

WHOLESALE SEAFOOD

SHIPPED WITH UPS DIRECT TO YOUR DOOR

HOW IT WORKS

- Place your order with the Luke's team and we'll ship it overnight via UPS for delivery Tuesday through Friday, anywhere in the U.S.
- All frozen products will arrive fully-frozen so that you can thaw as needed
- Invoices are sent via email and paid via credit card with Net 7-Net 30 Terms

OUR PROMISE

We founded our seafood company in 2012 to meet our restaurants' increasing demand for top-quality seafood as we grew. Our seafood company is the primary supplier of traceable, sustainable seafood to all Luke's Lobster shacks while also supplying the nation's highest-rated seafood restaurants across the country. We are proud to be SQF Level 3 food safety certified.

We pride ourselves on the quality of our products, our sustainable methods of sourcing, and the traceability of our seafood. Sustainability is not a buzzword at Luke's. Sustainable seafood means seafood that is harvested from a healthy population that is not at risk of overfishing, under strict regulations that prevent overfishing or eco-system damage. We are proud to trace every pound of seafood we sell to the harbor where it was caught.
