTK	Recessed Toe Kick
VTK	Void Toe Kick
TKD	Toe Kick Drawer

## Bookshelf Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

**Note:** Standard furniture cabinet box depth is 12", 18", 21" or 24", unless stated otherwise. Add door thickness and bumper for total depth. All Furniture Cabinets are manufactured in 3/4" Furniture Plywood Ends with matching wood veneer or printed wood grain laminate interiors. Due to toe kicks shipping separately on 96" high units, 96" Furniture Cabinets will be manufactured with 1/2" plywood end panels so the ends can be skinned to hide the seam. Skins are ordered separately.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

## Furniture Panel & Shelf Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### Desk End Panel

*Wood Veneer*  
 ❖ **WDEP2129**  
 ❖ **WDEP2429**

❖ Painted hardwood supplied for Paint Grade door styles

- Wood veneer panel is 13/16" thick
- Unit designed to support one end of Desk Knee Drawer
- Finished front and both sides
- ☆ APC panel only available in wood veneer
- ☆ APC panel is 11/16" thick

❖	FE	CW
☆	APC	ID
	APFC	RD
	CH	WR

### Square Desk End Panel

*Wood Veneer*  
 ❖ **WDEP21.S** 21 x 29 x 13/16"  
 ❖ **WDEP24.S** 24 x 29 x 13/16"

❖ Painted hardwood supplied for Paint Grade door styles

- Edgebanded one long edge
- Finished to match exterior both sides
- ☆ APC panel only available in wood veneer
- ☆ APC panel is 11/16" thick

❖	FE	CW
☆	APC	ID
	APFC	RD
	CH	WR

Standard edge detail:  
fits flush against  
1/2" end panel and  
behind face frame

### Matching Desk End Panel

**MDEP18 R or L**  
**MDEP21 R or L**  
**MDEP24 R or L**

- Specify R or L
- 3/4" thick panel with matching door edge profile on front edge only
- Inside of matching panel bottom rail will line up with inside bottom rail of door
- Slab door styles **do not** have grooves and will **not** fit flush against 1/2" end panel. A 3/16" shim is recommended
- Paint Grade supplied for Paint Grade door styles
- Unavailable in mitered door styles; use End Panel-Mitered
- ☆ Field notch Wide Bottom Rail for toe kick
- Field install

FE	●	CW
APC		ID
APFC		RD
●	CH	☆
		WR

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8" less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15", the panel will be 14 7/8"; MBEPL-CW to 21", the panel will be 20 7/8"

### Matching Desk End Panel - Square Edges

**MDEP18 S**  
**MDEP21 S**  
**MDEP24 S**

- 3/4" thick panel with square edge front and back
- Inside of matching panel bottom rail will line up with inside bottom rail of door
- Reversible, may be used on either right or left end
- Unavailable in mitered door styles; use End Panel-Mitered
- Paint Grade supplied for Paint Grade door styles
- ☆ Field notch Wide Bottom Rail for toe kick
- Field install

FE	●	CW

# Furniture Fillers

## Furniture Filler Information

**Note:** Painted or stained hardwood may be supplied.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### Desk Filler

**DF3**  
**DF6**  
**DF3X3**

- 3/4" thick solid wood
- Finished one side only
- No toe kick
- Painted hardwood supplied for Paint Grade door styles

### Desk Filler Overlay

**DFOL3**  
**DFOL6**  
**DFOL3X3**

- Available in full overlay door styles only
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Filler ordered separately
- Consider using Custom Filler Overlay option in applications that require (CW)

### Custom Filler Overlay

**CFOL**

- Available on Full and Half Overlay door styles
- Supplied as a one-piece design
- Filler overlays have a matching outside profile of the selected door style. Other inside profiles and details may **not** be present
- Filler overlays are made from the same material as doors and drawer fronts
- Price is per square foot

**Filler Extension**  
**FE3.25**

- 3/4" thick solid wood
- Painted hardwood supplied for Paint Grade door styles

- For 30"–36" wide cabinets, three dividers supplied
- Available factory installed only

# Wood Tops

APC All Plywood Construction

## Construction Options and Modifications

- ❖ Included as standard
  - Available with an upcharge
  - ☆ Available with exceptions
- (Blank) **Not** available

## Wood Top Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Wood tops are constructed of 5/8" engineered wood with wood veneer on one side. Front is finished with 3/4" or 49/64" thick by 1 9/16" high solid wood edge molding.

