

CONGRATULATIONS!

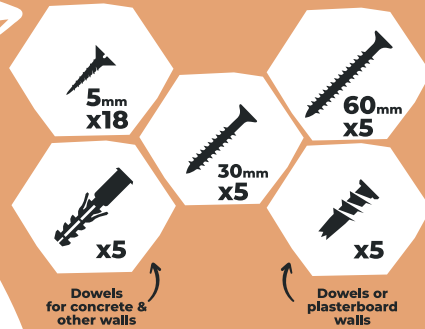

You've received the Cat Shelves

FOR ASSEMBLY YOU WILL NEED:

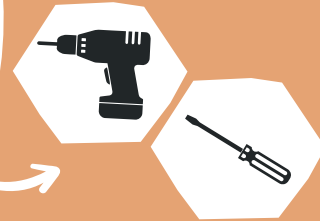

SCREWS AND DOWELS

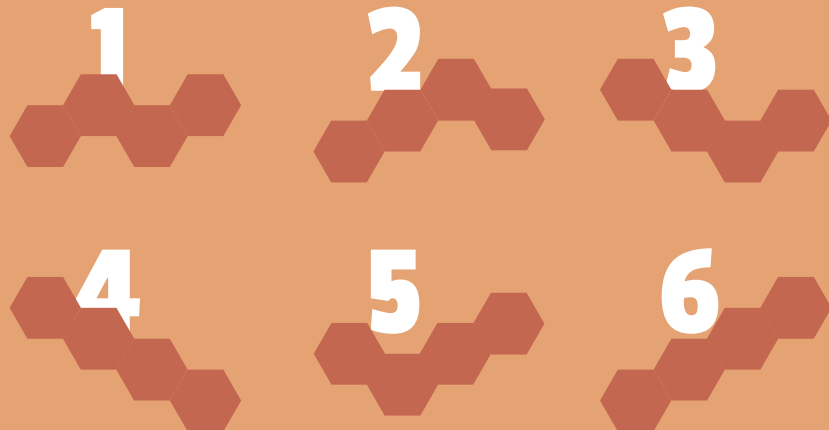

Included to the package.

SCREWDRIVER OR HAMMER DRILL

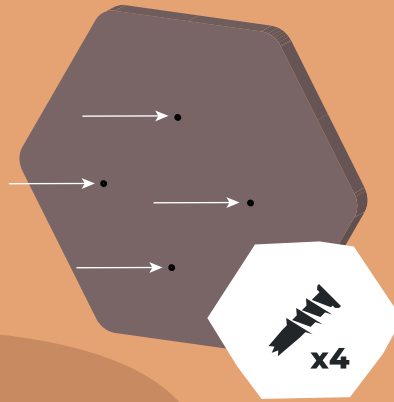

CATSMODE INSTRUCTIONS CAT SHELVES

You can put your hexagons in any possible direction.
Here are examples for you to choose from.

1

Take the back panel and place it on the wall to mark 4 holes using a pencil. Insert dowels into the holes, as shown on picture.

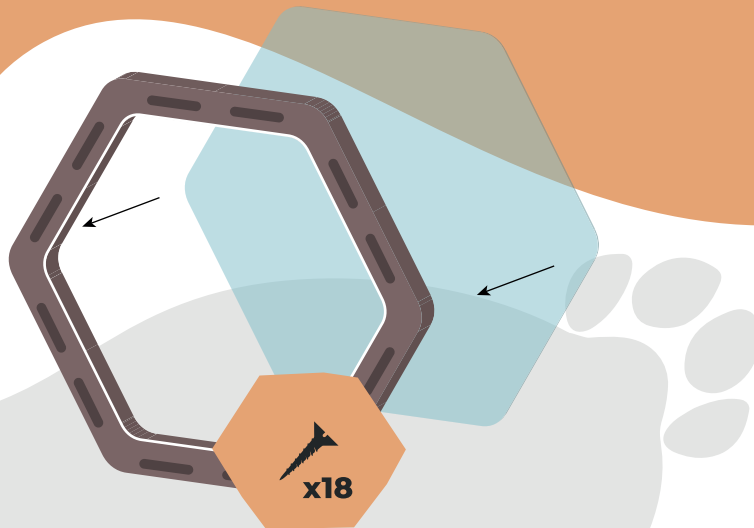

2

Get yourself comfortable: sit on the floor, couch, or use table for assembly.

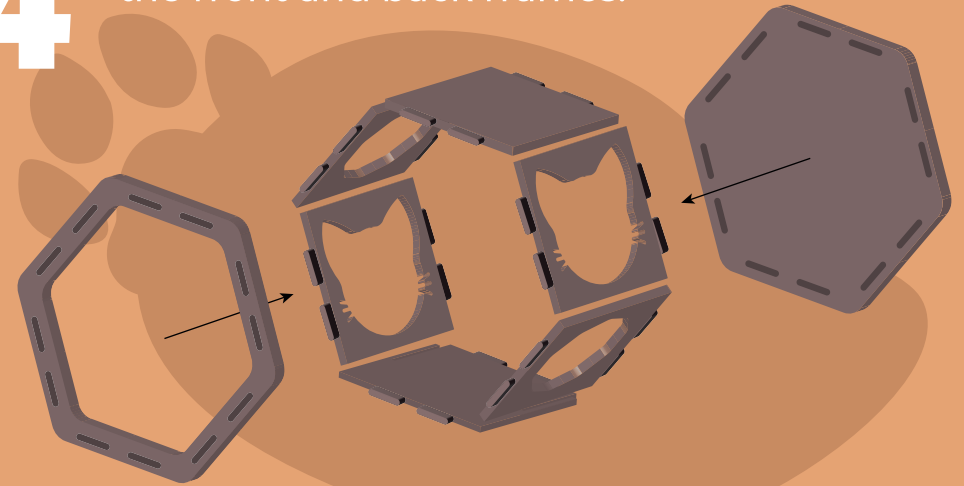

3

If you ordered a shelf with acrylic window, follow this step. Take a front panel and connect an acrylic window. Use the smallest screws (18 pcs) to assemble.

4

Insert all side panels into the front and back frames.

5

Screw everything down with 1,18" long screws as shown on the picture. Use screwdriver to connect the shelf to the wall. Use 2,36" long screws to drill shelf into dowels.
