Climbers

JUST ADD SPIRIT.

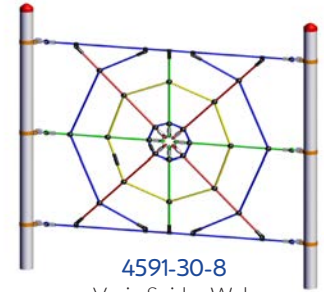

Kids learn to take risks while climbing, balancing, and engaging in open play. Climbers' colorful square and rectangular meshes are the perfect focal point for any park or playground.

Spinners

JUST ADD MOVEMENT.

Put a new spin on your playground equipment with this Spinner Series. These structures help build balance, strength, and social development. As a single attraction or the highlight of the park or playground, this freestanding equipment can accommodate a group of kids so friends can play together.

ADA
COMPLIANT

The Spiral Carousel is also available in an ADA compliant version for inclusive play!

The ADA Compliant Spiral Carousel has an opening in the net on one side of the structure for easy access to the Bird's Nest with assistance. This rope structure design provides easy handholds and support for the rider.

4591-13
Holding Rings

4591-14
Clambering Loops

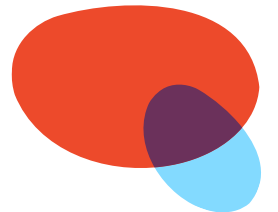

Use zones and space required are variable and determined by your chosen course configuration.

Bouncers

JUST ADD JOY.

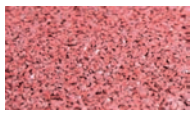

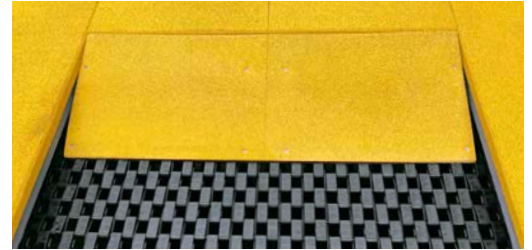

In-ground Bouncers provide a safer way of playing, as children will not fall from a great height. In addition, the Rolli is designed for use with a wheelchair. The flexible, linked area produces gentle motion regardless of a person's weight. The soft-bounce surface is low-tension and provides a relaxed bounce that keeps users comfortable. The compact size means a companion can be in direct contact with the wheelchair user.

Mix and match to create a truly custom bouncer that will keep kids smiling and bouncing.

SAFETY SURFACING

Bouncers come with safety surfacing tiles. This material is customizable in a whole spectrum of shades.