**Note:** Wood tops are built to size. Only one top will be manufactured per 48" or 96" blank.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

# Cabinets

## Construction Options and Modifications

- ❖ Included as standard
- Available with an upcharge
- ☆ Available with exceptions
- (Blank) **Not** available

FE	Finished Ends	XS	Extended Stile
APC	All Plywood Construction	IF	Inverted Frame
APFC	All Plywood Furniture Construction	TWR	Top Wide Rail
FPEB	Furniture Plywood Ends	GD	Glass Doors
MI	Matching Interior	RTK	Recessed Toe Kick
RD	Reduced Depth		

## ADA Series

1. Oven accessible from seated position
2. 9" high, 6" deep toe kick allows wheelchair access
3. Standard 84" installation
4. 32 1/2" cabinet height
5. Install cooktops at any height
6. Special sink base conceals plumbing
7. Fully lighted interior option
8. Raised dishwasher enclosure for easier loading & unloading

### Recommendations for Maximum Accessibility:

- Order 36" high Wall cabinets installed at 82" or 84" height
- Increase depth of Wall cabinets to 15" for easier use
- Minimize use of Base cabinets with doors, select drawer cabinets

### Door Style Availability:

- ADA SKU's are available in all 1/2" overlay door styles (see door style availability in door style section)
- Soft close hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment

Consider using Under Cabinet Panels for Wall Cabinets

For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Apply Shoe Molding at the base of Wood Matching Toe Kicks for a nice, finished look

# Custom Appliance Panels

## Custom Appliance Panel Information

This program enables you to order custom-designed appliance panels for kitchens or other living spaces.

**Note:** Custom Appliance Panels (CAP) are located in **2020 Design** under: Base >Panels >Custom Appliance Panel  
Once the panel is placed on the floor plan, the CAP wizard will pop-up and dimensions can be specified

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

---

## Custom Appliance Panel - General Guidelines

- An appliance make and model number can be provided and a panel solution will be recommended based on that information. A sample drawing will be sent back for approval
- Specific panel dimensions can be recorded and the panels will be finished to your specifications
- Check appliance manufacturer's specifications for any additional material, such as shims, spacers, etc., that may be needed before placing any order. Spacer panels are **not** supplied
- Due to potential extended lead times, CAP orders may **not** ship with associated kitchen orders. We recommend shipping CAP orders to your store to avoid additional home delivery fees
- If a raised veneer center panel door style is selected, appliance panel doors will have a solid wood center panel machined to resemble the veneer center panel
- Grain orientation will match that of the selected door style
- Slab door style orders are limited to the Universal Frame Only option within this program
- Only center rail modifications are available when ordering the CAPDR.W.CR and CAPDR.B.CR (location and height). Outside stiles and rails unable to be modified
- Stiles and rails will be the same size and profile as the selected door style (with the exception of Frame Only doors)
- Refer to appliance manufacturer's specification to ensure ice/water dispenser trim will accommodate a 3/4" to 1" thick panel
- Applied molding is unavailable on (CAPFO & UCAPFO) on applicable door styles
- (CAPFO) are unavailable in mitered door styles; using Universal Frame Only panels are recommended
- (UCAPFO) will have a 3/32" radius on both inside and outside edges of stiles and rails
- Ice/water dispenser cutouts will have 3/16" radius corners
- Onlay panels will react to climate conditions causing varying degrees of joint separation. This is a natural reaction in wood product and therefore is **not** covered under warranty
- Unavailable in Paint Grade door styles
- Door sizes are limited to 1/16" increments

