

A woman with long brown hair, wearing a white bikini with thin brown straps, a white hat with a black band, and sunglasses, poses in a desert landscape. She is holding a black camera in her left hand and has her right hand on her head. The background shows a vast, hazy desert valley with mountains under a clear sky.

PRAIA SAFÁRI

2023 COLLECTION

PRAIA SAFÁRI

*An expedition into the
wilderness to observe and
explore the beach and wildlife
in their natural habitat.*

ABOUT

Guria Beachwear is a sophisticated Brazilian swimwear line offered as separates and different sizes and shapes in order to create the perfect bikini for all body types. Embracing every figure, we offer sizes from x-small to x-large with cup sizes accommodating up to DD, E and F Cups. We manufacture our swimwear in Brazil with authentic fabrics, trims and handmade details.

ENVIROMENTAL FRIENDLY

Guria is proud to use sustainable fabrics! Our search for a textile that is friendly to the human body and to the environment is our first step in improving our production process.

Part of our collection is made from Fluity CO2 and innovative and pioneering knitted fabric produced with elastane and biodegradable microfiber Nylon. This Nylon's polymer has been enhanced to allow clothing made from it to quickly decompose after disposal in landfills. Before such innovation it would take decades for Nylon to break down. Now half of it is already decomposed of the end of first year, while the rest is fully decomposed in less than three years.

Fluity CO2 Control is made from recycled nylon fibers. Compared with conventional fibers, its production emits fewer greenhouse gases and conserves water and energy in the process. It also has 50+ UV protection against ultraviolet radiation and is free of toxic chemicals to human skin according to international standard Oeko-Tex 100 Class I.
