- **Not Stackable**

STACKABILITY

WHASS chair is designed to offer a very high stacking level on both models: 4 legs and cantilever frame.

WHASS cantilever frame provides the possibility of stacking up to **30 chairs on the trolley** and up to **10 chairs vertically positioned**. (only without seat pad).

On the other hand, the 4 legs model provides the possibility of stacking up to **30 chairs on the trolley** and up to **10 chairs vertically positioned**. (only without seat pad).

NOTE: We suggest that chrome frames are used on projects where intensive use is required and where stacking/unstacking of chairs is done very often. Nevertheless, you can check with Sales department a special option to have both 4 legs and cantilever frames painted in high-resistant two-coated white paint based on quantities only for projects.

stacking details

		Seat WITHOUT PAD (models with and without arms)		Seat WITH PAD (models with and without arms)