---

## Custom Appliance Panel - Pricing Method

- General Pricing Rules:
- Using the outer most dimension of each panel, the width and height should be converted into a decimal form. Examples:  $21\ 9/16" = 21.5625$ ;  $58\ 7/16" = 58.4375$ , etc.
- Calculated dimensions will be rounded using the standard rounding method (down from 4 and up from 5) to the nearest 10,000th place. Example: 8.7504069 will round to 8.7504
- List prices will be rounded up to the nearest dollar from .01 cents. Example: \$179.01 will become \$180
- Please use the following instructions to determine the LIST PRICE of each panel, remembering to use the rounding method mentioned above
- Start by taking the panel width and height, in decimal form, and multiply the two numbers together giving you the total square inches. Example:  $(21\ 9/16")\ 21.5625 \times (58\ 3/8")\ 58.4375 = 1260.058594$  sq. in., which rounds to 1260.0586 sq. in.
- Next, you need to convert sq. in. into sq. ft. by taking the sq. in. figure and dividing that number by 144. Example:  $1260.0586 \div 144 = 8.7504069$  sq. ft., which rounds to 8.7504 sq. ft.
- Next, multiply the total sq. ft. by the appropriate sq. ft. list price to get the total list price. Example  $8.7504 \times \$141 = 1233.81$ , which rounds to \$1234 list price
- Factory cutouts are an additional charge; add to the calculated price
- **Note:** Prices shown above are merely examples and are **not** actual list prices

### Custom Appliance Panel - Door Onlay Panel

**CAPDR.B**  
**CAPDR.W**

Onlay Panel	
Min. Width	7" +
Max. Width	36"
Min. Height	10"
Max. Height	80"

+Decorative Panel Width

Door Stile Chart		
Orig. Stile Width	If Door is Less Than This Width	New Stile Width

3 1/2"	8 15/16"	3"

- No center rail
- When a square door style is selected, the square profile will be supplied for all onlay panels as standard. It is recommended to use a square profile when ordering an onlay panel for a dishwasher or trash compactor application
- Unavailable in slab door styles
- Unavailable in Paint Grade door styles
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- Stiles and rails will be the same size and profile as the selected door style
- Cutouts are unavailable
- Backs are finished to match
- Doors are automatically drilled for Permaset Bumpers
- Doors ordered with the No Hinge (NH) option will receive a single cup hinge bore for internal tracking purposes
- **Note:** Doors with 3 1/2" stiles will be made with 3" stiles if the door is 7 15/16" to 8 15/16" wide; doors less than 7 15/16" wide will be made with 2" stiles

### Custom Appliance Panel - Door Onlay Panel with Custom Center Rail

**CAPDR.B.CR**  
**CAPDR.W.CR**

\*Distance between the top of the top rail and the top of the center rail

Center Rail Height	
Min. Width	1 1/2"
Max. Width	19"

Distance from the top of the rail to the bottom of the center rail

Onlay Panel	
Min. Width	7" +
Max. Width	36"
Min. Height	24"
Max. Height	80"

+Decorative Panel Width

Door Stile Chart		
Orig. Stile Width	If Door is Less Than This Width	New Stile Width
2 5/8"	7 3/16"	2"
2 3/4"	7 7/16"	2"
3"	7 15/16"	2"
3 1/2"	7 15/16"	2"
3 1/2"	8 15/16"	3"

- The center rail position can be customized by providing the distance between the top of the top rail and the top of the center rail
- Due to varying dimensions and designs of raised center panels, recessed center panels may be supplied when the center panel width or height is less than 3 1/4"
- Unavailable in Paint Grade door styles
- Unavailable in slab door styles
- Unavailable in mitered door styles
- Optional center rail cutout is available
- Stiles and rails will be the same size and profile as the selected door style
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- Backs are finished to match
- Doors are automatically drilled for Permaset Bumpers
- Doors ordered with the No Hinge (NH) option will receive a single cup hinge bore for internal tracking purposes
- **Note:** If center rail modifications are **not** necessary, please use Decorative Appliance Panels
- **Note:** Doors with 3 1/2" stiles will be made with 3" stiles if the door is 7 15/16" to 8 15/16" wide; doors less than 7 15/16" wide will be made with 2" stiles

