

Tempest is the original space-saving flip-top table system for use in multi-purpose eating, meeting, training and conferencing facilities.

Whether you prefer a big conference table, a modular meeting table, a low lounge table or a high bar table, Tempest has an array of answers. The benchmark flip-top mechanism is not only beautiful but also uniquely flexible and space-saving.

Tempest flip-top café/bar tables come with round, square and custom tabletops. They are available in melamine, laminate, linoleum and (stained) veneer, with straight or chamfered edge options. The world's leading flip-top table system and X-leg style with 4 adjustable glides make them easy to fit in any contract environment. Round upright and elliptical feet completes the whole purposeful design.

TESTING AND WARRANTY
