

DASCH

Short in stature, but not in style, the Dasch pendant by Luxxbox combines a sleek curve and subtle diffusion of light to create a striking luminaire. The integral linear LED provides up to 6000 lumens in various color temperatures, making it a perfect fit for boardrooms, office fit outs, corridors and hallways. Make full use of the void between desk and ceiling with a light that also acts as a tool for sound management.

Available in four sizes, a wide range of colors and a choice of black, brass, silver or copper anodized end cap finishes, Dasch offers a stylish solution that can be customized to suit any interior space. Offered in our solid PET color options or the printed MOTIF collection, the pendant is crafted from a dense polyester fiber material that is manufactured from recycled plastics and is fully recyclable at the end of life.
