IV. FIRST AID MEASURES

Eye Contact: May cause irritation. Contact lenses should not be worn when working with chemicals.
First Aid: Immediately flush eyes with water, continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
Recommended Precautions: Wear appropriate safety goggles and limit exposure.

Skin Contact: None.
First Aid: Remove contaminated clothing. Wash affected area with soap and water. Wash clothing before reuse.
Recommended Precautions: Limit exposure.

Ingestion: Considered non-toxic but may lead to nausea or diarrhea.
First Aid: Wash out mouth with water. If material has been swallowed, give two glasses of water to dilute product, DO NOT induce vomiting. Contact physician immediately.
Recommended Precautions: Store in safe place. Wear protective mask.

Inhalation: Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.
First Aid: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie, belt or waistband.
Recommended Precautions: Avoid creating dust in non-ventilated areas.

General Precautions: Wash hands after handling free product.
V. FIRE – FIGHTING MEASURES

Extinguishing Media: Water, foam, CO2, or dry chemical may be used. Fight larger fires with water spray or alcohol resistant foam.

Unsuitable Extinguishing Media: None known.

Special hazard arising from the substance or mixture: In a fire or if heated, a pressure increase will occur, and the container may burst.

Special protective equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

VI. ACCIDENTAL RELEASE MEASURES

Methods and materials for containment and cleaning up

Small spills: Dilute with water and mop up or absorb with an inert dry material and place in an appropriate waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to authority requirements.

Large spills: Dilute with water and mop up or absorb with an inert dry material and place in an appropriate waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to authority requirements. Check disposal regulations when disposing of large quantities.

Reference to other sections:
- See section 7 for information on safe handling
- See section 8 for information on personal protection equipment
- See section 13 for disposal information

VII. STORAGE & HANDLING

Storage: Store in dry, cool, and well-ventilated area, and out of direct sunlight. Storage temperature should be between 41°F and 104°F (5°C and 40°C). Do not freeze.

Handling: No special handling required. Ensure containers remain sealed after use.

Advice on General occupational hygiene: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed.

VIII. EXPOSURE CONTROL

Occupational exposure limits: None

Appropriate engineering controls: Good general ventilation should be enough to control worker exposure to airborne contaminants

Individual protection measures

Hand protection: Chemical-resistant, impervious gloves should be worn always when handling chemical products.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risk involved.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification
