Judy,

The following is my ESAE testimonial. If you would like to use it on your site, I would be delighted.

ESAE is the greatest! I live in south Louisiana, and have had a pond of about 2700 gallons for nine years. Our weather is very much tropical, and our summers are very hot, and wet. I have had a significant algae issues in my pond almost from the start, and have tried numerous algae remedies. ESAE is by far the best product I have used! To make the deal even sweeter ESAE is also the most economical product I have tried!.....  
Better.....Cheaper.....I LOVE ESAE.

Donald C

Last year we treated 2 one acre ponds with your ESAE and it worked so well that this year we will be treating all four of our one acre ponds. My question is we have horses that drink out of one of these ponds. Is there any toxicity factor that we would need to be concerned about.

Thank you

Ted

My wife and I have been water gardening for over 15 years and our small pond is heavily stocked with mature Koi fish. We have used many algae control products over the years and find ESAE is the best product by far, our pond has never looked better. It keeps string algae under control, and algae build up on the river rock lining is gone.

Attn. Judy

The product is working great. I would like to order another 10 kg pail.  
Here is my credit card information .....

Send by standard delivery method - not in a hurry this time.

Many Thanks
