

Be Brilliant™

signia

Signia Active Pro &
Signia Active

Take your hearing to the next level

With Signia Active & Signia Active Pro, you no longer have to worry about missing out on conversations or asking people to repeat themselves. Take your hearing to the next level by upgrading to Signia Active solutions.

Signia Active devices in their portable charger

Be Brilliant with Signia Active Solutions

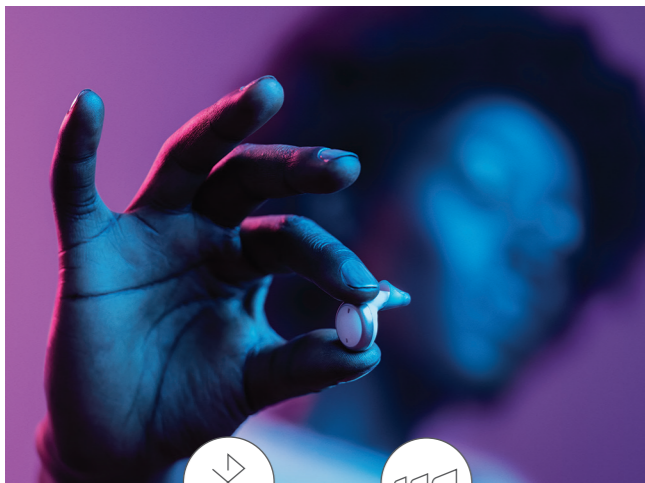

Why do people look for an edge in today's fast-moving world? From your smartphone to your sports shoes, finding the right accessories helps you get the most out of life, perform at your best, and Be Brilliant. The same is now possible for your hearing.

The revolutionary Signia Active devices help you to cut through the noise and take your hearing to the next level.

Signia Active Pro – personally tailored prescription audio in the style of sleek earbuds, powered by a premium feature set.

Signia Active - hear what matters to you in the style of sleek earbuds, powered by a basic feature set (when compared to the Pro devices).

Bluetooth Streaming

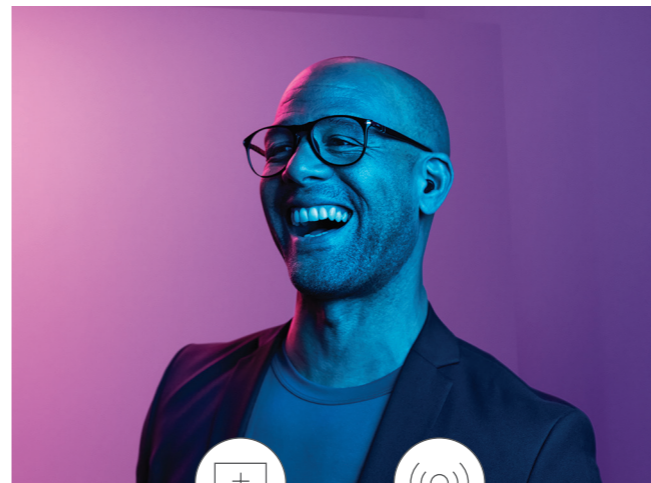

Instant Fit

Brilliant Sound

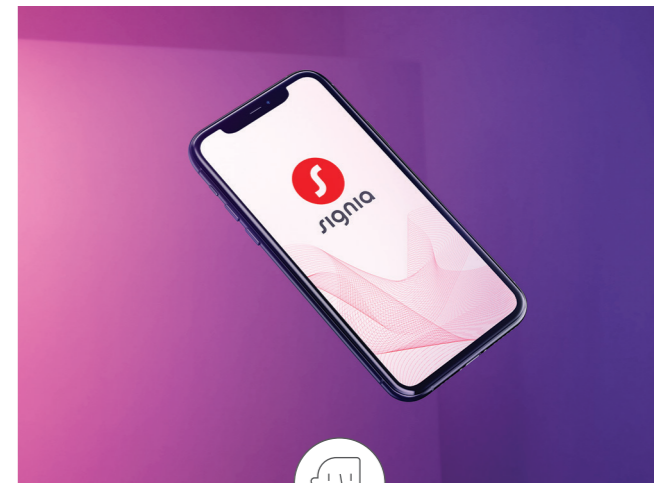

Recharge on-the-go

Enhanced Speech Understanding

Automatic Situation Detection

AI Digital Assistant

Upgrade to Signia Active or Signia Active Pro

Signia Active devices not only stream music and phone calls via Bluetooth in high-definition sound. They also enhance your overall hearing experience, especially in difficult acoustic situations such as large gatherings and noisy places.

Prescription audio that performs

These unique two-in-one devices combine state-of-the-art connectivity with high-definition prescription audio that you find in the most advanced hearing aids. Yet, Signia Active devices look nothing like a 'traditional' hearing aid, and they come in a pocket-sized charging case - allowing for the ultimate in ease, comfort and portability, just like any other set of earbuds.

Although you can plug the charger into a socket, thanks to Qi wireless charging, you can just place the case on a charging pad instead of having to plug it in.

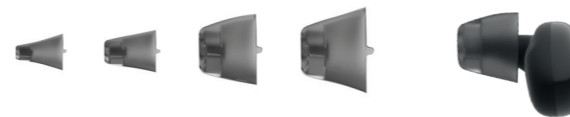

Tinnitus options

If you suffer from tinnitus, Signia Active devices feature a range of therapy options to make your life more comfortable.

Hear what really matters to you

Whether you are in a crowded street, working in an open-plan office, or dining in a busy restaurant, wherever there's a high level of ambient noise, holding a conversation requires concentration and effort. Signia Active solutions tackle these challenges expertly with brilliant sound.

Sleeves

The sleeves come in four different sizes and a closed and open build version suitable for most ear anatomies and hearing needs.

Personal support, at your fingertips

Signia Active devices connect to the Signia app, which contains the Signia Assistant and TeleCare support. Using artificial intelligence, the Signia Assistant offers immediate support whenever you need to adjust settings. Signia TeleCare enables you to keep in touch with your hearing professional, so you get extra support on the spot when you need it. The Signia app acts like an extension of your hearing professional in your pocket, so you can Be Brilliant in any situation.

Compatible with Android and iOS. The app is free of charge.

About Signia

Signia is one of the leading hearing aid brands in the world. Our goal is to enhance human performance through iconic innovations that shape the prescription audio category. We refuse to accept hearing loss as a limitation. It's not about correcting a loss, it's about gaining an edge. Not just performing, performing brilliantly. Not just hearing again, but hearing better than ever. Hearing every word, beat, and breath. With Signia, you can Be Brilliant.