### Center Rail Cutout CUTOUT

- Specify cutout width and height
- The cutout position can be customized based on the distance specified from the left outside edge and from the top outside edge of the door onlay panel
- Refer to appliance manufacturer's specification to ensure ice/water dispenser trim will accommodate a 3/4" to 1" thick panel
- Cutouts will have 3/16" radius corners
- (CUTOUT) is only available on the Custom Appliance Panel–Door Onlay Panel with Custom Center Rail
- Alternative stile widths may be used if the cutout falls within a 1/2" of the stile's inside edge
- Unavailable in Paint Grade door styles

### Custom Appliance Panel - Frame Only CAPFO

- Frame Only panels are unavailable with applied molding on applicable door styles
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- Outside edge profiles on stiles and rails will match the selected door style for Frame Only panels, and the inside edge profiles will have a 3/32" radius
- Stile and rail sizes can be modified
- Unavailable in mitered or slab door styles
- Unavailable in Paint Grade door styles
- Backs are finished to match
- Panels are automatically drilled for Permaset Bumpers
- Panels will receive a single cup hinge bore for internal tracking purposes
- **Note:** Doors with 3 1/2" stiles will be made with 3" stiles if the door is 7 15/16" to 8 15/16" wide; doors less than 7 15/16" wide will be made with 2" stiles

3 1/2"	8 15/16"	3"

\*Max width is 48" when ordered taller than 20" (Max height is 30")

\*\*Max width is 60" when ordered 20" and shorter

- Five-piece grill panels/drawer heads ordered in heights less than 6 1/8" may be supplied as a solid slab onlay panel. Some five-piece drawer fronts may have a recessed center panel
- Drawer front configuration will follow the selected door style
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- Unavailable in Paint Grade door styles
- "Width" will be referred to as "Length" on your faxed acknowledgments for CAPDW only
- If unit is installed at an angle, fillers should be used to avoid interference with adjacent cabinet
- Stiles and rails will be the same size and profile as the selected door style
- DRPD and CLDF options are available for applicable door styles only
- Backs are finished to match

### Custom Filler Overlay CFOL

- Available on Full and Half Overlay door styles
- Supplied as a one-piece design
- Filler overlays have a matching outside profile of the selected door style. Other inside profiles and details may **not** be present
- Filler overlays are made from the same material as doors and drawer fronts
- Price is per square foot

#### Matching Outside Profile

Min. Width	Max. Width	Min. Height	Max. Height
2 5/8"	8"	6"	96"

# Decorative Appliance Panels

## Decorative Appliance Panel Information

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

### Decorative Appliance Panel - General Guidelines

- Specific panel dimensions can be recorded and the panels will be finished to your specifications
- Check appliance manufacturer's specifications for any additional material, such as shims, spacers, etc., that may be needed before placing any order. Spacer panels are **not** supplied
- If a raised veneer center panel door style is selected, appliance panel doors will have a solid wood center panel machined to resemble the veneer center panel
- Grain orientation will match that of the selected door style
- Stiles and rails will be the same size and profile as the selected door style
- Onlay panels will react to climate conditions causing varying degrees of joint separation. This is a natural reaction in wood product and therefore is **not** covered under warranty
- Door sizes are limited to 1/16" increments

### Decorative Appliance Panel - Pricing Method

- General Pricing Rules:
- Using the outer most dimension of each panel, the width and height should be converted into a decimal form. Examples:  $21 \frac{9}{16}'' = 21.5625$ ;  $58 \frac{7}{16}'' = 58.4375$ , etc.
- Calculated dimensions will be rounded using the standard rounding method (down from 4 and up from 5) to the nearest 10,000th place. Example: 8.7504069 will round to 8.7504
- List prices will be rounded up to the nearest dollar from .01 cents. Example: \$179.01 will become \$180
- Please use the following instructions to determine the LIST PRICE of each panel, remembering to use the rounding method mentioned above
- Start by taking the panel width and height, in decimal form, and multiply the two numbers together giving you the total square inches. Example:  $(21 \frac{9}{16}'') 21.5625 \times (58 \frac{3}{8}'') 58.4375 = 1260.058594$  sq. in., which rounds to 1260.0586 sq. in.
- Next, you need to convert sq. in. into sq. ft. by taking the sq. in. figure and dividing that number by 144. Example:  $1260.0586 \div 144 = 8.7504069$  sq. ft., which rounds to 8.7504 sq. ft.
- Next, multiply the total sq. ft. by the appropriate sq. ft. list price to get the total list price. Example  $8.7504 \times \$128 = 1120.05$ , which rounds to \$1121 list price
- **Note:** Prices shown above are merely examples and are **not** actual list prices

