Classic

Balancing
performance
and value.

by therapod™

The Orthopod

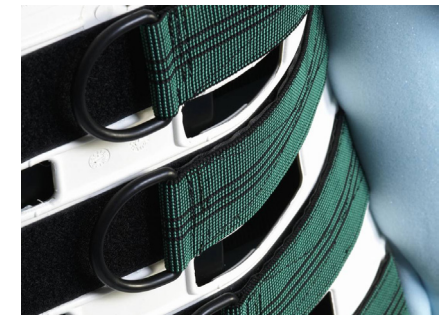

The Orthopod is a high quality Australian engineered and built chair. Behind its timeless design appeal is a patented adjustable back support with dynamic movement. Made for individuals as well as corporate fit-outs. Orthopod is the return of the classic by Therapod - Over 1 million have been sold and exported globally over 30 years.

Backrest System

The Orthopod classic features the original patented back technology developed by therapod.

Highly adjustable and highly comfortable, the Orthopod Classic provides back support and dynamic movement.

The only seating system in the world offering a fully adjustable back support with dynamic movement - for comfort and ergonomic support.

The Orthopod Classic supports every region of your back using body-specific strap adjustments.
