

Writeable Surface Care Instructions

MELAMINE Care

Your MELAMINE table and cabinetry tops are manufactured from the highest quality materials and designed to provide years of trouble-free service.

Whilst your table and cabinetry tops are made from a Moisture Resistant Medium Density Fibreboard (MR MDF) and as with any wood based panel cannot be made totally waterproof, care should be taken to wipe up spills immediately, ensuring the table and cabinetry tops are not exposed to high or continuous levels of moisture, steam and humidity.

General Cleaning

Using a mild household spray wipe down the table or cabinetry tops with a soft cloth taking care not to rub too hard. Dry using a soft cloth so as not to leave any residue on the table and cabinetry tops.

You may also use Methylated Spirit on a soft cloth, using a circular cleaning motion. Thoroughly clean over the wider area with water and detergent on a damp cloth afterwards to remove any residual Methylated Spirit.

DO NOT use any of the following on MELAMINE table and cabinetry tops. Commercial Cleaning Products, Abrasive Cleaners, Scouring Pads or Abrasive Papers, Acids and Alkalis, Solvents, Thinners, Turpentine (Turps), Ammonia, Bleach, Acetone, Easy-Off BAM!, M.E.K. or any other cleaning agents containing organic solvents or the above mentioned products.

Avoid contact with sharp implements.