### Decorative Panel - Back Panel

#### APWSK

- Approximately 3/16" thick
- Back Panels will match the wood species and the color of the selected door style and finish and can be used with or without onlay panels to decorate any appliance
- Painted hardwood supplied for Paint Grade door styles
- Wood veneer engineered wood
- Finished one side only
- Edges are unfinished with no edgebanding

Back Panel	
Min. Width	4 1/2"
Max. Width	48"
Min. Height	3/4"
Max. Height	96"

## Decorative Panel - Door Onlay Panel and Hinge Doors

10" - 54 1/16"  
High

55" - 80"  
High

Mitered

Onlay Panel	
Min. Width	7" +
Max. Width	36"
Min. Height	10"
Max. Height	80"

+Decorative Panel Width

Door Stile Chart		
Orig. Stile Width	If Door is Less Than This Width	New Stile Width
2 5/8"	7 3/16"	2"
2 3/4"	7 7/16"	2"
3"	7 15/16"	2"
3 1/2"	7 15/16"	2"
3 1/2"	8 15/16"	3"

- Doors and onlay panels ordered 55" – 80" will have a double center panel (a horizontal center rail will equally divide the onlay panel)
- Mitered door styles will have a single center panel, regardless of height
- When a square door style is selected, the square profile will be supplied for all onlay panels as standard. It is recommended to use a square profile when ordering an onlay panel for a dishwasher or trash compactor application
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- Due to varying dimensions and designs of raised center panels, recessed center panels may be supplied when the center panel width or height is less than 3 1/4"
- Hinging for doors:
  - Doors 10" to 36" get two hinge holes
  - Doors 36 1/6" to 50" get three hinge holes
  - Doors 50 1/16" to 80" get four hinge holes
- Backs are finished to match
- Doors are automatically drilled for Permaset Bumpers
- Doors ordered with the No Hinge (NH) option will receive a single cup hinge bore for internal tracking purposes
- These appliance panels are available in all door styles
- **Note:** Check appliance manufacturer's specs for any additional material (shims, spacers, etc.) that may be needed before placing any order. Appliance model numbers are **not** sufficient, use numeric dimensions when ordering
- **Note:** Doors with 3 1/2" stiles will be made with 3" stiles if the door is 7 15/16" to 8 15/16" wide; doors less than 7 15/16" wide will be made with 2" stiles

## Decorative Panel - Drawer Onlay Panel

APDW

Onlay Panel	
Min. Width	6" +
Max. Width	48"
Min. Height	2 1/4"
Max. Height	30"

+Decorative Panel Width

Drawer Front Stile Chart		
Orig. Stile Width	If Front is Less Than This Width	New Stile Width
2 3/16"	6 5/16"	2"
2 1/4"	6 7/16"	2"
2 3/8"	6 11/16"	2"
2 5/8"	7 3/16"	2"
2 3/4"	7 7/16"	2"
3"	7 15/16"	2"
3 1/2"	7 15/16"	2"
3 1/2"	8 15/16"	3"

- APDW will follow the selected door style's drawer front configuration
- Five-piece grill panels/drawer heads ordered in heights less than 6 1/8" may be supplied as a solid slab onlay panel. Some five-piece drawer fronts may have a recessed center panel
- "Width" will be referred to as "Length" on your faxed acknowledgments for APDW only
- If unit is installed at an angle, fillers should be used to avoid interference with adjacent cabinet
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- Backs are finished to match
- These appliance panels are available in all door styles
- **Note:** Check appliance manufacturer's specs for any additional material (shims, spacers, etc.) that may be needed before placing any order. Appliance model numbers are **not** sufficient, use numeric dimensions when ordering

## Decorative Panel/Replacement Door and Drawer Front

**Option 1:**  
Order and  
Install:  
WSK3684

**Option 2:**  
Order and  
Install:

- 1 - WSK3684
- 1 - RDB1218 (Door "A")
- 1 - RDB1224 (Door "B")
- 1 - RD1818 (Door "C")
- 1 - RD1815 (Door "D")
- 1 - RD1824 (Door "E")

*Size of refrigerator may vary and door sizes may need to be changed*

- Decorative panels can be easily created using paneling and replacement door and drawer fronts
- Example: Create a decorative panel for this side by side refrigerator
- **Note:** In most cases, doors will be narrower than the refrigerator door and portions of the refrigerator door paneling will be exposed. Advise your customers that this "reveal" will be present and that cabinet doors are unable to completely overlay the refrigerator door

When applying Replacement Doors to a WSK remember to allow enough room for access to the appliance door handle

## Decorative Panel - Wainscot

**WAIN01**

FE	☆ CH
☆ APC	☆ CW
APFC	

Remember to order (FPEB) or a (WSK) for wall cabinets that will be at the end of a run when applying decorative moldings. This will result in a flush application on the return

Remember to order a 3/16" skin (WSK) for the exposed ends of 93" & 96" high cabinets to conceal the seam between the loose toe kick and the cabinet.

Remember, the grain on paneling normally runs along the length of the panel. Cross grain means grain goes with the short edge.

### SmartGuard Panel Backer

**CGPB36**  $W \times H \times T$

## Construction Options and Modifications

- ❖ Included as standard
- Available with an upcharge
- ☆ Available with exceptions
- (Blank) **Not** available

## Molding Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

There are numerous molding offerings for decorative and finished applications and are available in some or all wood species. For molding detail, view in 2020 Design.

**Note:** All components ordered in quartersawn door styles will be supplied as plain sawn oak unless otherwise noted.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

## Molding Stack Information

- **Note:** Expect to lose up to 4"- 6 1/2" per cut, so plan extra molding accordingly. Always order one or two extra pieces of molding to make up the cut loss which could be up to 3" per cut to ensure the moldings are at the job site for a timely installation. Ordering additional molding after the fact to complete the job means the molding is **not** pulled as a group or run at the same time of color application.

To add Molding Stacks in your 2020 Design, locate them in the Drag and Drop list under: Moldings>Top Moldings>Pre-Stacked Moldings. To view the PDFs, right-click on a specific stack and go to specs.

## Molding Collections

### Cove Collection

❖ H	

The Sterling Collection design combines automated wood-machining processes with hand detailing. Because of the hand detailing, slight imperfection and/or differences may exist from part to part and are normal. These do not affect the structural performance of the product but enhance the aesthetics of each piece

### Transition Molding

**Permaset Bumpers**

**BOX .PSDB**

- Ten per box

**Hinges - Partial Overlay Concealed**

**PH12PO**

- Packaged and sold as a pair

**Hinges - Bifold**

**PHBF**

- Packaged and sold as a pair

**Furniture Shelf Rests**

**BOX .FSR**

- Ten per box

**Glass Shelf Rests**

**BOX .GSR**

- Twelve per box

**Glass Insert Retainer Strip**

**MDRS**

- Specify length needed, in feet
- Used with the following decorative glass inserts: Bistro (BIS), Ravenna (RAV)

**Vinyl Edgebanding**

**EDB**

- 7/8" wide
- Sold by the foot (quantity ordered will equal the number of feet needed)
- **Not** self-adhesive; installation will require contact cement

**Soft-Close Hinges - Full Overlay**

**PH1516FO -SC  
PH34FO -SC**

- Packaged and sold as a pair

**Hinges - Partial or Full Overlay Easy Reach**

**PH170EZ**

- Packaged and sold as a pair

**Hardware Screws**

**BOX -HS**

- Specify door or drawer and hardware type
- Ten per box

**Decorative Hardware Screws - Cutoff**

*Metric*

**BOX -COS-M4**

*Standard*

**BOX -COS-832**

- Box of 10 cutoff screws
- Can be cut to lengths of 3/4", 1", 1 1/4", 1 1/2" and 1 3/4"

