# ESTF - TOMATO FERTILIZER

Earth Smart's tomato fertilizer provides all the necessary nutrients for growing high grade tomatoes. Our natural organic fertilizer stimulates root growth, improves water retention, limits weed growth, and aids in creating a healthy environment for active soil biomass including earth worms, fungi, bacteria, protozoa etc. In addition, Earth Smart's tomato fertilizer is readily available to the plant and is formulated to increase calcium and moisture which can aid the plant in calcium uptake from the soil soil.

## Tomato Fertilizer Benefits:

- Shelf life is increased.
- Root growth is stimulated.
- Plant stamina increases.
- The growth of beneficial soil microorganisms improves.
- Soil water-holding capacity is improved.
- The need for chemical fertilizers is eliminated.
- Tomatoes require less time to mature
- The storage life of harvested crops is extended.
- Yield is significantly increased
