

The Austin Air Allergy Machine® is designed specifically for people with asthma or seasonal allergies. Its unique design removes sub-micron particles (such as pollen and dust mites) as well as chemicals and noxious gases. The Medical Grade HEPA technology used in the Allergy Machine is certified to remove 99.97% of all particles larger than 0.3 microns and up to 95% of all airborne contaminants as small as 0.1 microns, including viruses, bacteria, dust, dander and allergens. The high efficiency gas arrestance (HEGA) filtration used in this unit is also highly effective at removing viruses, bacteria, chemicals, VOC's and gases from the air.

# Allergy Machine®

## Unit Dimensions:

Height: 23 inches  
 Width: 14.5 inches x 14.5 inches  
 Weight: 29 pounds

## Filter Dimensions:

Height: 14 inches  
 Diameter: 13.5 inches  
 Weight: 8 pounds

## Power Requirements:

1.2 amps, 120 volts, 60 hz  
 147 watt power (high setting)

## Warranty:

Mechanical – 5 years from the date of purchase  
 Filter – Pro-Rated 5 years from the date of purchase

In addition to providing maximum protection against airborne viruses, the Allergy Machine will provide many health benefits to users including:

- Lessened night-time allergies and asthma attacks
- Eased coughing, wheezing and sneezing
- Reduced dry mouth and runny nose
- Sounder sleep
- Strengthened immune system
- Reduced viral load to minimize risk of infection or severity of disease

## FILTER SPECIFICATIONS

**STAGE 1** – Large Particle Pre-Filter. Removes particles easily seen by the naked eye (e.g. dust, hair and pet dander)

**STAGE 2** – Medium Particle Pre-Filter. Removes small to medium size particles (e.g. molds, spores and pollen)

**STAGE 3** – 60 square feet of True Medical Grade HEPA. Certified to remove 99.97% of all particles larger than 0.3 microns and 95% of all particles larger than 0.1 microns.

**STAGE 4** – Military Grade HEGA Carbon Cloth. Provides an extremely large surface area for adsorption of chemicals, gases, viruses and bacteria.
