

GREEN PEDESTALS
Plant Holder, Table
& Stool
By Front

PRODUCT INFORMATION

Green Pedestals is a piece of furniture for greenery and vegetation designed by Front. Green Pedestals is part of Offecct's O₂asis project which is an assortment of design products, that combined with vegetation enhances and adds value to the work environment, specifically through a conscious use of greenery and an improved air quality. O₂asis also offers possibilities to architects who are interested in adding green elements into their projects. Green Pedestals enhances the plants with its elegant legs and can be used as a room element that for example functions as a room divider or creates a sort of an oasis. Some variants have dimensions that fit perfectly at the side of a desk, other fits in height next to a seat or a window. It is possible to add a seat or a table top to the round model, and by placing them in a row or in a group they form a sort of a bench that is surrounded by greenery.

"We were inspired by traditional pedestals. We think that the pedestal is a fantastic piece of furniture that needs a revival. With slim legs that are slightly irregular Green Pedestals receives a kind of a personality", says Sofia Lagerkvist, Front.

O₂asis sustainability

O₂asis is an assortment of design products which together with greenery and plants improves interiors. To maintain the high quality and sustainability and to keep the best surface a flower pot is always to be used inside the products.
