

Product: [PROVIZE Planner](#) 

Intent-Based Network Planning and Configuration

Provize

Product Description

Part of Belden's PROVIZE Planning and Management Suite, PROVIZE Planner simplifies network planning and configuration. PROVIZE Planner allows users to design networks before buying equipment, saving time and resources- Easy-to-use with an intuitive interface and drag-and-drop network design capabilities; Intent-based network planning and configuration through automatic translation of user intents into configurations; Automatic bill of materials (BOM) generation that identifies relevant equipment based on users' defined network topologies.

Technical Specifications

Product description

Part Number:	942340002
License:	Free Version

Configuration features

Configuration functions:	Topology Planning, Location Setting, BOM Creation
--------------------------	---

Diagnostics features

Modules and components:	Intent-based network planning and configuration through automatic translation of user intents and configurations
-------------------------	--

Software

Operating system:	Windows 10 (64-Bit) Windows 11 (64-Bit)
Browser:	Windows Application

Hardware

Processor:	x86 compatible 64 bit CPU with 4 cores
Hard disk space:	1GB free
RAM:	16 GB
Network:	Ethernet network with TCP/IP protocol stack. Supports IPv4 and IPv6.

IIT.Protocols

Supported protocols:	HTTPS, HiDiscovery v2
----------------------	-----------------------

Language Support

Menus and dialogs:	English German
--------------------	----------------

Scope of delivery and accessories

Scope of delivery:	Software download + Access to functionality under licensing model
--------------------	---

Further Instructions

Certificates:	https://www.doc.hirschmann.com/certificates.html
Software Download:	https://hirschmann-support.belden.com/en-US/downloads

History

Update and Revision:	Revision Number: 0.50 Revision Date: 06-12-2024
----------------------	---