**Soft-Close Hinges - 1/2" Overlay**

**PH12C -SC**

- Packaged and sold as a pair

**Soft-Close Hinges - Face Mount**

**PHFM -SC**

- Packaged and sold as a pair

**Installation Screws**

**BOX -IS**

Qty. 11

Qty. 7

- Each pack includes 11 mounting screws and 7 cabinet-to-cabinet screws
- Mounting screws are 2 3/4" long
- Cabinet-to-cabinet screws are 2 1/2" long
- Four packs per box

**Decorative Hardware Screws - 2 inch**

*Metric*

**BOX -M4**

*Standard*

**BOX -832**

- Box of 10, 2" screws

# Replacement Door & Drawer Front Information

Replacement doors and drawer fronts are listed by their nomenclature. Please reference the overlay columns for actual sizes as the nominal size and actual size may vary.

The door & drawer front sizes spreadsheet can be found in **2020 Design**, under the **Cabinet Parts** section.

This lists all cabinets and tells you the corresponding replacement doors and drawer fronts.

Replacement doors may be ordered for wall or base application. When ordering, specify door style, hinging and •W (wall) or •B (base).

**Example:** You need a replacement door for a wall 1830, hinged left.

**Order: RD1830L•W**

Replacement doors are prepared for hinges. Replacement door and drawer fronts are automatically drilled for PermaSet bumpers. If a door is specified for no hinge (NH), the door is drilled in all four corners for bumpers (bumpers are included) and will also receive a single cup hinge bore for internal tracking purposes.

Replacement doors with glass inserts or mullion inserts installed are available on doors 12" or wider up to 42" high. To order, determine the replacement door(s) required and add desired glass insert or mullion insert.

**Example:** You need a Bistro glass insert for a wall 1830, hinged left.

**Order: RD1830L•W-1BIS1**  
**Pricing: RD1830L•W**  
+ 1 Bistro Insert for 12" - 30" high  
**= Total for replacement door with insert installed**

**Example:** You need a Mullion insert for a wall 1836, hinged left.

**Order: RD1836L•W-1MD2**  
**Pricing: RD1836L•W**  
+ 1 Mullion Insert for 36" - 42" high  
**= Total for mullion door with insert installed**

Replacement doors and drawer fronts are coded for easy reference. The prefix codes indicate door or drawer and usage. The first two digits indicate nominal width and the second two digits indicate nominal height.

Prefix codes are as follows:

- RD replacement door
- RDA replacement door angle
- RDAAG replacement door angle appliance garage
- RDADP replacement door angle double panel
- RDAG replacement door appliance garage
- RDB replacement door butt
- RDBDP replacement door butt double panel
- RDBI replacement door base inside angle
- RDBO replacement door base outside angle
- RDDEZR\* replacement door desk easy reach (two doors hinged together)
- RDDP replacement door double panel
- RDEZR\* replacement door easy reach (two doors hinged together)
- RDLS replacement door lazy susan (two doors mitered together)
- RDM replacement door multi-storage pantry (door storage unit attached)
- RDMC replacement door mirror cabinet
- RDW replacement drawer front
- RDWA replacement drawer front angle
- RDWBCD replacement drawer front base corner drawer
- RDWEZR\* replacement door wall easy reach (two doors hinged)
- RDWFD replacement door wall furniture drawer
- RDWI replacement door wall inside angle
- RDWLBFB replacement door wall lateral bifold cabinet
- RDWO replacement door wall outside angle
- RDWTHG replacement door wall top hinge
- RDWWHV replacement drawer front wall hung vanity
- RDWZ\* replacement door wall easy reach (individual doors)
- RDZ\* replacement door easy reach (individual doors)

TRANSFORMING  
HOMES FOR  
**180**  
— YEARS —

Wolf Home Products® is an innovator in the building products industry. Transforming homes for 180 years, Wolf Home Products has been the preferred home building products brand by families across North America who value the importance of their home and time together to build lasting memories in the spaces they enjoy most. With a vast inventory of kitchen and bath, outdoor living and building products, Wolf Home Products delivers orders in a fraction of the time, ensuring unparalleled value when and where customers need it. Wolf stands behind its service, cultivated with years of business experience into a total satisfaction guarantee.
